PRODUCT HIGHLIGHTS SHEET

EQUITY LINKED INVESTMENT (ELI)

This investment is linked to a Reference Equity listed on the Stock Exchange. Please read up on the financial report and background of the Company before investing in this product.

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

- Equity Linked Investment (ELI) is a **Non-Principal Protected** Investment linked to a Reference Equity listed on the Stock Exchange.
- Investor subscribes to ELI with the payment of a Subscription Amount.
- The Reference Equity, Investment Tenor, Enhanced Interest (%), Strike Level (%) and Strike Price are pre-agreed at the inception of the ELI. There are 2 possible outcomes:
 - i. If the ELI lapse, the Investor will receive the Subscription Amount and Enhanced Interest Amount in cash, or
 - ii. If the ELI is exercised, the Investor will receive the Reference Equity equivalent to the Subscription Amount. The Enhanced Interest Amount and Odd Lot(s) (if any) will be paid in cash.
- There will be no delivery of Odd Lot(s) in shares.

PRODUCT SUITABILITY

2. Who is this product suitable for?

This Investment is suitable for Investors who:

- Seek potentially higher interest return than ordinary time deposits.
- Are receptive towards receiving either the Investment Amount or the Reference Equity.
- May have potential requirements for the Reference Equity.

- The calculation agent shall take such actions or make such adjustments as it reasonably believes are appropriate in circumstances herein (which are not exhaustive). Any actions or adjustments by the calculation agent shall be made in good faith and not to the detriment of the Investor in general. The actions or adjustments, however, will not take into consideration the individual circumstances or tax or other consequences in any particular jurisdiction.
 - Increased Cost of Hedging**
The hedging party shall give prompt notice to the Investor that such increased costs have incurred and that a price adjustment shall be made to the Investment. The Investor shall within two (2) business days of receipt of the notice of increased cost of hedging and corresponding price adjustment, notify the hedging party that it elects to (a) agree to amend the relevant Investment to take into account the price adjustment, (b) pay the hedging party an amount determined by the calculation agent that corresponds to the price adjustment or (c) terminate the investment as of the second business day. If such notice is not given by the end of that Second business day, then the hedging party may give notice that it elects to terminate the Investment, specifying the date of such termination, which may be the same day that the notice of termination is effective. If either party elects to terminate the Investment, the calculation agent will determine the cancellation amount payable by one party to the other.
- "Price Adjustment" means an adjustment to the strike price/level, settlement price, accrual price/level, call price/level, initial reference asset price or other variable with respect to the Investment.

6. What are the possible outcomes of my Investment?

ILLUSTRATION ON PRODUCT RETURNS

Scenario Analysis:

The calculation is for illustration purpose and based on the following terms and conditions:

Subscription Amount	MYR 250,135.20	Reference Equity	MRC MK
Enhanced Interest (% p.a.)	25.80%	Share Quantity (units)	354,500
Investment Tenor	31 days	Initial Reference Equity Price (IREP)	0.735
Enhance Interest Amount	MYR 5,481.04	Strike Level (%)	96% of IREP
Investment Amount	MYR 255,616.24	Strike Price	0.7056

Best Case Scenario:

If the Valuation Price is **AT or ABOVE** the Strike Price, the ELI will lapse. The Investor earns an Enhanced Interest of 25.80%p.a. and will receive the Investment Amount on the Maturity Date.

Invested Currency	Subscription Amount	Enhanced Interest (p.a.)	Investment Tenor	Strike Rate	At Maturity Settled in	Investment Amount Formula	Investment Amount
MYR	250,135.20	25.80%	31	0.7056	Cash	Subscription Amount + ((Subscription Amount * Enhanced Interest * Investment Tenor/ day-count))	MYR 255,616.24
Investment Amount = MYR250,135.20 + (MYR250,135.20 * 25.80%p.a. * 31 days / 365) = MYR255,616.24							

Worst Case Scenario:

If the Valuation Price is **BELOW** the Strike Price, the ELI will be exercised. The Investor earns an Enhanced Interest of 25.80%p.a. and the Subscription Amount will be converted to shares at the pre-agreed Strike Price. The Investor will be repaid in the form of Reference Equity shares together with the Enhanced Interest Amount and Odd Lot(s) (if any) in cash. If the Reference Equity shares are reconverted at the prevailing market price, the Investor may realize a much lower return and may even realize a negative yield.

Invested Currency	Subscription Amount	Enhanced Interest (p.a.)	Investment Tenor	Strike Price	At Maturity Settled in	Share Quantity and Enhanced Interest Formula	Share Quantity & Enhanced Interest Amount
MYR	250,135.20	25.80%	31	0.7056	Shares	(Subscription Amount / Strike Price)	354,500 MRC MK shares
					& Cash	(Subscription Amount * Enhanced Interest * Investment Tenor/ day-count)	MYR 5,481.04
Share Quantity = MYR250,135.20 / 0.7056 = 354,500 MRC MK shares							
Enhanced Interest Amount = (MYR250,135.20 * 25.80%p.a. * 31 days / 365) = MYR5,481.04							

WARNING

At Maturity:-

Valuation Price (MYR)	Value at Maturity (MYR)	Final Settlement in	Potential Profit / Loss (MYR)
0.74	255,616.24	Cash [Subscription amount + Enhanced Interest Amount]	5,481.04
0.73	255,616.24	Cash [Subscription amount + Enhanced Interest Amount]	5,481.04
0.72	255,616.24	Cash [Subscription amount + Enhanced Interest Amount]	5,481.04
0.7056 (Strike Price)	255,616.24	Cash [Subscription amount + Enhanced Interest Amount]	5,481.04
0.6901 (Breakeven)	244,654.16	Shares + Cash [Reference Equity + Enhanced Interest Amount and Odd Lot(s) (if any)]	-
0.68	241,060.00	Shares + Cash [Reference Equity + Enhanced Interest Amount and Odd Lot(s) (if any)]	(3,594.16)
0.67	237,515.00	Shares + Cash [Reference Equity + Enhanced Interest Amount and Odd Lot(s) (if any)]	(7,139.16)
0.66	233,970.00	Shares + Cash [Reference Equity + Enhanced Interest Amount and Odd Lot(s) (if any)]	(10,684.16)

Note: If the Subscription Amount is repaid in the Reference Equity at maturity, the **Breakeven** is calculated based on an approximate Reference Equity Price that will result in the amount received being equal to the Subscription Amount initially invested minus the Enhanced Interest Amount.

KEY RISKS

- Credit Risk/Bank Default Risk**
The contract with the Investor represents a general unsecured contractual obligation which will rank equal with other existing and future general contractual obligations. If the Investor wishes to invest in this product, you should be taking note of the Bank's credit risk and you must therefore make your own assessment of the Bank's credit risk. Investor is placing funds with the Bank and is therefore relying on the Bank's ability to pay any interest and the Subscription Amount at maturity.
- Market Risk & Liquidity Risk**
The market value of this Investment is subject to many factors, including, but not limited to the equity price, levels of equity volatility and the implied future direction and liquidity of such factors.
- Premature Withdrawal Risk**
If an Investor seeks to withdraw or early redeem the Investment prior to the Maturity Date, the Investor may LOSE PART or ALL of the Subscription Amount invested. The unwinding cost for premature withdrawal is subject to the prevailing market condition.
- Equity Risk**
Although the shares quantity of the Reference Equity on Maturity date is predetermined at the time of establishment of the Investment, the Investor is subject to the risks of fluctuation in the Reference Equity share price. A decline in the Reference Equity share price on the valuation date relative to the strike price would result in the Bank exercising its right to pay the Investor in the form of Reference Equity shares. The result is that Investor will purchase the Reference Equity shares at a higher price relative to the market price at maturity and could substantially (depending on the decline in the Reference Equity) reduce what the Investor otherwise had at the time invested with the Bank. Any adjustment to the Valuation Price of the Reference Equity shall be rounded down/up to the nearest 1 cent (0.01) at the absolute discretion of the Bank.
- Option Risk**
This Investment is combined from many financial instruments, including options. Hence, the physical delivery of the Reference Equity based on the pre-agreed Strike Price or delivery by combination of cash and the Reference Equity is subject to the result of the options embedded in this product.
- Foreign Exchange Risk**
Foreign Currency Investment is subject to rate fluctuations which may provide both opportunities and risks. The Investor should note that any currency movements may potentially affect the redemption amount. Further, the Investor may experience a loss when he/she converts the Foreign Currency back to his/her home currency. The Investor should therefore determine whether any Foreign Currency Investment is suitable for him/her in light of his/her investment objectives, his/her financial means and his/her risk profile.

WARNING

THE RETURNS ON YOUR STRUCTURED PRODUCT INVESTMENT WILL BE AFFECTED BY THE PERFORMANCE OF THE UNDERLYING ASSET / REFERENCE, AND THE RECOVERY OF YOUR PRINCIPAL INVESTMENT MAY BE JEOPARDISED IF YOU MAKE AN EARLY REDEMPTION.

THIS INVESTMENT IS NOT INSURED BY PERBADANAN INSURANS DEPOSIT MALAYSIA.

FEES AND CHARGES

7. What are the fees and charges involved?

There will be no charges or fees when transacting in Equity Linked Investment (ELI).

8. How can I exit from this Investment and what are the risks and costs involved?

Unwinding Cost for Early Withdrawal

Investor seeking an Early Withdrawal of the investment may receive an amount that is substantially less than the Invested Amount, depending on the prevailing market condition. The simulations of early withdrawal are for illustration purposes only and it is based on the assumption of the unchanged interest rate volatility and future interest rate levels. The illustration above does not represent the actual unwinding cost that may be available to you as the unwinding cost is different for every Investment.

Based on the Scenario Analysis above:

- If the Investor early withdraw/terminates the Investment 10 days before the Maturity Date when the underlying asset is trading at 0.75, the cost to unwind this Investment is MYR 900.00

MYR 250,135.20 – MYR 900.00 = MYR 249,235.20 will be credited into the Investor's account on T+2.

- If the Investor early withdraw/terminates the Investment 10 days before the Maturity Date when the underlying asset is trading at 0.69, the cost to unwind this Investment is MYR 7,000.00

MYR 250,135.20 – MYR 7,000.00 = MYR 243,135.20 will be credited into the Investor's account on T+2.
