RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

GENERAL RISKS

Market risk

Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.

Fund management risk

This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Performance risk

The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.

Inflation risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Liquidity risk

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund. Upon such event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests. Please refer to "*What Is The Process of Repurchase Application*" section of this Prospectus for more details.

Operational risk

Operational risk is the risk of loss due to the breakdown, deficiencies or weaknesses in the operational support functions resulting in the operations or internal control processes producing an insufficient degree of customer quality or internal control by the Manager. Operational risk is typically associated with human error, system failure, fraud and inadequate or defective procedures and controls.

Financing risk

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

SPECIFIC RISKS

Stock specific risk

Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.

Shariah-compliant warrants investment risk

The value of the Shariah-compliant warrants will depend on the pricing of the underlying security whereby the growth and performance prospect of the underlying security would consequentially affect the value of the Shariah-compliant warrants. In addition, the value of the Shariah-compliant warrants may decrease exponentially as the Shariah-compliant warrants approach its maturity date and the potential gains from a favourable price movement of the underlying may be offset by aggressive time decay. We may consider unwinding these Shariah-compliant warrants if there are material adverse changes to its value with the aim to mitigate the risk.

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the investment (i.e. Sukuk and Islamic money markets instruments) and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

Interest rate risk

Sukuk and Islamic money market instruments are subject to interest rate fluctuations. Generally, movement in interest rates affects the prices of Sukuk and Islamic money market instruments inversely, for example, when interest rates rise, prices of Sukuk and Islamic money market instruments will fall. The fluctuations of the prices of the Sukuk and Islamic money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the Sukuk and Islamic money market instruments until their maturity. We also manage interest rate risk by considering each Sukuk's or Islamic money market instruments' sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to Sukuk or Islamic money market instruments that are less sensitive to interest rate changes.

(Note: Interest rate is a general indicator that will have an impact on the management of the Fund regardless of whether it is an Islamic fund or otherwise. It does not in any way suggest that this Fund will invest in conventional financial instruments).

Currency Risk

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

Reclassification of Shariah-status Risk

This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the SAC of the SC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose of such securities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant securities. We will be required to dispose of these securities immediately if the prices are above the purchase price. Should the prices be below the purchase price, we may choose to hold on to these holdings until the prices meet the purchase price. Nevertheless, should we decide to dispose of these securities below the purchase price, the Fund will be faced with the risk of realising its losses, thus

negatively impacting the NAV of the Fund. Please refer to “*Shariah Investment Guidelines*” of this Prospectus on the Fund’s Shariah methodology on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant securities.

Shariah non-compliance risk

As the Fund can only invest in Shariah-compliant investments, there is always a risk that losses may be suffered by the Fund when the Manager is forced to dispose investments to rectify any Shariah non-compliance. This risk is mitigated through the appointment of a Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.

RISK MANAGEMENT

As AIIIMAN is a wholly owned subsidiary of AHAM, the risk management function of AIIIMAN is being outsourced to AHAM. In day-to-day running of the business, AHAM employs a proactive risk management approach to manage portfolio risks and operational risks. The board of directors of AHAM (“the Board”) has established a board compliance & risk management committee to oversee AIIIMAN’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three (3) board members of AHAM and is chaired by an independent director of AHAM. At the operational level, AHAM has established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the portfolio’s objective and strategy). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund’s investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund’s limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund’s investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

ASSET ALLOCATION

Shariah-compliant equities	Minimum of 70%
Sukuk, Islamic money market instruments & Islamic deposits	Maximum 30%

INVESTMENT STRATEGY

To achieve its objective, the Fund will be investing in a portfolio consisting a minimum of 70% of its NAV in Shariah-compliant equities, while a maximum of 30% of its NAV in Sukuk, Islamic money market instruments and/or Islamic deposits.

The investment selection process will include dividend paying companies that are able to provide a steady income stream to the Fund. As such, we would adopt a bottom-up strategy where individual stock analysis forms the primary building blocks for portfolio construction and stock selection. The Fund focuses on higher dividend paying sectors where cash flows are more resilient towards the broader market environment, examples of which include utility companies. Similarly, the Fund will also look at selected lower dividend yielding stocks with prospects of growing its dividends to achieve an element of capital growth in addition to dividend yield on a total return basis. Key factors which are useful to the identification of such companies would include sales and profit growth, financial strength and gearing levels, capital expenditure levels as well as management commitment to rewarding shareholders via dividends or capital repayments. The dividends provided by these companies would be the primary source of income from which the Fund would then declare income distributions to you.

While we typically take an active trading policy, we look to maintain some core holdings that are held over the medium to long term which is similar to a buy and hold strategy. We will also maintain a trading portion for the portfolio, which we use to take advantage of beneficiaries during prevailing market conditions with the aim of boosting the Fund's performance.

The Fund intends to adopt a two-part approach whereby a portion of the Fund's investments will be focused towards stable and high-dividend yielding Shariah-compliant equities, and the other portion will be invested in "the next dividend leaders". These are equities which we believe could, in the medium term, potentially start paying high dividends or substantially increase the existing dividend payouts. The determination of proportion between the two parts will be driven by prevailing opportunities in the markets and premised on achieving the overall Fund's objective of providing regular income and capital growth over the medium to long term. However, as the Fund's primary objective is to provide regular income, there is a natural bias towards holding more of the stable and high dividend yielding Shariah-compliant equities.

While the Fund's core investments will remain in Shariah-compliant equities, the Fund holds the option to invest into Islamic fixed income instruments such as Sukuk, Islamic money market instruments and/or Islamic deposits. The selection of Islamic fixed income instruments will depend largely on its credit quality where the respective issuers will have strong ability to meet their financial obligations, healthy cash-flow, the collateral type, value, claims priority as well as offer higher safety for timely payment of profit and principal.

To achieve its objective, the Fund may invest in unlisted Shariah-compliant securities, Shariah-compliant warrants as well as Islamic collective investment schemes.

Foreign investment

The Fund will invest in Asia Pacific (ex Japan) countries where the regulatory authorities are the ordinary or associate members of the IOSCO. The Fund may also opt to invest into companies domiciled and/or listed outside of the Asia Pacific (ex Japan) markets. As the Fund remains primarily focused on investment opportunities within Asia Pacific (ex Japan), investments into global markets outside of Asia Pacific (ex Japan) will be capped to no more than 20% of the Fund's NAV.

Islamic Derivatives

The Fund may employ Islamic derivatives such as Islamic cross currency swaps that are certified by the Shariah Adviser for hedging purposes. Islamic cross currency swaps may be used to hedge the principal and/or the returns of the foreign-currency denominated investments back to the Base Currency. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

Temporary Defensive Position

We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions that may impact financial markets. To

manage the risk of the Fund, we may shift the Fund's focus and exposure into lower risk investments such as Islamic deposits or Islamic money market instruments.

depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in value of the Shariah-compliant investments, or as a result of repurchase of Units or payment made from the Fund).

We will not make any further acquisitions to which the relevant limit is breached and within a reasonable period of not more than three (3) months from the date of the breach, we will take all necessary steps and actions to rectify the breach.

VALUATION OF PERMITTED INVESTMENTS

In valuing the Fund’s investments, we will ensure that all the assets of the Fund will be valued at fair value and in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

➤ **Listed Shariah-compliant securities**

Valuations of listed Shariah-compliant securities such as Shariah-compliant equities or Shariah-compliant warrants shall be based on the market price of the respective securities. Where the use of the quoted market value is inappropriate, or where no market price is available, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such investments are valued at fair value determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation and verified by the auditors of the Fund.

➤ **Unlisted Shariah-compliant securities**

For unlisted Shariah-compliant securities, valuations will be based on fair value as determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Sukuk**

For unlisted MYR denominated Sukuk, valuation will be done using the fair value price quoted by a bond pricing agency (“BPA”) registered with the SC. If the Manager is of the view that the price quoted by BPA differs from the “market price” quoted by at least 3 independent dealers by more than 20 basis points and the Manager determines that the methodology used by the independent dealers to obtain the “market price” is more appropriate, the Manager may elect to use the price quoted by the independent dealers as the “market price”, provided that the Manager records its basis for using a non-BPA price, obtains the necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the “market yields”. Investments in other unlisted Sukuk will be valued using the average indicative price quoted by at least 3 independent dealers. For listed Sukuk, the valuations will be done in the same manner as “Listed Shariah-complaint Securities” described above.

➤ **Islamic deposit**

Islamic deposits placed with Financial Institutions are valued by reference to the principal value of such investments and the profit accrued thereon for the relevant period.

- **Islamic money market instruments**
The valuation of MYR denominated Islamic money market instruments will be done using the price quoted by a BPA registered with the SC. For foreign Islamic money market instruments, valuation will be done using the average indicative yield quoted by 3 independent and reputable institutions.
- **Islamic collective investment schemes**
Unlisted Islamic collective investment schemes will be valued based on the last published repurchase price. Listed Islamic collective investment schemes will be valued in the same manner as “Listed Shariah-complaint Securities” described above.
- **Islamic derivatives**
The valuation of Islamic derivatives will be based on the rates provided by the issuers. For foreign Shariah-complaint exchange forward contracts (“FX Forwards”), the Manager will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg. If the rates are not available on Bloomberg, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 1.80% per annum of the NAV of the Fund. This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued management fee for that day would be:

$$\frac{\text{MYR } 200,000,000 \times 1.80\%}{365 \text{ days}} = \text{MYR } 9,863.01 \text{ per day}$$

ANNUAL TRUSTEE FEE

The Fund pays an annual trustee fee of up to 0.06% per annum of the NAV of the Fund (excluding foreign custodian fees and charges). In addition to the annual trustee fee, which includes the transaction fee, i.e. the fee incurred for handling purchase/sale of local investments, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{MYR } 200,000,000 \times 0.06\%}{365 \text{ days}} = \text{MYR } 328.76 \text{ per day}$$

We or any of our delegates will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the account of the Fund.

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point For The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

Units in Circulation	300,000,000.00
	MYR
Investments	195,000,000.00
Add other assets	5,700,000.00
Gross asset value	200,700,000.00
Less: Liabilities	700,000.00
NAV (before deduction of management fee and trustee fee for the day)	200,000,000.00
Less: Management fee for the day	9,863.01
Less: Trustee fee for the day	328.76
NAV	199,989,808.23
NAV per Unit*	0.6666

* NAV per Unit is derived from the following formula:-

$$\frac{\text{NAV}}{\text{Units in Circulation}}$$

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units.	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units.	AIIMAN	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AIIMAN	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge is payable separately from the Selling Price and Repurchase Price.

During initial offer period, the Selling Price and/or the Repurchase Price is equivalent to the initial offer price. Forward Pricing will be used to determine the Selling Price and Repurchase Price after the initial offer period, i.e. the NAV per Unit as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

For illustration purposes, let's assume the following:

Investment Amount	MYR 10,000.00
Selling Price per Unit	MYR 0.50
Number Of Units Received*	MYR 10,000 ÷ MYR 0.50 = 20,000 Units
Sales Charge	5.50%
Sales Charge Paid By Investor**	5.50% x MYR 0.50 x 20,000 Units = MYR 550
Total Amount Paid By Investor***	MYR 10,000 + MYR 550 = MYR 10,550

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Amount invested}}{\text{Selling Price}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** Total amount paid by investor	=	Amount invested + Sales Charge paid by investor

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

Units Repurchased	20,000 Units
Repurchase Price	MYR 0.50
Repurchased Amount^	20,000 Units x MYR 0.50 = MYR 10,000
Repurchase Charge	0.00% of the NAV per Unit
Repurchase Charge Paid By Investor^^	0.00% x MYR 10,000 = MYR 0.00
Total Amount Received By investor^^^	MYR 10,000 - MYR 0.00 = MYR 10,000

Formula for calculating:-

^ Repurchase amount	=	Unit repurchased x Repurchase Price
^^ Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase amount
^^^ Total amount received by investor	=	Repurchased amount + Repurchase Charge paid by investor

TAXATION OF THE TRUST OFFERED UNDER AIIMAN ASIA PACIFIC (EX JAPAN) DIVIDEND FUND AND UNITHOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Prospectus ("hereinafter referred to as "the Prospectus") in connection with the offer of units in AIIMAN Asia Pacific (Ex Japan) Dividend Fund ("the Trust").

The taxation of income for both the Trust and the unitholders are subject to the provisions of the Malaysian Income Tax Act, 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE TRUST

The Trust will be regarded as resident for Malaysian tax purposes since the Trustee of the Trust is resident in Malaysia.

1. Domestic Investments

i. General Taxation

The income of the Trust consisting of dividends, interest or profit¹ (other than interest / profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments by the Trust will not be subject to income tax.

ii. Dividend and Other Exempt Income

All companies are under the single-tier taxation system. Hence, dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Trust may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Trust will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments are exempt from tax:

- (a) Securities or bonds issued or guaranteed by the Government of Malaysia;
- (b) Debentures or sukuk, other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

As such, provided the investment in structured products is seen to be “debentures” under Capital Markets and Services Act 2007, the income received will be exempted. Otherwise, tax implications could arise.

Interest income or profit¹ derived from the following investments are exempt from tax tax:

- (a) Interest or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013²;
- (b) Interest income paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest or profit¹ paid or credited by Malaysia Building Society Berhad³.

The interest income / profit¹ or discount exempted from tax at the Trust’s level will also be exempted from tax upon distribution to the unitholders.

2. Foreign Investments

Income of the Trust in respect of overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the unitholders. Such income from foreign investments may be subject to foreign taxes or withholding taxes in the specific foreign country. However, any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Trust in Malaysia.

The foreign income exempted from Malaysian tax at the Trust level will also be exempted from tax upon distribution to the unitholders.

3. Tax Allowable Expenses

Expenses wholly and exclusively incurred in the production of taxable gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers’ remuneration, expenses on maintenance of the register of Unitholders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages. The deduction is based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

4. Other Income

The Trust may be receiving income such as exit fee which will be subject to tax at the rate of 24 percent.

5. Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

6. Real Property Gains Tax (“RPGT”)

Any gains on disposal of real properties or shares in real property companies⁴ (chargeable asset) by the Trust would be subject to RPGT at the following rates:-

Disposal time frame	RPGT rates
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	5%

7. Sales and Services Tax (“SST”)

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax (“GST”). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

In general, the Trust, being collective investment vehicles, will not be caught under the service tax regime.

Certain professional, consultancy or management services obtained by the Trust may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax.

TAXATION OF UNITHOLDERS

Unitholders will be taxed on an amount equivalent to their share of the total taxable income of the Trust to the extent of the distributions received from the Trust. The income distribution from the Trust will carry a tax credit in respect of the Malaysian tax paid by the Trust. Unitholders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Trust.

Corporate unitholders, resident⁶ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Trust. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unitholders.

Individuals and other non-corporate Unitholders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 28 per cent. Individuals and other non-corporate Unitholders who are not resident in Malaysia will be subject to income tax at 28 per cent. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unitholders.

Non-resident Unitholders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant country’s tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of exempt income and gains arising from the disposal of investments by the Trust will be exempted from tax in the hands of the Unitholders.

Any gains realised by Unitholders (other than those in the business of dealing in securities, insurance companies or financial institutions) on the sale or redemption of the units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Trust.

Unitholders electing to receive their income distribution by way of investment in the form of new units will be regarded as having purchased the new units out of their income distribution after tax.

Unit splits issued by the Trust are not taxable in the hands of unitholders.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Trust.

Yours faithfully,
for and on behalf of
