# RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

## GENERAL RISKS

### ➤ **Manager's Risk**

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraudulent, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

### ➤ **Inflation Risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

### ➤ **Loan Financing Risk**

This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan.

### ➤ **Operational Risk**

This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will regularly review its internal policies and system capability to mitigate this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

## SPECIFIC RISKS

The specific risks associated with the securities/instruments in which the Fund will invest are as tabulated below:-

### ➤ **Stock Specific Risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

### ➤ **Warrants Investment Risk**

The value of the warrants will depend on the pricing of the underlying security whereby the growth and performance prospect of the underlying security would consequentially affect the value of the warrants. In addition, the value of the warrants may decrease exponentially as the warrants approach its maturity date and the potential gains from a favourable price movement of the underlying may be offset by aggressive time decay. We may consider unwinding these warrants if there are material adverse changes to its value with the aim to mitigate the risk.

### ➤ **Currency Risk**

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

#### *Currency risk at the Fund level*

The impact of the exchange rate movement between the Base Currency of the Fund and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the Base Currency of the Fund.

#### *Currency risk at the Hedged Class level*

Currency hedging reduces the effect of exchange rate movements for the Hedged Class, but it does not entirely eliminate currency risk between the Hedged Class and the currency of the underlying investments (not a perfect hedge). Hence, the unhedged portion of the respective Hedged Class will be affected by the exchange rate movements and it may cause fluctuation of NAV of the respective Hedged Class. You should note however, that if the exchange rate moves favourably, the Fund would not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and cost of hedging which may affect returns of the respective Hedged Class.

#### ➤ **Single Country Risk**

The investment of the Fund in securities issued by companies which are domiciled in Japan or companies which derive its earnings from Japan may be affected by risks specific to Japan. Such risks, which include changes in economic fundamentals, social and political stability and sovereign policies, may have an impact on the prices of the Fund's investment in Japan. Consequently, it may also affect the Fund's NAV.

#### ➤ **Regulatory Risk**

The investments of the Fund are exposed to changes in the laws and regulations in the countries that the Fund invests in. These regulatory changes pose a risk to the Fund as it may materially impact the investments of the Fund. To manage and mitigate such risk, the Manager seeks to continuously keep abreast of regulatory developments (for example, by closely monitoring announcements on regulators' website and mainstream medias) in the country that the Fund invest in. The Manager may dispose its investments in that particular country should the regulatory changes adversely impact the Unit Holders' interest or diminish returns to the Fund.

## **RISK MANAGEMENT**

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks and operational risks. The Board has established a board compliance & risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment strategy and portfolio decisions taken at the meetings are then implemented according to the investment guidelines and risks tolerance which also take into account asset allocations based on sectors, geographies and asset classes (based on the portfolio's objective and strategy) to mitigate risks. We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

To manage compliance and regulatory risks, we use information technology system that is able to monitor the trading of equities to ensure compliance with the Fund's limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and Guidelines violations.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

**! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.**

## BENCHMARK

TOPIX (Tokyo Stock Price Index) Total Return Index

*(Investors may obtain information on the benchmark from the Manager upon request.)*

*Note: The risk profile of the Fund is different from the risk profile of the performance benchmark.*

## ASSET ALLOCATION

Equities	Minimum of 70%
Liquid assets including money market instruments and deposits	Maximum of 30%

## INVESTMENT STRATEGY

The Fund will focus on achieving its objective by investing in a portfolio consisting a minimum of 70% of its NAV in equities, while the remaining balance may be invested into liquid assets including money market instruments and deposits.

The Fund's investment focus will be on Japanese companies that are undervalued, and are able to display growth potential. The Fund will utilise fundamental research to identify stocks that are undervalued due to mispricing, or going through changes in their business strategy. In the long term, we believe these undervalued companies hold the potential to rise to the price levels that reflect their fundamentals. Key factors which are useful to the identification of such companies would include sales and profit growth, financial strength and gearing levels, expected future earnings growth, share price valuation as well as management quality.

*The reference of "Japanese companies" in the above paragraph means companies which are domiciled in Japan or companies which derive its earnings from Japan.*

While we typically take an active trading policy, we look to maintain some core holdings that are held over the medium to long term which is similar to a buy and hold strategy. We will also maintain a trading portion for the portfolio, which we use to take advantage of beneficiaries during prevailing market conditions with the aim of boosting the Fund's performance.

To achieve its objective, the Fund will also have the flexibility to invest in collective investment schemes that have similar investment objectives to the Fund, as well as equity-linked instruments such as warrants. We expect to have a small portion of collective investment schemes and warrants investments relative to the size of the Fund.

### Usage of Derivative

The Fund may employ derivative investments for hedging purposes by participating in instruments such as forward contracts and cross currency swaps.

Forward exchange contracts enable the Fund to trade currency at a specific exchange rate, specific time and specific amount as indicated in the contract. Cross currency swaps allows the Fund to convert foreign exchange rates and/or interest rate exposures between two currencies.

These derivatives may be used to hedge the principal and/or the returns of the foreign currency denominated investments back to MYR. The employment of derivatives under these circumstances, is expected to reduce the impact of foreign currency movements on the Fund's NAV. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential gains from the hedging strategy will be capped as well.

### Temporary Defensive Positions

We hold the option to take temporary defensive measures that may be inconsistent with the Fund's principal strategy, and asset allocation to protect the Fund against adverse market conditions. To manage the risk of the Fund, we may shift the Fund's focus into lower risk investments such as deposits with Financial Institutions or money market instruments.

All foreign assets are translated into Base Currency based on the bid exchange rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 a.m. midnight (Malaysian time) on the same day, or such time as stipulated in the investment management standards issued by the FiMM.

We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

### ➤ **Equities**

Valuation of listed equities which are quoted on an approved exchange shall be based on the market price on that approved exchange. Where no market price is available, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed securities will be valued at fair value determined in good faith by us, based on the methods or bases approved by the Trustee after appropriate technical consultation.

For unlisted equities, valuations will be based on fair value using methods which are verified by the auditor of the Fund and approved by the Trustee.

### ➤ **Deposits**

Deposits placed with Financial Institutions are valued by reference to the principal value of such investments and the interests accrued thereon for the relevant period.

### ➤ **Fixed Income Securities**

Valuation of listed fixed income securities will be based on the closing market price on that approved exchange. Valuation of unlisted MYR-denominated fixed income securities will be done using the fair value price quoted by a bond pricing agency ("BPA") registered with the SC. If we are of the view that the price quoted by BPA differs from the market price quoted by at least three (3) independent dealers by more than 20 basis points and we determine that the methodology used by the independent dealers to obtain the market price is more appropriate, we may elect to use the price quoted by the independent dealers as the market price, provided that we record its basis for using a non-BPA price, obtains the necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the market yields. Investments in other unlisted

non MYR-denominated fixed income securities will be valued using the average indicative price quoted by at least 3 independent and reputable Financial Institutions.

➤ **Collective Investment Schemes**

Collective investment schemes which are quoted on an approved exchange will be valued in the same manner as listed equities as described above. Investments in unlisted collective investment schemes shall be valued based on the last published repurchase price.

➤ **Derivatives and Structured Products**

The valuation of derivatives and structured products will be based on the rates provided by the respective issuers. For foreign exchange forward contracts ("FX Forwards"), we will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg. If the rates are not available on the Bloomberg, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where we are unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Any other investment**

Fair value as determined in good faith by us on methods or bases which have been verified by the auditor of the fund and approved by the Trustee.

## VALUATION POINT OF THE FUND

The valuation point for the purpose of determining the NAV of the Fund and NAV per Unit will be carried out at 11.00 a.m. on the next Business Day (or "trading day + 1").

If the foreign market in which the Fund is invested therein is closed for business, the Manager will value the investment based on the latest available price as at the day the particular foreign market was last opened for business.

## POLICY ON GEARING AND MINIMUM LIQUID ASSETS REQUIREMENTS

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines [SBL Guidelines]) in connection with its activities. However, the Fund may borrow cash for the purpose of meeting repurchase requests for Units and for short-term bridging requirements subject to the following:

- the Fund's borrowing is only on a temporary basis and that borrowings are not persistent;
- the borrowing period should not exceed one (1) month;
- the aggregate borrowings of the Fund should not exceed 10% of the Fund's NAV at the time the borrowing is incurred; and

Distributors	Maximum Sales Charge (chargeable as a percentage) of the Initial Offer Price of a Class during the Initial Offer Period and thereafter, the NAV per Unit of a Class

### TRANSFER FEE

There will be no transfer fee imposed on the transfer facility.

### SWITCHING FEE

## FEES AND EXPENSES

With the issuance of multiple Classes in this Fund, the fees and expenses for the Fund are apportioned based on the size of the Class relative to the whole Fund, which is also known as multi-class ratio. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of MYR 100 and assuming further the size of the MYR Class over the size of the Fund is 60% whereas the size of the MYR-Hedged Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the MYR Class.

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

### ANNUAL MANAGEMENT FEE

The management fee is up to 1.80% of the NAV of the Fund per annum (before deducting the management fee and trustee fee). This fee is calculated and accrued daily and payable monthly to the Manager.

*Please note that the example below is for illustration only:*

Management fee per annum	:	1.80% of the NAV of the Fund
Total NAV of the Fund (before deducting the management fee and the trustee fee)	:	MYR 130 million
Management fee for the day	:	$\frac{\text{MYR}130,000,000 \times 1.80\%}{365 \text{ days}} = \text{MYR } 6,410.96$

The management fee is payable monthly to the Manager and is apportioned to each Class based on the multi-class ratio.

### ANNUAL TRUSTEE FEE

The trustee fee is up to 0.06% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), and is calculated using the Fund's Base Currency (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly. In addition to the annual trustee fee, which includes the transaction fee, i.e. the fee incurred for handling of purchase/sale of local investments, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

*Please note that the example below is for illustration only:*

Trustee fee per annum	:	0.06% of the NAV of the Fund
Total NAV of the Fund (before deducting the management fee and the trustee fee)	:	MYR 130 million
Trustee fee for the day	:	$\frac{\text{MYR } 130,000,000 \times 0.06\%}{365 \text{ days}} = \text{MYR } 213.70$

The trustee fee is payable monthly to the Trustee and is apportioned to each Class based on the multi-class ratio.

## ADMINISTRATIVE FEES

Only fees and expenses that are directly related and necessary to the business of the Fund may be charged to the Fund. These include the following:-

- Commissions or fees paid to brokers or dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- (where the custodial function is delegated by the Trustee) charges and fees paid to sub-custodians taking into custody any foreign assets of the Fund;
- Taxes and other duties charged on the Fund by the government and/or other authorities;

- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- Costs and expenses incurred in relation to the distribution of income (if any); and
- Any other expenses allowed under the Deed.

All Fund expenses are apportioned to each Class based on the multi-class ratio.

Expenses related to the issuance of this Prospectus will be borne by the Manager.

## GOODS AND SERVICES TAX

The Royal Malaysian Customs Department has announced the implementation of GST with effect from 1 April 2015 pursuant to the Goods and Services Tax Act 2014. Collective investment schemes are generally exempted from GST. However, some fees, charges and expenses of the Fund are subject to GST which includes:

- Sales Charge;
- Repurchase Charge (if any);

Accordingly, any rebate or shared commission should be directed to the account of the Fund.

- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund.

**All fees and charges payable by you are subject to all applicable taxes (including but not limited to goods and services taxes) and/or duties as may be imposed by the government and/or the relevant authorities from time to time.**

# PRICING

## COMPUTATION OF NAV AND NAV PER UNIT

In this section, you will be introduced to certain terms used to explain how the Fund arrives at its NAV and consequently, NAV per Unit for each Class of the Fund. Under this section, please note the following definitions:-

“Value of the Fund before Income & Expenses”	Refers to the current value of the Fund inclusive of purchases and/or repurchases before the next valuation point.
“Value of a Class before Income & Expenses”	Refers to the current value of a Class inclusive of purchases and/or repurchases before the next valuation point.

You should also note that the NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at a particular valuation point. The NAV per Unit of a Class of Units is the NAV of the Fund attributable to a Class divided by the number of Units in Circulation for that particular Class, at the same valuation point.

Please refer to Section “*Valuation Point Of The Fund*” of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

	Fund (MYR)	MYR-Hedged Class (MYR)	MYR Class (MYR)
Value of the Fund / Class before Income & Expenses	75,000,000.00	30,800,000.00	44,200,000.00

<b>NAV of the Fund (after GST)</b>	<b>77,555,810.49</b>	<b>31,828,280.66</b>	<b>45,727,529.83</b>
Total Unit in Circulation	150,000,000	60,000,000	90,000,000
NAV per Unit in Base Currency **		0.5305	0.5081

For the purpose of the illustration above, the computation of NAV and NAV per Unit are based on the assumption that the expenses are inclusive of GST.

Note:

- \* Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the *Value of a Class before Income & Expenses* for a particular day and dividing it with the *Value of the Fund before Income & Expenses* for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

\*\* NAV per Unit of a Class is derived from the following formula:-

$$\frac{\text{NAV of the particular Class}}{\text{Units in Circulation for the particular Class}}$$

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit per Class. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

\*\*\* Income from hedging will only be applicable to the MYR-Hedged Class as the Class would participate into instruments to hedge the class currency against the currency of the underlying investments. As such, all costs incurred and / or income earned as a result of participating in the said instruments would only be borne and/or enjoyed by the Unit Holders of the MYR-Hedged Class.

## INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00 or its foreign currency equivalent, if applicable. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units.	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units.	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

## COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

During Initial Offer Period, the Selling Price and the Repurchase Price for all Classes is equivalent to the Initial Offer Price of each Class and thereafter, the NAV per Unit of the respective Class. Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class after the Initial Offer Period, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

### Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of Initial Offer Price during Initial Offer Period and thereafter, of the NAV per Unit of the respective Class.

For illustration purposes, we would assume the following during the Initial Offer Period:

Class	MYR Class	MYR-Hedged Class
Investment Amount	MYR 10,000	MYR 10,000
Selling Price	MYR 0.50	MYR 0.50
Number Of Units Received*	MYR 10,000 ÷ MYR 0.50 = 20,000 Units	MYR 10,000 ÷ MYR 0.50 = 20,000 Units
Sales Charge	5.50%	5.50%
Sales Charge Paid By Investor**	5.50% x MYR 0.50 x 20,000 Units = MYR 550	5.50% x MYR 0.50 x 20,000 Units = MYR 550
GST of 6%***	MYR 550 x 6% = MYR 33	MYR 550 x 6% = MYR 33
Total Amount Paid By Investor****	MYR 10,000 + MYR 550 + MYR 33 = MYR 10,583	MYR 10,000 + MYR 550 + MYR 33 = MYR 10,583

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Amount invested}}{\text{Selling Price}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** GST of 6%	=	Sales Charge paid by investor x 6%
**** Total amount paid by investor	=	Amount invested + Sales Charge paid by investor + GST

The above calculation is applicable after the Initial Offer Period except that the Selling Price will be the NAV per Unit of the respective Class.

### Calculation of Repurchase Price

Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of Initial Offer Price during Initial Offer Period and thereafter, of the NAV per Unit of the respective Class.

For illustration purposes, we would assume the following during the Initial Offer Period:

Class	MYR Class	MYR-Hedged Class
Units Repurchased	20,000 Units	20,000 Units
Repurchase Price	MYR 0.50	MYR 0.50
Repurchased Amount <sup>^</sup>	20,000 Units x MYR 0.50 = MYR 10,000	20,000 Units x MYR 0.50 = MYR 10,000
Repurchase Charge	0.00%	0.00%
Repurchase Charge Paid By Investor <sup>^^</sup>	0.00% x MYR 10,000 = MYR 0.00	0.00% x MYR 10,000 = MYR 0.00
GST of 6% <sup>^^^</sup>	MYR 0.00 x 6% = MYR 0.00	MYR 0.00 x 6% = MYR 0.00
Total Amount Received By investor <sup>^^^^</sup>	MYR 10,000 + MYR 0.00 + MYR 0.00 = MYR 10,000	MYR 10,000 + MYR 0.00 + MYR 0.00 = MYR 10,000

Formula for calculating:-

<sup>^</sup> Repurchase amount	=	Unit repurchased x Repurchase Price
<sup>^^</sup> Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase amount
<sup>^^^</sup> GST of 6%	=	Repurchase Charge paid by investor x 6%
<sup>^^^^</sup> Total amount received by investor	=	Repurchased amount + Repurchase Charge paid by investor + GST

The above calculation is applicable after the initial offer period except that the Repurchase Price will be the NAV per Unit of the respective Class.

Dear Sirs

## **AFFIN HWANG WORLD SERIES – JAPAN GROWTH FUND**

### **– TAXATION OF THE FUND AND UNITHOLDERS**

1. This letter has been prepared for inclusion in the Replacement Prospectus in connection with the offer of units in the Affin Hwang World Series – Japan Growth Fund (hereinafter referred to as “the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the Securities Commission Malaysia (“SC”) and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

## **2. Taxation of the Fund**

### **2.1 Income Tax**

As the Fund’s Trustee is resident in Malaysia, the Fund is regarded as resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%. Effective for years of assessment 2017 and 2018, the incremental portion of the chargeable income compared to the immediate preceding year of assessment enjoys reduced income tax rate as follows:

<b>% of increase in chargeable income as compared to the immediate preceding year of assessment</b>	<b>Percentage point reduction in tax rate</b>	<b>Tax rate after reduction (%)</b>
Less than 5.00	NIL	24
5.00 – 9.99	1	23
10.00 – 14.99	2	22
15.00 – 19.99	3	21
20.00 and above	4	20

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive dividends, profits and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a unit trust is exempted from Malaysian income tax. However, such income may be subject to foreign tax in the country from which the income is derived.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts ("REIT") will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager's remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

## **2.2 Gains on Disposal of Investments**

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

## **2.3 Goods and Services Tax ("GST")**

GST was implemented in Malaysia effective from 1 April 2015. GST replaces the Sales and Service Tax regimes and has a standard rate of 6% with some exceptions.

If the Fund is required to register for GST, any fees it charges to unitholders will be subject to GST at 6%.

The issuance of units by the Fund to investors will not be subject to GST, and no GST would be included in the price of the units. To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to GST. To the extent that arranging and intermediary fees are charged to the Fund in relation to these acquisitions (e.g. brokerage), these fees would be subject to 6% GST.

Any distributions made by the Fund to unitholders are also not subject to GST.

The GST paid on acquisitions made by the Fund (e.g. fund manager fees, trustee fees etc.) would either be unrecoverable in whole or in part and would be subject to further analysis to determine the extent that GST can be recovered.

### 3. Taxation of Unit Holders

#### 3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia :-

Unit Holders	Malaysian Tax Rates for Year of Assessment 2018

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

### **3.2 Tax Exempt Distribution**

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

### **3.3 Distribution Voucher**

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

### **3.4 Sale, Transfer or Redemption of Units**

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

### **3.5 Reinvestment of Distribution**

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

### **3.6 Unit Splits**

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

### **3.7 GST**

The Unit Holders should not be subject to GST on the following:-
