## GLOSSARY

<b>2010 Law</b>	Means the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended, modified or supplemented from time to time.
<b>Act</b>	Means the Capital Markets and Services Act 2007 as may be amended from time to time.
<b>Base Currency</b>	Means the currency in which the Fund is denominated i.e. USD.
<b>Bursa Malaysia</b>	Means the stock exchange operated by Bursa Malaysia Securities Berhad including such other name as it may be amended from time to time.
<b>Business Day</b>	Means a day on which Bursa Malaysia and/or one or more of the foreign markets in which the Fund is invested in are open for business/trading. The Manager may declare certain Business Days as non-Business Days when deemed necessary, such as (i) in the event of market disruption; (ii) if the jurisdiction of the Target Fund declares that day as a non-business day; and/or (iii) if that day is declared as a non-dealing day for the Target Fund.
<b>China A Shares</b>	Means securities of companies that are incorporated in the PRC and denominated and traded in Renminbi on the SSE and SZSE.
<b>ChinaClear</b>	Means China Securities Depository and Clearing Corporation Limited which is the PRC's central securities depository in respect of the China A Shares.
<b>Class(es)</b>	Means any number of class(es) of Unit(s) representing similar interests in the assets of the Fund although a class of Units of the Fund may have different features from another class of Units of the Fund.

<b>Communiqué</b>	Refers to the notice issued by the Manager to the Unit Holders.
<b>Company</b>	Refer to BlackRock Global Funds.
<b>CVC Capital Partners Asia Fund V</b>	Means collectively (1) CVC Capital Partners Asia V L.P.; (2) CVC Capital Partners Investment Asia V L.P.; and (3) CVC Capital Partners Asia V Associates L.P.
<b>Deed</b>	Refers to the deed dated 15 January 2019 and the first supplemental deed dated 16 November 2023 entered into between the Manager and the Trustee and includes any subsequent amendments and variations to the deed.
<b>Depository</b>	Refers to the Bank of New York Mellon SA/NV, Luxembourg Branch.
<b>Development Financial Institution</b>	Means a development financial institution under the Development Financial Institutions Act 2002.
<b>ESG Provider</b>	Means a provider of ESG research, reports, screening, ratings and/or analysis including, without limitation, third party index providers, ESG consultancies or members of the BlackRock Group.
<b>ESMA</b>	Means the European Securities and Markets Authority, an EU financial regulatory institution located in Paris.
<b>Financial Institution</b>	Means (1) if the institution is in Malaysia – <ul style="list-style-type: none"> <li>(i) Licensed Bank;</li> <li>(ii) Licensed Investment Bank;</li> <li>(iii) Development Financial Institution; or</li> <li>(iv) Licensed Islamic Bank; or</li> </ul> (2) if the institution is outside Malaysia, any institution that is licensed, registered, approved or authorised by the relevant banking regulator to provide financial services.
<b>Forward Pricing</b>	Means the method of determining the price of a Unit which is the NAV per Unit at the next valuation point after an application for purchase or repurchase request is received by the Manager.
<b>Fund</b>	Means AHAM World Series – Global Healthscience Fund ( <i>formerly known as Affin Hwang World Series – Global Healthscience Fund</i> ).
<b>Guidelines</b>	Means the <i>Guidelines on Unlisted Capital Market Products Under The Lodge And Launch Framework</i> issued by the SC as may be amended from time to time.
<b>Hedged-class</b>	Means a particular Class that aims to reduce the effect of exchange rate fluctuations between the Base Currency and the currency in which Unit Holders are exposed to having invested in that Class, also known as NAV hedging method.  NAV hedging is undertaken regardless of whether the Base Currency is expected to increase or decline in value relative to the hedged currency.
<b>Information Memorandum</b>	Means this offer document in respect of this Fund as may be replaced or amended from time to time.
<b>Licensed Bank</b>	Means a bank licensed under the Financial Services Act 2013.
<b>Licensed Investment Bank</b>	Means an investment bank licensed under the Financial Services Act 2013.
<b>Licensed Islamic Bank</b>	Means an Islamic bank licensed under the Islamic Financial Services Act 2013.
<b>long term</b>	Means a period of five (5) years and above.
<b>Manager or AHAM</b>	Means AHAM Asset Management Berhad.
<b>Management Company</b>	Refers to BlackRock (Luxembourg) S.A., which has been appointed by the Company as its management company.
<b>NAV</b>	Means the value of all the assets of the Fund less the value of all the liabilities of the Fund at a valuation point; where the Fund has more than one Class, there shall be a NAV attributable to each Class.

<b>NAV per Unit</b>	Means the NAV of the Fund at a particular valuation point divided by the number of Units in Circulation at the same valuation point; where the Fund has more than one Class, there shall be a NAV per Unit for each Class; the NAV per Unit of a Class at a particular valuation point shall be the NAV of the Fund attributable to that Class divided by the number of Units in Circulation of that Class at the same valuation point.
<b>regulated market</b>	Means a stock exchange or a regulated, recognised market which is a market that operates regularly and is open to the public in any country that, as defined in article 41(1) of the 2010 Law.
<b>Repurchase Charge</b>	Means a charge imposed pursuant to a repurchase request.
<b>Repurchase Price</b>	Means the price payable to a Unit Holder by the Manager for a Unit pursuant to a repurchase request and it shall be exclusive of any Repurchase Charge. <i>The Repurchase Price is equivalent to the initial offer price during the initial offer period and NAV per Unit after the initial offer period.</i>
<b>Sales Charge</b>	Means a charge imposed pursuant to a purchase request.
<b>Selling Price</b>	Means the price payable by a Unit Holder for the Manager to create a Unit in the Fund and it shall be exclusive of any Sales Charge. <i>The Selling Price is equivalent to the initial offer price during the initial offer period and NAV per Unit after the initial offer period.</i>
<b>Sophisticated Investor</b>	Refers to any person (a) who falls within any of the categories of investors set out in Part 1, Schedules 6 and 7 of the Act; (b) who acquires unlisted capital market products where the consideration is not less than two hundred and fifty thousand ringgit or equivalent in foreign currencies for each transaction whether such amount is paid for in cash or otherwise; or (c) any other person as may be determined by the SC from time to time under the Guidelines.  Note: For more information, please refer to our website at <a href="http://www.aham.com.my">www.aham.com.my</a> for the current excerpts of Part 1, Schedules 6 and 7 of the Act and the list of other Sophisticated Investors as permitted by the SC under the Guidelines.
<b>Special Resolution</b>	Means a resolution passed at a meeting of Unit Holders duly convened in accordance with the Deed by a majority of not less than three-fourths (3/4) of the Unit Holders present and voting at the meeting in person or by proxy; for the avoidance of doubt, “three-fourths (3/4) of the Unit Holders present and voting” means three-fourths (3/4) of the votes cast by the Unit Holders present and voting; for the purposes of terminating the Fund or a Class, “Special Resolution” means a resolution passed at a meeting of Unit Holders duly convened in accordance with the Deed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by the Unit Holders present and voting at the meeting in person or by proxy.
<b>Stock Connect(s)</b>	Means each of the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.
<b>Target Fund</b>	Refers to BlackRock Global Funds (BGF) World Healthscience Fund.
<b>Target Fund Manager</b>	Refers to BlackRock Investment Management, LCC.
<b>Target Fund Prospectus</b>	Means the offering document of the Target Fund dated 29 December 2022, as updated and amended from time to time.
<b>Trustee</b>	Refers to TMF Trustees Malaysia Berhad.
<b>UCITS Directive</b>	Means the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to UCITS, as amended.
<b>Unit or Units</b>	Means an undivided share in the beneficial interest and/or right in the Fund and a measurement of the interest and/or right of a Unit Holder in the Fund and means a Unit of the Fund and if the Fund has more than one Class, it means a Unit issued for each Class.

<b>Units in Circulation</b>	Means Units created and fully paid for and which have not been cancelled. <i>It is also the total number of Units issued at a particular valuation point.</i>
<b>Unit Holder, you</b>	Means the person / corporation for the time being who, in full compliance to the relevant laws is a Sophisticated Investor pursuant to the Guidelines including a jointholder.
<b>US Person</b>	Means a US citizen or US tax resident individual (including a green-card holder, an individual with substantial US presence and an individual who has US permanent or mailing address), a US corporation, US partnership, US trust or US estate for US federal income tax purposes.

Reference to first person pronouns such as “we”, “us” or “our” in this Information Memorandum means the Manager/AHAM.

# ABOUT AHAM WORLD SERIES - GLOBAL HEALTHSCIENCE FUND

<b>FUND CATEGORY</b>	: Feeder Wholesale	<b>BASE CURRENCY</b>	: USD
<b>FUND TYPE</b>	: Growth	<b>FINANCIAL YEAR END</b>	: 30 April
<b>DISTRIBUTION POLICY</b>	: The Fund is not expected to make distribution. However, incidental distribution may be declared whenever is appropriate.		

## INVESTMENT OBJECTIVE

The Fund seeks to achieve capital appreciation over the long term period.

*Any material change to the Fund's investment objective would require Unit Holders' approval.*

## ASSET ALLOCATION

- A minimum of 80% of the Fund's NAV to be invested in the Target Fund; and
- A maximum of 20% of the Fund's NAV to be invested in money market instruments and/or deposits.

## INVESTMENT STRATEGY

The Fund will be investing a minimum of 80% of the Fund's NAV in the Target Fund and a maximum of 20% of the Fund's NAV in money market instruments and/or deposits.

We may substitute the Target Fund with another fund that has a similar objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holder's approval before such change is made.

## Temporary Defensive Measure

We may take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation by reducing its investments in the Target Fund and raise the liquidity level of the Fund during adverse market conditions that may impact financial markets to protect the Unit Holders' interest. In raising the Fund's liquidity level, we may also invest in CIS that are relevant and consistent with the investment objective of the Fund. To manage the risk of the Fund, we may shift the Fund's focus and exposure to lower risk investments such as deposits or money market instruments.

## Derivatives

Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to preserve the value of the assets from any adverse price movements. While the hedging transactions will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.

## Cross Trades Policy

AHAM may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the aforesaid, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by AHAM's Compliance Unit, and reported to AHAM's compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.

## **PERMITTED INVESTMENTS**

The Fund will invest in the following investments:

- CIS;
- Money market instruments;
- Deposits;
- Derivatives; and
- Any other form of investments as may be determined by the Manager from time to time that is in line with the Fund's objective.

## **VALUATION POINT OF THE FUND**

The Fund will be valued at 6.00 p.m. on every Business Day (or "trading day" or "T day"). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or "T + 1 day"). All foreign assets are translated into the Base Currency based on the bid exchange rate quoted by Bloomberg/Refinitiv at 4.00 p.m. (United Kingdom time) which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FIMM.

## **VALUATION OF ASSETS**

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively. The valuation bases for the permitted investments of the Fund are as below:

### ➤ **Unlisted CIS**

Valuation of investments in unlisted CIS shall be based on the last published repurchase price.

### ➤ **Deposits**

Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of the deposits and the interests accrued thereon for the relevant period.

### ➤ **Money Market Instruments**

Valuation of MYR denominated money market instruments will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-MYR denominated money market instruments, valuation will be done using an average of quotations provided by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

### ➤ **Derivatives**

Valuation of derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the derivatives (e.g. interest rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For foreign exchange forward contracts ("FX Forwards"), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg/Refinitiv. If the rates are not available on Bloomberg/Refinitiv, the FX Forwards will be valued based on a fair value as determined in good faith by the Manager, using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

### ➤ **Any Other Investments**

Fair value as determined in good faith by the Manager, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

## ABOUT THE CLASSES

If you intend to invest in a Class other than MYR Class and MYR Hedged-class, you are required to have a foreign currency account with any Financial Institution as all transactions relating to the particular foreign currency will ONLY be made through telegraphic transfers.

Classes	USD Class	MYR Class	MYR Hedged-class	SGD Hedged-class	AUD Hedged-class	GBP Hedged-class	EUR Hedged-class	RMB Hedged-class	
<b>Initial Offer Price</b>	N/A+	N/A+	N/A+	N/A+	N/A+	GBP 0.50**	EUR 0.50**	RMB 0.50**	
	+The price of Units for USD Class, MYR Class, MYR Hedged-class, SGD Hedged-class and AUD Hedged-class shall be based on the NAV per Unit. **The price of Units offered for purchase during the initial offer period.								
<b>Initial Offer Period</b>	The initial offer period for the existing USD Class, MYR Class, MYR Hedged-class, SGD Hedged-class and AUD Hedged-class has ended.  The initial offer period for GBP Hedged-class, EUR Hedged-class and RMB Hedged-class will be one (1) day which is on the launch date of the particular Class, and the launch date will be disseminated through official communication channels and communiqués to the Unit Holders in the future.								
<b>Minimum Initial Investment*</b>	USD 10,000	MYR 30,000	MYR 30,000	SGD 10,000	AUD 10,000	GBP 10,000	EUR 10,000	RMB 30,000	
<b>Minimum Additional Investment*</b>	USD 5,000	MYR 10,000	MYR 10,000	SGD 5,000	AUD 5,000	GBP 5,000	EUR 5,000	RMB 10,000	
<b>Minimum Repurchase Units*</b>	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	
<b>Minimum Units Held*</b>	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	
	If the balance of your investment (i.e. total number of Units) is less than the minimum holding of Units, you will be required to make an additional investment in order to meet the required minimum balance of investment. Otherwise, we may withdraw all your holding of Units in the Fund and pay the proceeds to you.								
<b>Minimum Units Per Switch*</b>	20,000 Units	60,000 Units	60,000 Units	20,000 Units	20,000 Units	20,000 Units	20,000 Units	60,000 Units	
<b>Unitholdings in Different Classes</b>	You should note that there are differences when purchasing Units of the USD Class and other Classes in the Fund. For illustration purposes, assuming you have USD 10,000 to invest:								
	<b>Class(es)</b>	<b>USD Class</b>	<b>MYR Class</b>	<b>MYR Hedged-class</b>	<b>SGD Hedged-class</b>	<b>AUD Hedged-class</b>	<b>GBP Hedged-class</b>	<b>EUR Hedged-class</b>	<b>RMB Hedged-class</b>
	<b>NAV per Unit</b>	USD 0.50	MYR 0.50	MYR 0.50	SGD 0.50	AUD 0.50	GBP 0.50	EUR 0.50	RMB 0.50
	<b>Currency exchange rate</b>	USD 1 = USD 1	USD 1 = MYR 4	USD 1 = MYR 4	USD 1 = SGD 2	USD 1 = AUD 2	USD 1 = GBP 0.75	USD 1 = EUR 0.95	USD 1 = RMB 6
	<b>Invested amount</b>	USD 10,000 x USD 1 = USD 10,000	USD 10,000 x MYR 4 = MYR 40,000	USD 10,000 x MYR 4 = MYR 40,000	USD 10,000 x SGD 2 = SGD 20,000	USD 10,000 x AUD 2 = AUD 20,000	USD 10,000 x GBP 0.75 = GBP 7,500	USD 10,000 x EUR 0.95 = EUR 9,500	USD 10,000 x RMB 6 = RMB 60,000
	<b>Units received</b>	USD 10,000 ÷ USD 0.50 = 20,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units	SGD 20,000 ÷ SGD 0.50 = 40,000 Units	AUD 20,000 ÷ AUD 0.50 = 40,000 Units	GBP 7,500 ÷ GBP 0.50 = 15,000 Units	EUR 9,500 ÷ EUR 0.50 = 19,000 Units	RMB 60,000 ÷ RMB 0.50 = 120,000 Units
	$\text{Invested amount} = \text{USD } 10,000 \times \text{currency exchange rate of the Class}$ $\text{Units received} = \text{Invested amount} \div \text{NAV per Unit of the Class}$								

\* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to terms and conditions disclosed in the respective channels.

Classes	USD Class	MYR Class	MYR Hedged-class	SGD Hedged-class	AUD Hedged-class	GBP Hedged-class	EUR Hedged-class	RMB Hedged-class
	<p>By purchasing Units in the USD Class, you will receive less Units for every USD invested in the Fund (i.e. 20,000 Units). Similarly, by purchasing Units of the GBP Hedged-class and EUR Hedged-class, you will also receive less Units for every GBP and EUR invested in the Fund (i.e. 15,000 Units and 19,000 Units respectively), compared to purchasing Units in MYR Class (i.e. 80,000 Units), MYR Hedged-class (i.e. 80,000 Units), SGD Hedged-class (i.e. 40,000 Units), AUD Hedged-class (i.e. 40,000 Units) or RMB Hedged-class (i.e. 120,000 Units). Upon a voting by poll, the votes by every Unit Holder present in person or by proxy is proportionate to the value of Units held by him or her. Hence, holding more number of Units may not give you an advantage when voting at Unit Holders' meetings. You should note that in a Unit Holders' meeting to terminate or wind up the Fund, a Special Resolution will only be passed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by the Unit Holders present and voting at the meeting in person or by proxy.</p>							

**The Fund may create new Classes without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new Classes by way of Communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement information memorandum.**

# ABOUT THE FEES AND CHARGES

**There are fees and charges involved and you are advised to consider them before investing in the Fund.**

You should be aware that all fees, charges and expenses referred to or quoted in this Information Memorandum (including any supplemental information memorandum) and the Deed (including any supplemental deed) are referred to or quoted as being exclusive of any other applicable taxes. We (including the Trustee and other service providers) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

## *The following are the charges that may be directly incurred by you*

### **SALES CHARGE**

Up to 5.50% of the initial offer price of a Class during the initial offer period, thereafter, on the NAV per Unit of a Class.

### **REPURCHASE CHARGE**

Nil.

### **TRANSFER FEE**

Nil.

### **SWITCHING FEE**

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

## *The following are the fees and expenses that you may indirectly incur when you invest in the Fund*

With the issuance of multiple Classes in this Fund, the **indirect** fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio is calculated by taking the “value of a Class before income & expenses” for a particular day and dividing it with the “value of the Fund before income & expenses” for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and assuming further the size of the USD Class over the size of the Fund is 60% whereas the size of the MYR Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the USD Class and 40% borne by the MYR Class.

For Unit Holders of a Class other than USD Class, the management fee and trustee fee payable shall be reflected in MYR / SGD / AUD / GBP / EUR / RMB in the Fund’s financial report.

### **ANNUAL MANAGEMENT FEE**

The management fee is up to 1.80% per annum of the NAV of the Fund, and is calculated using the Base Currency (before deducting the management fee and trustee fee). The management fee is accrued daily and payable monthly to the Manager.

*Please note that the example below is for illustration only:*

Assuming that the NAV of the Fund is USD 120 million for that day, the accrued management fee for that day would be:

$$\begin{array}{l} \text{USD 120 million} \times 1.80\% \\ 365 \text{ days} \qquad \qquad \qquad = \text{USD 5,917.81 per day} \end{array}$$

The management fee is only charged at the Fund level. The management fee chargeable by the Target Fund will be paid out of the annual management fee charged by us at the Fund level. There is no double charging of the management fee.

## ANNUAL TRUSTEE FEE

The trustee fee is up to 0.06% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), and is calculated using the Base Currency (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly to the Trustee. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

*Please note that the example below is for illustration only:*

Assuming that the NAV of the Fund is USD 120 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{USD 120 million} \times 0.06\%}{365 \text{ days}} = \text{USD 197.26 per day}$$

## ADMINISTRATIVE FEE

Only the expenses (or part thereof) which are directly related and necessary to the operation and administration of the Fund or each Class may be charged to the Fund or each Class respectively. These would include (but are not limited to) the following:

- Commissions or fees paid to brokers or dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- (Where the custodial function is delegated by the Trustee) charges and fees paid to sub-custodians taking into custody any foreign assets of the Fund;
- Taxes and other duties charged on the Fund by the government and/or other authorities;
- Costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- Costs, fees and expenses incurred for the fund valuation and accounting of the Fund performed by a fund valuation agent;
- Costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;
- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- Costs, fees and expenses incurred in relation to any arbitration or other proceedings concerning the Fund or any asset of the Fund, including proceedings against the Trustee or the Manager by the other for the benefit of the Fund or commenced by either of them for the benefit of the Fund or a Class (save to the extent that legal costs incurred for the defence of either of them are not ordered by the court to be reimbursed by the Fund);
- Any tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred by the Fund; and
- Other fees and expenses related to the Fund allowed under the Deed.

## MAXIMUM RATE OF FEES AND CHARGES ALLOWABLE BY THE DEED

We may impose higher fees and charges up to the following stated maximum rate, provided that we have taken the necessary procedures to increase the fees and charges.

<b>Sales Charge</b>	6.00% of the NAV per Unit of a Class
<b>Repurchase Charge</b>	1.00% of the NAV per Unit of a Class
<b>Annual Management Fee</b>	3.00% per annum of the NAV of the Fund calculated and accrued daily
<b>Annual Trustee Fee</b>	0.10% per annum of the NAV of the Fund calculated and accrued daily (excluding foreign custodian fees and charges)

## **REBATES AND SOFT COMMISSIONS**

We or any of our delegates thereof, will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the account of the Fund.

The soft commissions can be retained by us or any of our delegates thereof provided that:-

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

# ABOUT THE TARGET FUND - BLACKROCK GLOBAL FUNDS (BGF) WORLD HEALTHSCIENCE FUND

<b>BASE CURRENCY</b>	: USD
<b>INCEPTION DATE OF THE TARGET FUND</b>	: 6 April 2001
<b>COUNTRY OF ORIGIN</b>	: Luxembourg
<b>REGULATORY AUTHORITY</b>	: Commission de Surveillance du Secteur Financier ("CSSF") (Luxembourg Financial Sector Supervisory Authority)

## **BLACKROCK GLOBAL FUNDS ("THE COMPANY")**

The Target Fund is a sub-fund of the Company. The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (société d'investissement à capital variable).

The Company has been established on 14 June 1962 and its registration number in the Registry of the Luxembourg Trade and Companies Register is B 6317. The Company has been authorised by the CSSF as an undertaking for collective investments in transferable securities pursuant to the provisions of Part I of the 2010 Law, as amended from time to time and is regulated pursuant to such law. Authorisation by the CSSF is not an endorsement or guarantee of the Company by the CSSF nor is the CSSF responsible for the contents of the Target Fund Prospectus. The authorisation of the Company shall not constitute a warranty as to performance of the Company and the CSSF shall not be liable for the performance or default of the Company.

The articles of association governing the Company (the "Articles") have been deposited with the Luxembourg Trade and Companies Register. The Articles have been amended and restated several times, most recently on most recently on 4 February 2019 and published in the Recueil Electronique des Sociétés et Associations ("RESA"), on 25 February 2019.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate portfolio of investments maintained and invested in accordance with the investment objectives applicable to such compartment, as specified herein. The Company's directors are offering separate classes of shares, each representing interests in a compartment, on the basis of the information contained in the Target Fund Prospectus and in the documents referred to herein which are deemed to be an integral part of the Target Fund Prospectus.

## **BLACKROCK (LUXEMBOURG) S.A. ("THE MANAGEMENT COMPANY")**

The Company is managed by the Management Company, a public limited company (société anonyme) established in 1988 under registration number B 27689. The Management Company has been authorised by the CSSF to manage the business and affairs of the Company pursuant to chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and the marketing of the Target Fund.

## **BLACKROCK INVESTMENT MANAGEMENT, LLC ("THE TARGET FUND MANAGER")**

The Management Company has delegated its investment management functions to the Target Fund Manager. The Target Fund Manager provides advice and management in the areas of stock and sector selection and strategic allocation. Notwithstanding the appointment of the Target Fund Manager, the Management Company accepts full responsibility to the Company for all investment transactions.

The Target Fund Manager is regulated by the Securities and Exchange Commission.

The Target Fund Manager has sub-delegated some of its functions to investment sub-advisers that are also licensed and/or regulated (as applicable).

The Target Fund Manager and its investment sub-advisers are indirect operating subsidiaries of BlackRock, Inc., the ultimate holding company of the BlackRock Group. The Target Fund Manager and its investment sub-advisers form part of the BlackRock Group.

#### **INVESTMENT OBJECTIVE AND POLICIES**

The investment objective of the Target Fund is to maximise total return and invest in a manner consistent with the principles of ESG investing. The Target Fund invests globally at least 70% of its total assets in the equity securities of companies whose predominant economic activity is in healthcare, pharmaceuticals, medical technology and supplies and the development of biotechnology. Currency exposure is flexibly managed.

The Target Fund is a Stock Connect fund and may invest directly up to 20% of its total assets in the PRC by investing via the Stock Connects.

The Target Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management.

The Target Fund's total assets will be invested in accordance with the ESG policy described below.

#### **ESG Policy**

Companies are evaluated by the Target Fund Manager based on their ability to manage the risks and opportunities associated with ESG factors and their ability to strategically manage longer-term issues surrounding ESG and the potential impact this may have on a company's financial performance.

The Target Fund Manager conducts enhanced analysis on all companies that it considers to have heightened ESG risks, higher carbon emissions and controversial business activities. In such circumstances, the Target Fund Manager may determine an engagement agenda for discussion with those companies in seeking to improve their ESG credentials. To undertake this analysis, the Target Fund Manager uses its fundamental insights and may use data provided by external ESG data providers, and proprietary models.

The Target Fund will apply exclusionary screens, the BlackRock EMEA baseline screens, to the companies within the investment universe. The Target Fund Manager then applies its proprietary "Fundamental Insights" methodology to identify companies that would otherwise have been excluded by the exclusionary screens but that it considers to be appropriate for investment on the basis that they are "in transition" and focused on meeting sustainability criteria over time, or are otherwise meeting other criteria in accordance with the methodology requirements.

The methodology uses quantitative and qualitative inputs generated by the Target Fund Manager, its affiliates and/or one or more external research providers. Where a company is identified by the Target Fund Manager as meeting the criteria in the methodology for investment and is approved in accordance with the methodology, it is eligible to be held by the Target Fund. Such companies are regularly reviewed. In the event that the Target Fund Manager determines that a company fails the criteria in the methodology (in whole or in part and at any time) or it is not engaging with the Target Fund Manager on a satisfactory basis, it will be considered for divestment by the Target Fund in accordance with the methodology.

#### **The Stock Connect**

The Shanghai-Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEX, SSE and ChinaClear and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEX, SZSE and ChinaClear. The aim of Stock Connect is to achieve mutual stock market access between the PRC and Hong Kong.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors (including the Target Fund), through its Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible securities listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain stocks listed on the SEHK.

Under the Shanghai-Hong Kong Stock Connect, the Target Fund, through its Hong Kong brokers may trade certain eligible shares listed on the SSE (“SSE Securities”). These include all the constituent stocks from time to time of the SSE 180 Index and SSE 380 Index, and all the SSE-listed China A Shares that are not included as constituent stocks of the relevant indices but which have corresponding H-Shares listed on SEHK, except the following:

- SSE-listed shares which are not traded in RMB;
- SSE-listed shares which are included in the “risk alert board”; and
- In addition, Hong Kong and overseas investors are able to trade eligible SSE-listed exchange traded funds (“ETFs”) that satisfy the relevant criteria at a regular review and are accepted as eligible ETFs for northbound trading under the Shanghai-Hong Kong Stock Connect. Regular reviews will be performed to determine the eligible ETFs for northbound trading every six months.

It is expected that the list of eligible securities may be changed subject to review and approval by the relevant PRC regulators from time to time.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect is subject to a daily quota (“Daily Quota”). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect are subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of cross-boundary trades under the Stock Connect each day.

The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors (including the Target Fund), through its Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible securities listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain stocks listed on the SEHK.

Under the Shenzhen-Hong Kong Stock Connect, the Target Fund through its Hong Kong brokers may trade certain eligible shares listed on the SZSE (“SZSE Securities”). These include any constituent stock of the SZSE Component Index and SZSE Small/Mid Cap Innovation Index which has a market capitalisation of RMB6 billion or above and all SZSE-listed shares of companies which have issued both China A Shares and H Shares. At the initial stage of the Northbound Shenzhen Trading Link, investors eligible to trade shares that are listed on the ChiNext Board of SZSE under the Northbound Shenzhen Trading Link will be limited to institutional professional investors as defined in the relevant Hong Kong rules and regulations.

In addition, Hong Kong and overseas investors are able to trade eligible SZSE-listed ETFs that satisfy the relevant criteria at a regular review and are accepted as eligible ETFs for Northbound trading under the Shenzhen-Hong Kong Stock Connect. Regular reviews will be performed to determine the eligible ETFs for Northbound trading every six months.

It is expected that the list of eligible securities may be changed subject to review and approval by the relevant PRC regulators from time to time.

The trading is subject to rules and regulations issued from time to time. Trading under the Shenzhen-Hong Kong Stock Connect is subject to a Daily Quota. Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock Connect is subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of cross-boundary trades under the Shenzhen-Hong Kong Stock Connect each day.

HKSCC, a wholly-owned subsidiary of HKEX, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and investors. The SSE Securities and SZSE Securities traded through Stock Connect are issued in scripless form, and investors will not hold any physical shares.

Although HKSCC does not claim proprietary interests in the SSE Securities and SZSE Securities held in its omnibus stock accounts in ChinaClear, ChinaClear as the share registrar for SSE Securities and SZSE Securities will still treat HKSCC as one of the shareholders when it handles corporate actions in respect of such SSE Securities and SZSE Securities.

In accordance with the UCITS requirements, the Depositary shall provide for the safekeeping of the Target Fund's assets in the PRC through its global custody network. Such safekeeping is in accordance with the conditions set down by the CSSF which provides that there must be legal separation of non-cash assets held under custody and that the Depositary through its delegates must maintain appropriate internal control systems to ensure that records clearly identify the nature and amount of assets under custody, the ownership of each asset and where documents of title to each asset are located.

Under the Stock Connects, Hong Kong and overseas investors will be subject to the fees and levies imposed by SSE, SZSE, ChinaClear, HKSCC or the relevant Mainland Chinese authority when they trade and settle SSE Securities and SZSE Securities.

**The Target Fund issues several share classes and may issue new share classes with different features and requirements in future. The Fund will have full discretion to decide on share class of the Target Fund to invest and may switch to different share class of the Target Fund. Such decision will be made in the best interest of investors. Investors should note that the investment objective, investment strategy and risk profile of the Fund remain the same regardless the investment of the Fund in different share class of the Target Fund.**

## **RISK MANAGEMENT**

The Management Company is required by regulation to employ a risk management process in respect of the Target Fund, which enables it to monitor accurately and manage the global exposure from financial derivative instruments ("global exposure") which the Target Fund gains as a result of its strategy. The Management Company uses a methodology known as commitment approach to calculate the Target Fund's global exposure.

The commitment approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of the Target Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for the Target Fund under the commitment approach must not exceed 100% of the Target Fund's net asset value.

## **INVESTMENT AND BORROWING POWERS AND RESTRICTIONS**

### ***Investment and Borrowing Powers***

1. The Company's articles of association permit it to invest in transferable securities and other liquid financial assets, to the full extent permitted by Luxembourg law. The articles have the effect that, subject to the law, it is at the Company's directors' discretion to determine any restrictions on investment or on borrowing or on the pledging of the Company's assets.

The Company's articles of association permit the subscription, acquisition and holding of securities issued or to be issued by one or more other fund of the Company under the conditions set forth by Luxembourg laws and regulations.

### ***Investment and Borrowing Restrictions***

2. The following restrictions of Luxembourg law and (where relevant) of the Company's directors currently apply to the Company:
  - 2.1 The investments of the Target Fund shall consist of:
    - 2.1.1 Transferable securities and money market instruments admitted to official listings on regulated stock exchanges in member states of the European Union (the "EU");
    - 2.1.2 Transferable securities and money market instruments dealt in on other regulated markets in member states of the EU, that are operating regularly, are recognised and are open to the public;
    - 2.1.3 Transferable securities and money market instruments admitted to official listings on stock exchanges in any other country in Europe, Asia, Oceania, the American continents and Africa;
    - 2.1.4 Transferable securities and money market instruments dealt in on other regulated markets that are operating regularly, are recognised and open to the public of any other country in Europe, Asia, Oceania, the American continents and Africa;
    - 2.1.5 Recently issued transferable securities and money market instruments provided that the terms of the issue include an undertaking that application will be made for admission to the official listing on one of the stock exchanges as specified in 2.1.1 and 2.1.3 or regulated markets that are operating regularly, are recognised and open to the public as specified in 2.1.2 and 2.1.4 and that such admission is secured within a year of issue;

- 2.1.6 Units of UCITS and/or other undertakings for collective investment (“UCIs”) within the meaning of Article 1(2), points (a) and (b) of Directive 2009/65/EC, as amended, whether they are situated in a member state or not, provided that:
- such other UCIs are authorised under laws which provide that they are subject to supervision considered by CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured;
  - the level of protection for shareholders in the other UCIs is equivalent to that provided for shareholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC, as amended;
  - the business of the other UCIs is reported in half-yearly and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period; and
  - no more than 10% of the UCITS’ or the other UCIs’ assets (or of the assets of the Target Fund, provided that the principle of segregation of liabilities of the different compartments is ensured in relation to third parties), whose acquisition is contemplated, can, according to their constitutional documents, be invested in aggregate in units of other UCITS or other UCIs.
- 2.1.7 Deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in an EU member state or, if the registered office of the credit institution is situated in a non-member state, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
- 2.1.8 Financial derivative instruments, including equivalent cash-settled instruments, dealt in on a regulated market; and/or financial derivative instruments dealt in OTC derivatives, provided that:
- the underlying consists of instruments described in sub-paragraphs 2.1.1 to 2.1.7 above and 2.1.9 below, financial indices, interest rates, foreign exchange rates or currencies, in which the Company may invest according to its investment objectives;
  - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the CSSF; and
  - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company’s initiative;
- 2.1.9 Money market instruments other than those dealt in on a regulated market, which fall under Article 1 of the 2010 Law, if the issue or issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that they are:
- issued or guaranteed by a central, regional or local authority or central bank of an EU member state, the European Central Bank, the EU or the European Investment Bank, a non-member state or, in the case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more member states belong; or
  - issued by an undertaking any securities of which are dealt in on regulated markets referred to in subparagraphs 2.1.1, 2.1.2 or 2.1.3 above; or
  - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law; or
  - issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least €10 million and which presents and publishes its annual accounts in accordance with Directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
- 2.2 Furthermore, the Target Fund may invest no more than 10% of its net assets in transferable securities and money market instruments other than those referred to in sub-paragraphs 2.1.1 to 2.1.9.
- 2.3 The Target Fund may acquire the units of other funds in the Company, UCITS and/or other UCIs referred to in paragraph 2.1.6. The Target Fund’s aggregate investment in UCITS, other funds in the Company and other UCIs will not exceed 10% of its net assets in order that the total funds of the Company are deemed eligible investments for other UCITS funds.

When the Target Fund has acquired shares of UCITS and/or other UCIs, the assets of the respective UCITS or other UCIs do not have to be combined for the purposes of the limits laid down in paragraph 2.6.

When the Target Fund invests in the units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the Target Fund Manager or by any other company with which the Target Fund Manager is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs.

- 2.4 When the Target Fund invests in shares of another fund in the Company (the “fund”):
- The fund may not itself invest in the Target Fund;
  - the fund may not invest more than 10% of its net assets in units of the Target Fund (as set out in paragraph 2.3 above);
  - any voting rights which may be attached to the shares of the fund will be suspended for the Target Fund for the duration of the investment;
  - any management fees or subscription or redemption fees payable in relation to the fund may not be charged to the Target Fund; and
  - the net asset value of the shares of the fund may not be considered for the purpose of the requirement that the capital of the Company should be above the legal minimum as specified in the 2010 Law, currently €1,250,000.
- 2.5 The Target Fund may hold no more than 20% ancillary liquid assets (such as cash held in current accounts with a bank accessible at any time “deposits at sight”, in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under article 41(1) of the 2010 Law, or for a period of time strictly necessary in case of unfavourable market conditions. This restriction may only be exceeded temporarily for a period of time strictly necessary if the Company’s directors consider this to be in the best interest of the shareholders of the Target Fund (during exceptionally unfavourable market conditions such as a severe financial market collapse).
- 2.6 The Target Fund may not invest in any one issuer in excess of the limits set out below:
- 2.6.1 Not more than 10% of the Target Fund’s net assets may be invested in transferable securities or money market instruments issued by the same entity.
- 2.6.2 Not more than 20% of the Target Fund’s net assets may be invested in deposits made with the same entity.
- 2.6.3 By way of exception, the 10% limit stated in the first paragraph of this section may be increased to:
- a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by an EU member state, by its local authorities, by a non-member state or by public international bodies to which one or more member states belong;
  - a maximum of 25% in the case of certain bonds when these are issued by a credit institution which has its registered office in an EU member state and is subject by law to special public supervision designed to protect bond holders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. When the Target Fund invests more than 5% of its net assets in the bonds referred to in this paragraph and issued by one issuer, the total value of these investments may not exceed 80% of the value of the net assets of the Target Fund.
- 2.6.4 The total value of the transferable securities or money market instruments held by the Target Fund in the issuing bodies in each of which it invests more than 5% of its net assets must not then exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision. The transferable securities and money market instruments limits referred to in the two indents of paragraph 2.6.3 above shall not be taken into account for the purpose of applying the limit of 40% referred to in this paragraph.

Notwithstanding the individual limits laid down in sub-paragraphs 2.6.1 to 2.6.4 above, the Target Fund may not combine:

- investments in transferable securities or money market instruments issued by a single entity; and/or
- deposits made with a single entity; and/or
- exposures arising from OTC derivative transactions undertaken with a single entity, in excess of 20% of its net assets.

When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above mentioned restrictions.

The limits provided for in sub-paragraphs 2.6.1 to 2.6.4 above may not be combined, and thus investments in transferable securities or money market instruments issued by the same entity or in deposits or derivative instruments made with this entity carried out in accordance with paragraphs 2.6.1 to 2.6.4 shall under no circumstances exceed in total 35% of the net assets of the Target Fund.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/ EEC or in accordance with recognised international accounting rules, are regarded as a single entity for the purpose of calculating the investment limits mentioned in sub-paragraphs 2.6.1 to 2.6.4 above.

The Target Fund may not invest cumulatively more than 20% of its net assets in transferable securities or money market instruments of the same group subject to restrictions 2.6.1 and the three indents under 2.6.4 above.

Without prejudice to the limits laid down in paragraph 2.8 below, the limit of 10% laid down in sub-paragraph 2.6.1 above is raised to a maximum of 20% for investment in equity and/or debt securities issued by the same body when the aim of the investment policy of the Target Fund is to replicate the composition of a certain equity or debt securities index which is recognised by the CSSF, on the following basis:

- the composition of the index is sufficiently diversified;
- the index represents an adequate benchmark for the market to which it refers;
- it is published in an appropriate manner;
- it is replicable;
- it is transparent, with the full calculation methodology and index performance published; and
- it is subject to independent valuation.

This limit is 35% where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

**By way of derogation, the Target Fund is authorised to invest up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by an EU member state, its local authorities, by another member state of the OECD or public international bodies of which one or more EU member states are members, provided that (i) such securities are part of at least six different issues and (ii) securities from any one issue do not account for more than 30% of the net assets of the Target Fund.**

- 2.7 The Company may not invest in shares with voting rights enabling it to exercise significant influence over the management of the issuing body.
- 2.8 The Target Fund may not:
- 2.8.1 acquire more than 10% of the shares with non-voting rights of one and the same issuer.
- 2.8.2 acquire more than 10% of the debt securities of one and the same issuer.
- 2.8.3 acquire more than 25% of the units of one and the same undertaking for collective investment.
- 2.8.4 acquire more than 10% of the money market instruments of any single issuer.
- The limits stipulated in sub-paragraphs 2.8.2, 2.8.3 and 2.8.4 above may be disregarded at the time of acquisition if, at that time, the gross amount of debt securities or of the money market instruments, or the net amount of securities in issue cannot be calculated.
- 2.9 The limits stipulated in paragraphs 2.7 and 2.8 above do not apply to:
- 2.9.1 Transferable securities and money market instruments issued or guaranteed by an EU member state or its local authorities;
- 2.9.2 Transferable securities and money market instruments issued or guaranteed by a non-EU member state;
- 2.9.3 Transferable securities and money market instruments issued by public international institutions of which one or more EU member states are members;
- 2.9.4 Transferable securities held by the Target Fund in the capital of a company incorporated in a non-member state investing its assets mainly in the securities of issuing bodies having their registered offices in that state, where under the legislation of that state such a holding represents the only way in which the Target Fund can invest in the securities of issuing bodies of that state. This derogation, however, shall apply only if in its investment policy the company from the non-member state complies with the limits laid down in Articles 43, 46 and 48(1) and (2) of the 2010 Law. Where the limits set in Articles 43 and 46 of the 2010 Law are exceeded, Article 49 shall apply *mutatis mutandis*; and
- 2.9.5 Transferable securities held by the Company in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of units at shareholders' request exclusively on its or their behalf.

- 2.10 The Company may always, in the interest of the shareholders, exercise the subscription rights attached to securities, which form part of its assets.
- When the maximum percentages stated in paragraphs 2.2 through 2.8 above are exceeded for reasons beyond the control of the Company, or as a result of the exercise of subscription rights, the Company must adopt, as a priority objective, sales transactions to remedy the situation, taking due account of the interests of its shareholders.
- 2.11 The Target Fund may borrow to the extent of 10% of its total net assets (valued at market value) provided these borrowings are made on a temporary basis. However, the Company may acquire for the account of the Target Fund foreign currency by way of back-to-back loan. Any repayment of monies borrowed, together with accrued interest and any fees arising from the committed credit line (including for the avoidance of doubt any commitment fee that may be due to the lender), shall be paid out of the assets of the Target Fund.
- A sub-fund of the Company will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of a fund. During this period, the fund will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of a fund will be approved by the lenders, or that credit will be available to the fund since the credit line is subject to availability (on an equitable allocation basis) between the fund and other BlackRock funds participating in the credit agreement. As such, the fund may not be subject to the credit line and will not incur any fees with respect to same.
- 2.12 The Company may not grant credit facilities nor act as guarantor on behalf of third parties, provided that for the purpose of this restriction (i) the acquisition of transferable securities, money market instruments or other financial investments referred to in sub-paragraphs 2.1.6, 2.1.8 and 2.1.9 above, in fully or partly paid form and (ii) the permitted lending of portfolio securities shall be deemed not to constitute the making of a loan.
- 2.13 The Company undertakes not to carry out uncovered sales transactions of transferable securities, money market instruments or other financial instruments referred to in sub-paragraphs 2.1.6, 2.1.8 and 2.1.9 above; provided that this restriction shall not prevent the Company from making deposits or carrying out accounts in connection with financial derivatives instruments, permitted within the limits referred to above.
- 2.14 The Company's assets may not include precious metals or certificates representing them, commodities, commodities contracts, or certificates representing commodities.
- 2.15 The Company may not purchase or sell real estate or any option, right or interest therein, provided that the Company may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- 2.16 The Company will in addition comply with such further restrictions as may be required by the regulatory authorities in any country in which the shares are marketed.
3. Financial Techniques and Instruments
- 3.1 The Company must employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio; it must employ a process for accurate and independent assessment of the value of OTC derivative instruments. It must communicate to the CSSF regularly and in accordance with the detailed rules defined by the latter, the types of derivative instruments, the underlying risks, the quantitative limits and the methods which are chosen in order to estimate the risks associated with transactions in derivative instruments.
- 3.2 In addition, the Company is authorised to employ techniques and instruments relating to transferable securities and to money market instruments under the conditions and within the limits laid down by the CSSF provided that such techniques and instruments are used for the purpose of efficient portfolio management or for hedging purposes.
- 3.3 When these operations concern the use of derivative instruments, these conditions and limits shall conform to the provisions laid down in the 2010 Law.
- Under no circumstances shall these operations cause the Company to diverge from its investment policies and investment restrictions.
- 3.4 The Company will ensure that the global exposure of the underlying assets shall not exceed the total net value of the Target Fund. The underlying assets of index based derivative instruments are not combined to the investment limits laid down under sub-paragraphs 2.6.1 to 2.6.4 above.
- When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above-mentioned restrictions.
  - The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

### 3.5 Efficient Portfolio Management – Other Techniques and Instruments

In addition to the investments in financial derivatives instruments, the Company may employ other techniques and instruments relating to transferable securities and money market instruments subject to the conditions set out in the CSSF Circular 08/356, as amended from time to time, and ESMA Guidelines ESMA/2012/832EL, such as repurchase/reverse repurchase transactions (“repo transactions”) and securities lending.

Table below specifies the maximum and expected proportion of the net asset value of the Target Fund that can be subject to securities lending and repo transactions. The expected proportion is not a limit and the actual percentage may vary over time depending on factors including, but not limited to, market conditions and borrowing demand in the market.

	<b>Total return swaps (“TRS”) and contracts for difference (“CFDs”) (in aggregate*)</b> <b>Maximum/Expected proportion of the net asset value of the Target Fund (%)</b>	<b>Securities Lending**</b> <b>Maximum***/Expected proportion of the net asset value of the Target Fund (%)</b>	<b>Repurchase Transactions</b> <b>Maximum/Expected proportion of the net asset value of the Target Fund (%)</b>
Target Fund	40/0	49/ up to 16	0/0

\*Within the total ranges noted above, the Target Fund’s exposure to CFDs and TRS will vary.

\*\*The maximum proportion of the net asset value of the Target Fund that can be subject to securities lending is indicated in the table above. The demand to borrow securities is a significant driver for the amount that is actually lent from the Target Fund at a given time. Borrowing demand fluctuates over time and depends to a large extent on market factors that cannot be forecasted precisely. Due to fluctuations in borrowing demand in the market, future lending volumes could fall outside of the range indicated as the expected proportion of the net asset value of the Target Fund in the table above. For the avoidance of doubt, the maximum proportion of the net asset value of the Target Fund that can be subject to securities lending is a strict limit.

\*\*\* It is the intention of the Target Fund Manager that maxima are strict limits. It should be noted that such maxima are based on past performances and such past performances can never guarantee future results. In this respect, these maxima may be temporally exceeded should the demand drastically and unpredictably shift to an upward trend in the conditions as set out in the Target Fund Prospectus.

Techniques and instruments which relate to transferable securities or money market instruments and which are used for the purpose of efficient portfolio management, including financial derivatives instruments which are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- 3.5.1 They are economically appropriate in that they are realised in a cost-effective way;
- 3.5.2 They are entered into for one or more of the following specific aims:
  - (a) reduction of risk;
  - (b) reduction of cost;
  - (c) generation of additional capital or income for the Company with a level of risk which is consistent with the risk profile of the Company and the Target Fund and the risk diversification rules applicable to them;
- 3.5.3 Their risks are adequately captured by the risk management process of the Company; and
- 3.5.4 They cannot result in a change to the Target Fund’s declared investment objective or add significant supplementary risks in comparison to the general risk policy as described in the Target Fund Prospectus and relevant key investor information document.

Techniques and instruments (other than financial derivatives instruments) which may be used for efficient portfolio management purposes are set out below and are subject to the conditions set out below.

Moreover those transactions may be carried out for 100% of the assets held by the Target Fund provided (i) that their volume is kept at an appropriate level or that the Company is entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations; and (ii) that these transactions do not jeopardise the management of the Company’s assets in accordance with the investment policy of the Target Fund. Risks shall be monitored in accordance with the risk management process of the Company.

As part of the efficient portfolio management techniques the Target Fund may underwrite or sub-underwrite certain offerings from time to time through the Target Fund Manager. The Management Company will seek to ensure that the Target Fund will receive the commissions and fees payable under such contracts and all investments acquired pursuant to such contracts will form part of the Target Fund's assets. Under the Luxembourg regulation, there is no requirement to require a prior consent of the trustee/depositary.

### 3.6 Securities lending transactions and related potential conflicts of interest

The Target Fund may conduct securities lending transactions in aggregate for up to such percentage of its net asset value as disclosed in the table in paragraph 3.5 above.

The Target Fund may enter into securities lending transactions provided that it complies with the following rules:

- 3.6.1 The Company may lend securities either directly or through a standardised system organised by a recognised clearing institution or a lending program organised by a financial institution subject to prudential supervision rules which are recognised by the CSSF as equivalent to those laid down in EU law and specialised in this type of transactions;
- 3.6.2 The borrower must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
- 3.6.3 Net exposures (i.e. the exposures of the Target Fund less the collateral received by the Target Fund) to a counterparty arising from securities lending transactions shall be taken into account in the 20% limit provided for in article 43(2) of the 2010 Law;
- 3.6.4 As part of its lending transactions, the Company must receive collateral, the market value of which, shall, at all times, be equal to at least the market value of the securities lent plus a premium;
- 3.6.5 Such collateral must be received prior to or simultaneously with the transfer of the securities lent. When the securities are lent through an intermediary referred to under 3.6.1 above, the transfer of the securities lent may be effected prior to receipt of the collateral, if the relevant intermediary ensures proper completion of the transaction. The intermediary may, instead of the borrower, provide to the UCITS collateral in lieu of the borrower; and
- 3.6.6 The Company must have the right to terminate any securities lending arrangement which it has entered into at any time or demand the return of any or all of the securities loaned.

Counterparties for securities lending transactions are selected based on a rigorous credit assessment and in-depth review at the individual legal entity level at the outset of the trading relationship. Credit assessments include an evaluation of the legal entity corporate and/or ownership structure, regulatory regime, track record, financial health and any external agency ratings, where applicable.

The Company shall disclose the global valuation of the securities lent in the annual and semi-annual reports.

There are potential conflicts of interests in managing a securities lending program, including but not limited to:

- (i) BlackRock as lending agent may have an incentive to increase or decrease the amount of securities on loan or to lend particular securities in order to generate additional risk-adjusted revenue for BlackRock and its affiliates; and
- (ii) BlackRock as lending agent may have an incentive to allocate loans to clients that would provide more revenue to Blackrock. As described further below, BlackRock seeks to mitigate this conflict by providing its securities lending clients with equal lending opportunities over time in order to approximate pro-rata allocation.

As part of its securities lending program, BlackRock indemnifies certain clients and/or funds against a shortfall in collateral in the event of borrower default. BlackRock's Risk and Quantitative Analytics Group ("RQA") calculates, on a regular basis, BlackRock's potential dollar exposure to the risk of collateral shortfall upon counterparty default ("shortfall risk") under the securities lending program for both indemnified and non-indemnified clients. On a periodic basis, RQA also determines the maximum amount of potential indemnified shortfall risk arising from securities lending activities ("indemnification exposure limit") and the maximum amount of counterparty-specific credit exposure ("credit limits") BlackRock is willing to assume as well as the program's operational complexity. RQA oversees the risk model that calculates projected shortfall values using loan-level factors such as loan and collateral type and market value as well as specific borrower counterparty credit characteristics. When necessary, RQA may further adjust other securities lending program attributes by restricting eligible collateral or reducing counterparty credit limits. As a result, the management of the indemnification exposure limit may affect the amount of securities lending activity BlackRock may conduct at any given point in time and impact indemnified and non-indemnified clients by reducing the volume of lending opportunities for certain loans (including by asset type, collateral type and/or revenue profile).

BlackRock uses a predetermined systematic and fair process in order to approximate pro-rata allocation. In order to allocate a loan to a portfolio:

- (i) BlackRock as a whole must have sufficient lending capacity pursuant to the various program limits (i.e. indemnification exposure limit and counterparty credit limits);
- (ii) the lending portfolio must hold the asset at the time a loan opportunity arrives; and
- (iii) the lending portfolio must also have enough inventory, either on its own or when aggregated with other portfolios into one single market delivery, to satisfy the loan request. In doing so, BlackRock seeks to provide equal lending opportunities for all portfolios, independent of whether BlackRock indemnifies the portfolio.

Equal opportunities for lending portfolios does not guarantee equal outcomes. Specifically, short and long-term outcomes for individual clients may vary due to asset mix, asset/liability spreads on different securities, and the overall limits imposed by the firm.

### 3.7 Repo transactions

The Company may enter into:

- repurchase transactions which consist of the purchase or sale of securities with provisions reserving the seller the right or the obligation to repurchase from the buyer securities sold at a price and term specified by the two parties in their contractual arrangement; and
- reverse repurchase agreement transactions, which consist of a forward transaction at the maturity of which the seller (counterparty) has the obligation to repurchase the securities sold and the Company the obligation to return the securities received under the transaction.

The Target Fund may conduct repo transactions in aggregate for up to such percentage of its net asset value as disclosed in the table in paragraph 3.5 above. All incremental incomes generated from such transactions will be accrued to the Target Fund.

#### 3.7.1 The Company can act either as buyer or seller in repo transactions. Its involvement in such transactions is however subject to the following rules:

- (a) the fulfilment of the conditions 3.6.2 and 3.6.3;
- (b) during the life of a repo transaction with the Company acting as purchaser, the Company shall not sell the securities which are the object of the contract, before the counterparty has exercised its option or until the deadline for the repurchase has expired, unless the Company has other means of coverage;
- (c) the securities acquired by the Company under a repo transaction must conform to the Target Fund's investment policy and investment restrictions and must be limited to:
  - (i) short-term bank certificates or money market instruments as defined in Directive 2007/16/EC of 19 March 2007;
  - (ii) bonds issued by non-governmental issuers offering an adequate liquidity;
  - (iii) assets referred to under 3.8.2(b), 3.8.2(c) and 3.8.2(d) below; and

The Company shall disclose the total amount of the open repo transactions on the date of reference of its annual and interim reports.

#### 3.7.2 Where the Company enters into repurchase agreements, it must be able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

#### 3.7.3 Where the Company enters into reverse repurchase agreements, it must be able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the net asset value. Fixed-term reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

### 3.8 Management of collateral for OTC financial derivative transactions and efficient portfolio management techniques.

3.8.1 Collateral obtained in respect of OTC financial derivative transactions and efficient portfolio management techniques ("Collateral"), such as a repo transaction or securities lending arrangement, must comply with the following criteria:

- (a) liquidity: Collateral (other than cash) should be highly liquid and traded on a regulated market or multi-lateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to its pre-sale valuation. Collateral received should also comply with the provisions of Article 48 of the 2010 Law;
- (b) valuation: Collateral should be capable of being valued marked to market on a daily basis and assets that exhibit high price volatility should not be accepted as Collateral unless suitably conservative haircuts are in place;
- (c) issuer credit quality: Collateral should be of high quality;
- (d) correlation: Collateral should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (e) diversification: Collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Target Fund's net asset value. When the Target Fund is exposed to different counterparties, the different baskets of Collateral should be aggregated to calculate the 20% limit of exposure to a single issuer. The Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a member state, its local authorities, as well as non-member states and public international bodies set out in the Target Fund Prospectus. The Target Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Target Fund's net asset value; and
- (f) immediately available: Collateral must be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Counterparties for repo transactions are selected based on a rigorous credit assessment and in-depth review at the individual legal entity level at the outset of the trading relationship. Credit assessments include an evaluation of the legal entity corporate and/or ownership structure, regulatory regime, track record, financial health and any external agency ratings, where applicable.

3.8.2 Subject to the above criteria, Collateral must comply with the following criteria:

- (a) liquid assets such as cash, short term bank deposits, money market instruments as defined in Directive 2007/16/EC of 19 March 2007, letters of credit and guarantees at first demand issued by a first class credit institution not affiliated to the counterparty;
- (b) bonds issued or guaranteed by a member state of the OECD or by their local authorities or supranational institutions and bodies of a community, regional or world-wide scope;
- (c) shares or units issued by money market-type UCIs calculating a daily net asset value and having a rating of AAA or its equivalent;
- (d) shares or units issued by UCITS investing mainly in bonds/shares mentioned under 3.8.2(e) and 3.8.2(f) here under;
- (e) bonds issued or guaranteed by first class issuers offering an adequate liquidity; or
- (f) shares admitted to or dealt in on a regulated market of a member state of the EU or on a stock exchange of a member state of the OECD, provided that these shares are included in a main index.

3.8.3 Where there is title transfer, the Collateral received should be held by the Depositary, or its agent. This is not applicable in the event that there is no title transfer in which case the Collateral will be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the Collateral.

3.8.4 When the Collateral given in the form of cash exposes the Company to a credit risk vis-à-vis the trustee of this Collateral, such exposure shall be subject to the 20% limitation as laid down in section 2.6 above.

3.8.5 During the duration of the agreement, non-cash Collateral cannot be sold, re-invested or pledged.

3.8.6 Cash received as Collateral may only be:

- (a) placed on deposit with entities prescribed in Article 50(f) of Directive 2009/65/EC;
- (b) invested in high quality government bonds;
- (c) used for the purpose of reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Company can recall at any time the full amount of the cash on an accrued basis; and
- (d) invested in short term money market funds as defined in the Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017 on money market funds and any delegated regulation published pursuant to it.

Re-invested cash Collateral should be diversified in accordance with the diversification requirements applicable to non-cash Collateral.

- 3.8.7 The Company has implemented a haircut policy in respect of each class of assets received as Collateral in order to reduce exposure to trading counterparties for OTC Derivative, Securities Lending and Reverse Repurchase transactions. These transactions are executed under standardised legal documentation that include terms related to credit support and eligible collateral, including haircuts to be applied.

A haircut is a discount applied to the value of a Collateral asset to account for the fact that its valuation, or liquidity profile, may deteriorate over time. The haircut policy takes account of the characteristics of the relevant asset class, including the credit standing of the issuer of the Collateral, the price volatility of the Collateral and the results of any stress tests which may be performed in accordance with the collateral management policy. Subject to the framework of agreements in place with the relevant counterparty, which may or may not include minimum transfer amounts, it is the intention of the Company that any Collateral received shall have a value, adjusted in light of the haircut policy, which equals or exceeds the relevant counterparty exposure where appropriate.

The applicable haircuts for each of the relevant types of assets held as Collateral are specified below as a valuation percentage. Larger haircuts than those noted below may be applied at the sole discretion of the Company; larger haircuts may apply to certain counterparties, and/or to certain transactions (e.g. wrong way risk).

The Company reserves the right to vary this policy at any time in which case the Target Fund Prospectus will be updated accordingly.

*OTC Derivative Transactions*

<b>Eligible Collateral</b>	<b>Minimum Haircut Applicable</b>
Cash	0%
Government bonds having a remaining term to maturity of one year or less	0.5%
Government bonds having a remaining term to maturity of greater than one year but less than or equal to five years	2%
Government bonds having a remaining term to maturity of greater than five years	4%
Non-government bonds having a remaining term to maturity of less than or equal to five years	10%
Non-government bonds having a remaining term to maturity of greater than 5 years	12%

*Securities Lending Transactions*

<b>Eligible Collateral</b>	<b>Minimum Haircut Applicable</b>
Cash	2%
Money market funds	2%
Government bonds	2.5%
Supranational / agency bonds	2.5%
Equities (including ADRs and ETFs)	5%

*Reverse Repurchase Transactions*

<b>Eligible Collateral</b>	<b>Minimum Haircut Applicable</b>
Government bonds	0%
Corporate bonds	6%

### 3.8.8 Risk and potential Conflicts of Interest associated with OTC derivatives and efficient portfolio management

- (a) There are certain risks involved in OTC derivative transactions, efficient portfolio management activities and the management of Collateral in relation to such activities.
- (b) The combined counterparty risk on any transaction involving OTC derivative instruments or efficient portfolio management techniques may not exceed 10% of the assets of the Target Fund when the counterparty is a credit institution domiciled in the EU or in a country where the CSSF considers that supervisory regulations are equivalent to those prevailing on the EU. This limit is set at 5% in any other case.
- (c) The Company's delegates will continuously assess the credit or counterparty risk as well as the potential risk, which is for trading activities, the risk resulting from adverse movements in the level of volatility of market prices and will assess the hedging effectiveness on an ongoing basis. They will define specific internal limits applicable to these kinds of operations and monitor the counterparties accepted for these transactions.

#### **LIMITS AND REDEMPTION AND CONVERSION OF THE TARGET FUND**

The Company will not be bound to redeem or convert on any one dealing day of the Target Fund more than 10% of the value of shares of all classes of the Target Fund then in issue or deemed to be in issue.

#### **SUSPENSION AND DEFERRALS OF THE TARGET FUND**

Valuations (and consequently issues, redemptions and conversions) of any share class of the Target Fund may be suspended in certain circumstances including:

- the closure (otherwise than for ordinary holidays) of or suspension or restriction of trading on any stock exchange or market on which are quoted a substantial proportion of the investments held in the Target Fund;
- the existence of any state of affairs which constitutes an emergency as a result of which disposals or valuation of assets owned by the Company attributable to share classes of the Target Fund would be impracticable;
- any breakdown in the means of communication normally employed in determining the price or value of any of the investments of share classes of the Target Fund or the current price or values on any stock exchange or other market;
- any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of such shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares cannot in the opinion of the directors be effected at normal rates of exchange;
- any period when the net asset value per share of any subsidiary of the Company may not be accurately determined;
- where notice has been given or a resolution passed for the closure or merger of the Target Fund;
- in respect of a suspension of the issuing of shares only, any period when notice of winding up of the Company as a whole has been given;
- following a decision to merge the Target Fund or the Company, if justified with a view to protecting the interest of shareholders; and
- in addition, in respect of the Target Fund that invest a substantial amount of assets outside the EU, the Management Company may also take into account whether local relevant local exchanges are open and may elect to treat such closures (including ordinary holidays) as non business days for the Target Fund.

The Company will also not be bound to accept instructions to subscribe for, and will be entitled to defer instructions to redeem or convert any shares of the Target Fund on any one dealing day of the Target Fund if there are redemption or outgoing conversion orders that day for all share classes of the Target Fund with an aggregate value exceeding a particular level (currently fixed at 10%) of the approximate value of the Target Fund. In addition, the Company may defer redemptions and conversions in exceptional circumstances that may, in the opinion of the Company's directors, adversely affect the interests of holders of any class or share classes of the Target Fund. In either case, the Company's directors may declare that redemptions and conversions will be deferred until the Company has executed, as soon as possible, the necessary realisation of assets out of the Target Fund concerned or until the exceptional circumstances cease to apply. Redemptions and conversions so deferred will be done on a pro rata basis and will be dealt with in priority to later requests.

#### FEES AND CHARGES OF THE TARGET FUND

<b>Initial Charge</b>	Up to 5.00% of the net asset value per share of the Target Fund.  <i>Please note that the Fund will not be charged the initial sales charge when it invests in the Target Fund.</i>
<b>Redemption Charge</b>	Up to 2.00% of the net asset value of the Target Fund.
<b>Annual Service Charge</b>	Up to 0.25% per annum of the net asset value of the Target Fund.
<b>Management Fee</b>	Up to 1.50% per annum of the net asset value of the Target Fund.  <i>Please note that management fee will only be charged once at the Fund level. The management fee charged by the Target Fund will be paid out of the annual management fee charged by us at the Fund level. There is no double charging of management fee.</i>
<b>Distribution Fee</b>	Up to 1.25% of the net asset value of the Target Fund.

This Information Memorandum describes the features of the Target Fund in accordance with the Target Fund Prospectus and we recommend that this Information Memorandum should be read in conjunction with the Target Fund Prospectus which is available at the business address of the Manager. We take all reasonable efforts to ensure the accuracy of the disclosure in this Information Memorandum in relation to the Target Fund, including obtaining the confirmation from the Management Company. However, in the event of any inconsistency or ambiguity in relation to the disclosure, including any word or phrase used in this Information Memorandum regarding the Target Fund as compared to the Target Fund Prospectus, the Target Fund Prospectus shall prevail.

# UNDERSTANDING THE RISKS OF THE FUND AND THE TARGET FUND

Below are the risks associated with the investments of the Fund and the Target Fund.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole of this Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

GENERAL RISKS OF THE FUND	
<b>Market risk</b>	Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
<b>Fund management risk</b>	This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant laws or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
<b>Performance risk</b>	This Fund is a feeder fund which invests in another CIS, namely the Target Fund. The performance of the Fund very much depends on the performance of the Target Fund. If the Target Fund does not perform in accordance with its objective, the performance of the Fund will also be impacted negatively. The performance of the Target Fund and consequently of this Fund may go down as well as up, depending on the circumstances prevailing at a particular given time. On that basis, there is never a guarantee that investing in the Fund will produce a positive investment returns in accordance with its objective.
<b>Inflation risk</b>	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
<b>Loan / Financing risk</b>	This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed/financed money includes you being unable to service the loan/financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan/financing.
<b>Operational risk</b>	This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

<b>Suspension of repurchase request risk</b>	Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. The exceptional circumstances may include, amongst other, suspension of dealing by the Target Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.
<b>Related party transaction risk</b>	The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

<b>SPECIFIC RISKS OF THE FUND</b>	
<b>Concentration risk</b>	This Fund is a feeder fund which invests in a single CIS. Any adverse effect on the Target Fund will inevitably affect the Fund as well. The performance of the Fund is also dependent on the performance of the Target Fund. This risk may be mitigated as we are allowed to take temporary defensive positions in response to adverse market conditions. We are also able to substitute the Target Fund with another fund with similar objective of the Fund if, in our opinion, the Target Fund no longer meets the Fund's objective subject to Unit Holders' approval.  For better understanding of the risks associated to the Target Fund, please refer to the "Risks of the Target Fund" below.
<b>Liquidity risk</b>	This is the risk that the shares of the Target Fund that is held by the Fund cannot be readily sold and converted into cash. This can occur when there is a restriction on realisation of shares of the Target Fund. The Target Fund Manager may suspend the realisation of shares of the Target Fund, or delay the payment of realisation proceeds in respect of any realisation request received, during any period in which the determination of the net asset value of the Target Fund is suspended. As a result, the Fund may not be able to receive the repurchase proceeds in a timely manner which in turn may delay the payment of repurchase proceeds to the Unit Holders. In managing liquidity risk, we will maintain sufficient liquidity level for the purposes of meeting repurchase requests.  Please refer to the " <i>Suspension of Dealing in Units</i> " section of this Information Memorandum for more details.
<b>Counterparty risk</b>	Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to derivatives ("investments") to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuers may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuers of the investments prior to commencement of investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer's investment to mitigate potential losses that may arise.
<b>Country risk</b>	Investments of the Fund in the Target Fund which is domiciled in Luxembourg may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of Luxembourg. For example, the deteriorating economic condition of that country may adversely affect the value of the investments undertaken by the Fund and in turn may cause the NAV of the Fund to fall.

<b>SPECIFIC RISKS OF THE FUND</b>	
<b>Currency risk</b>	<p>As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated (other than in USD) depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. You should note that any gain or loss arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p> <p><b><i>Currency risk at the Fund level</i></b></p> <p>The impact of the exchange rate movement between the Base Currency and the currency of the underlying investments of the Fund (other than in USD) may result in a depreciation of the value of the investments as expressed in the Base Currency.</p> <p><b><i>Currency risk at the Class level</i></b></p> <p>The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes (other than USD Class) may result in a depreciation of your holdings as expressed in the Base Currency.</p> <p><b><i>Currency risk at the Hedged-class level</i></b></p> <p>Currency hedging reduces the effect of exchange rate movements for the Hedged-class, but it does not entirely eliminate currency risk between the Hedged-class and the Base Currency (not a perfect hedge). Hence, the unhedged portion of the respective Hedged-class will be affected by the exchange rate movements and it may cause fluctuation of NAV of the respective Hedged-class. You should note, however, that if the exchange rate moves favourably, the Hedged-class would not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and the cost of hedging which may affect returns of the respective Hedged-class.</p>
<b>Target Fund Manager risk</b>	<p>The Target Fund (which the Fund invests in) is managed by the Target Fund Manager. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative CIS that is consistent with the investment objective of the Fund provided always that the approval of the Unit Holders has been obtained.</p>

<b>GENERAL RISKS OF THE TARGET FUND</b>	
<b>Derivatives - General</b>	<p>In accordance with the investment limits and restrictions set out in “Investment and Borrowing Restrictions” of the Target Fund in this Information Memorandum, the Target Fund may use derivatives to hedge market, interest rate and currency risk, and for the purposes of efficient portfolio management. The Target Fund may use derivative strategies for investment purposes as described in the section headed “About the Target Fund” – “Investment Objective and Policies” as set out in this Information Memorandum.</p> <p>The use of derivatives may expose the Target Fund to a higher degree of risk. These risks may include credit risk with regard to counterparties with whom the Target Fund trade, the risk of settlement default, volatility risk, OTC transaction risk, lack of liquidity of the derivatives, imperfect tracking between the change in value of the derivative and the change in value of the underlying asset that the Target Fund is seeking to track and greater transaction costs than investing in the underlying assets directly. Some derivatives are leveraged and therefore may magnify or otherwise increase investment losses to the Target Fund.</p> <p>In accordance with standard industry practice when purchasing derivatives, the</p>

<b>GENERAL RISKS OF THE TARGET FUND</b>	
	<p>Target Fund may be required to secure its obligations to its counterparty. For non-fully funded derivatives, this may involve the placing of initial and/or variation margin assets with the counterparty. For derivatives which require the Target Fund to place initial margin assets with a counterparty, such assets may not be segregated from the counterparty's own assets and, being freely exchangeable and replaceable, the Target Fund may have a right to the return of equivalent assets rather than the original margin assets deposited with the counterparty. These deposits or assets may exceed the value of the Target Fund's obligations to the counterparty in the event that the counterparty requires excess margin or collateral. In addition, as the terms of a derivative may provide for one counterparty to provide collateral to the other counterparty to cover the variation margin exposure arising under the derivative only if a minimum transfer amount is triggered, the Target Fund may have an uncollateralised risk exposure to a counterparty under a derivative up to such minimum transfer amount.</p> <p>Derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase the Target Fund's volatility. Whilst the Target Fund will not borrow money to leverage it may for example take synthetic short positions through derivatives to adjust its exposure, always within the restrictions provided for in section "Investment and Borrowing Restrictions" of the Target Fund in this Information Memorandum.</p> <p>The Target Fund may enter into long positions executed using derivatives (synthetic long positions) such as futures positions including currency forwards.</p> <p>Additional risks associated with investing in derivatives may include a counterparty breaching its obligations to provide collateral, or due to operational issues (such as time gaps between the calculation of risk exposure to a counterparty's provision of additional collateral or substitutions of collateral or the sale of collateral in the event of a default by a counterparty), there may be instances where the Target Fund's credit exposure to its counterparty under a derivative contract is not fully collateralised but the Target Fund will continue to observe the limits set out in section "Investment and Borrowing Restrictions" of the Target Fund in this Information Memorandum. The use of derivatives may also expose the Target Fund to legal risk, which is the risk of loss resulting from changing laws or from the unexpected application of a law or regulation, or because a court declares a contract not legally enforceable. Where derivative instruments are used in this manner the overall risk profile of the Target Fund may be increased.</p> <p>Accordingly, the Company will employ a risk-management process which enables the Management Company to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Target Fund. The Management Company uses "commitment approach" to calculate the Target Fund's global exposure ensuring the Target Fund complies with the investment restrictions set out in section "Investment and Borrowing Restrictions" of the Target Fund in this Information Memorandum.</p>
<b>Securities lending</b>	<p>The Target Fund may engage in securities lending. The Target Fund engaging in securities lending will have a credit risk exposure to the counterparties to any securities lending contract. The Target Fund investments can be lent to counterparties over a period of time. A default by the counterparty combined with a fall in the value of the collateral below that of the value of the securities lent may result in a reduction in the value of the Target Fund. The Company intends to ensure that all securities lending is fully collateralised but, to the extent that any securities lending is not fully collateralised (for example due to timing issues arising from payment lags), the Target Fund will have a credit risk exposure to the counterparties to the securities lending contracts.</p>

<b>GENERAL RISKS OF THE TARGET FUND</b>	
<b>Counterparty risk</b>	<p>The Target Fund will be exposed to the credit risk of the parties with which it transacts and may also bear the risk of settlement default. Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Target Fund. This would include the counterparties to any derivatives, repurchase/reverse repurchase agreement or securities lending agreement that it enters into. Trading in derivatives which have not been collateralised gives rise to direct counterparty exposure. The Target Fund mitigates much of its credit risk to its derivative counterparties by receiving collateral with a value at least equal to the exposure to each counterparty but, to the extent that any derivative is not fully collateralised, a default by the counterparty may result in a reduction in the value of the Target Fund. A formal review of each new counterparty is completed and all approved counterparties are monitored and reviewed on an ongoing basis. The Target Fund maintains an active oversight of counterparty exposure and the collateral management process.</p>
<b>Counterparty risk to the Depositary</b>	<p>The assets of the Company are entrusted to the Depositary for safekeeping. In accordance with the UCITS Directive, in safekeeping the assets of the Company, the Depositary shall: (a) hold in custody all financial instruments that may be registered in a financial instruments account opened in the Depositary's books and all financial instruments that can be physically delivered to the Depositary; and (b) for other assets, verify the ownership of such assets and maintain a record accordingly.</p> <p>The assets of the Company should be identified in the Depositary's books as belonging to the Company.</p> <p>Securities held by the Depositary should be segregated from other securities/assets of the Depositary in accordance with applicable law and regulation which mitigates but does not exclude the risk of non-restitution in the case of bankruptcy of the Depositary. The investors are therefore exposed to the risk of the Depositary not being able to fully meet its obligation to reconstitute all of the assets of the Company in the case of bankruptcy of the Depositary. In addition, the Target Fund's cash held with the Depositary may not be segregated from the Depositary's own cash/cash under custody for other clients of the Depositary, and the Target Fund may therefore rank as an unsecured creditor in relation thereto in the case of bankruptcy of the Depositary.</p> <p>The Depositary may not keep all the assets of the Company itself but may use a network of sub-custodians which are not always part of the same group of companies as the Depositary. Investors may be exposed to the risk of bankruptcy of the sub-custodians in circumstances where the Depositary may have no liability.</p> <p>The Target Fund may invest in markets where custodial and/or settlement systems are not fully developed. The assets of the Target Fund that are traded in such markets and which have been entrusted to such sub-custodians may be exposed to risk in circumstances where the Depositary may have no liability.</p>
<b>Fund liability risk</b>	<p>The Company is structured as an umbrella fund with segregated liability between its funds. As a matter of Luxembourg law, the assets of one fund will not be available to meet the liabilities of another. However, the Company is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation of liability. As at the date of the Target Fund Prospectus, the Company's directors are not aware of any such existing or contingent liability.</p>
<b>Market leverage</b>	<p>The Target Fund will not use borrowing to purchase additional investments but may be expected, via derivative positions, to obtain market leverage (gross market exposure, aggregating both long and synthetic short positions, in excess of net asset value). The Target Fund Manager will seek to make absolute returns from relative value decisions between markets ("this market will do better than that market"), as well as from directional views on the absolute return of markets ("this market is going to go up or down"). The extent of market leverage is likely to depend on the degree of correlation between positions. The higher the degree of correlation, the greater is the likelihood and probable extent of market leverage.</p>

<b>GENERAL RISKS OF THE TARGET FUND</b>	
<b>Repurchase and reverse repurchase agreements</b>	Under a repurchase agreement the Target Fund sells a security to a counterparty and simultaneously agrees to repurchase the security back from the counterparty at an agreed price and date. The difference between the sale price and the repurchase price establishes the cost of the transaction. The resale price generally exceeds the purchase price by an amount which reflects an agreed-upon market interest rate for the term of the agreement. In a reverse repurchase agreement the Target Fund purchases an investment from a counterparty which undertakes to repurchase the security at an agreed resale price on an agreed future date. The Target Fund therefore bears the risk that if the seller defaults the Target Fund might suffer a loss to the extent that proceeds from the sale of the underlying securities together with any other collateral held by the Target Fund in connection with the relevant agreement may be less than the repurchase price because of market movements. The Target Fund cannot sell the securities which are the subject of a reverse repurchase agreement until the term of the agreement has expired or the counterparty has exercised its right to repurchase the securities.
<b>Other risks</b>	<p>The Target Fund may be exposed to risks that are outside of its control – for example legal risks from investments in countries with unclear and changing laws or the lack of established or effective avenues for legal redress; the risk of terrorist actions; the risk that economic and diplomatic sanctions may be in place or imposed on certain states and military action may be commenced. The impact of such events is unclear, but could have a material effect on general economic conditions and market liquidity.</p> <p>Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The effect of any future regulatory action on the Company could be substantial and adverse.</p>

<b>SPECIFIC RISKS OF THE TARGET FUND</b>	
<b>Liquidity risk</b>	<p>Trading volumes in the underlying investments of the Target Fund may fluctuate significantly depending on market sentiment. There is a risk that investments made by the Target Fund may become less liquid in response to market developments, adverse investor perceptions or regulatory and government intervention (including the possibility of widespread trading suspensions implemented by domestic regulators). In extreme market conditions, there may be no willing buyer for an investment and so that investment cannot be readily sold at the desired time or price, and consequently the Target Fund may have to accept a lower price to sell the relevant investment or may not be able to sell the investment at all. An inability to sell a particular investment or portion of the Target Fund's assets can have a negative impact on the value of the Target Fund or prevent the Target Fund from being able to take advantage of other investment opportunities.</p> <p>Investment in equity securities issued by unlisted companies, small and mid-capitalisation companies and companies based in emerging countries are particularly subject to the risk that during certain market conditions, the liquidity of particular issuers or industries, or all securities within a particular investment category, will reduce or disappear suddenly and without warning as a result of adverse economic, market or political events, or adverse market sentiment.</p> <p>Liquidity risk also includes the risk that the Target Fund may be forced to defer redemptions, issue in specie redemptions or suspend dealing because of stressed market conditions, an unusually high volume of redemption requests, or other factors beyond the control of the Target Fund Manager. To meet redemption requests, the Target Fund may be forced to sell investments at an unfavourable time and/or conditions, which may have a negative impact on the value of the Fund's investment.</p>
<b>Smaller capitalisation companies</b>	The securities of smaller companies may be subject to more abrupt or erratic market movements than larger, more established companies or the market average in general. These companies may have limited product lines, markets or financial resources, or they may be dependent on a limited management group. Full development of those companies takes time. In addition, many small company stocks trade less frequently and in smaller volume, and may be subject to more abrupt or erratic price movements than stocks of large companies. The securities of small companies may also be more sensitive to market changes than the securities of large companies. These factors may result in above-average fluctuations in the net asset value of the Target Fund's shares.

SPECIFIC RISKS OF THE TARGET FUND	
<b>Equity risk</b>	<p>The values of equities fluctuate daily and the Target Fund investing in equities could incur significant losses. The price of equities can be influenced by many factors at the individual company level, as well as by broader economic and political developments, including changes in investment sentiment, trends in economic growth, inflation and interest rates, corporate earnings reports, demographic trends and catastrophic events.</p>
<b>Emerging market risk</b>	<p>Emerging markets are typically those of poorer or less developed countries which exhibit lower levels of economic and/or capital market development, and higher levels of share price and currency volatility. Amongst these, those which exhibit the lowest levels of economic and/or capital market development may be referred to as frontier markets, and the below mentioned risks may be amplified for these markets.</p> <p>Some emerging markets governments exercise substantial influence over the private economic sector and the political and social uncertainties that exist for many developing countries are particularly significant. Another risk common to most such countries is that the economy is heavily export oriented and, accordingly, is dependent upon international trade. The existence of overburdened infrastructures and inadequate financial systems also presents risks in certain countries, as do environmental problems which may be exacerbated by climate change.</p> <p>In adverse social and political circumstances, governments have been involved in policies of expropriation, confiscatory taxation, nationalisation, intervention in the securities market and trade settlement, and imposition of foreign investment restrictions and exchange controls, and these could be repeated in the future. In addition to withholding taxes on investment income, some emerging markets may impose capital gains taxes on foreign investors.</p> <p>Generally accepted accounting, auditing and financial reporting practices in emerging markets may be significantly different from those in developed markets. Compared to mature markets, some emerging markets may have a low level of regulation, enforcement of regulations and monitoring of investors' activities. Those activities may include practices such as trading on material non-public information by certain categories of investor.</p> <p>The securities markets of developing countries are not as large as the more established securities markets and have substantially less trading volume, resulting in a lack of liquidity and high price volatility. There may be a high concentration of market capitalisation and trading volume in a small number of issuers representing a limited number of industries as well as a high concentration of investors and financial intermediaries.</p> <p>These factors may adversely affect the timing and pricing of the Target Fund's acquisition or disposal of securities.</p> <p>Practices in relation to the settlement of securities transactions in emerging markets involve higher risks than those in developed markets, in part because the Company will need to use brokers and counterparties which are less well capitalised, and custody and registration of assets in some countries may be unreliable. Delays in settlement could result in investment opportunities being missed if the Target Fund is unable to acquire or dispose of a security. The Depositary is responsible for the proper selection and supervision of its correspondent banks in all relevant markets in accordance with Luxembourg law and regulation.</p> <p>In certain emerging markets, registrars are not subject to effective government supervision nor are they always independent from issuers. Investors should therefore be aware that the Target Fund could suffer loss arising from these registration problems.</p> <p>As a result of some of these characteristics there could be additional impacts on the value of the Target Fund as a result of sustainability risks, in particular those caused by environmental changes related to climate change, social issues (including but not limited to relating to labour rights) and governance risk (including but not limited to risks around board independence, ownership and control, or audit and tax management). Additionally, disclosures or third-party data coverage associated with sustainability risks is generally less available or transparent in these markets.</p>

<b>SPECIFIC RISKS OF THE TARGET FUND</b>	
<b>Restriction on foreign investments</b>	<p>Some countries prohibit or impose substantial restrictions on investments by foreign entities such as the Target Fund. As illustrations, certain countries require governmental approval prior to investments by foreign persons, or limit the amount of investment by foreign persons in a particular company, or limit the investment by foreign persons in a company to only a specific class of securities which may have less advantageous terms than securities of the company available for purchase by nationals. Certain countries may restrict investment opportunities in issuers or industries deemed important to national interests. The manner in which foreign investors may invest in companies in certain countries, as well as limitations on such investments, may have an adverse impact on the operations of the Target Fund. For example, the Target Fund may be required in certain of such countries to invest initially through a local broker or other entity and then have the share purchases re-registered in the name of the Target Fund. Re-registration may in some instances not be able to occur on a timely basis, resulting in a delay during which the Target Fund may be denied certain of its rights as an investor, including rights as to dividends or to be made aware of certain corporate actions. There also may be instances where the Target Fund places a purchase order but is subsequently informed, at the time of re-registration, that the permissible allocation to foreign investors has been filled, depriving the Target Fund of the ability to make its desired investment at the time. Substantial limitations may exist in certain countries with respect to the Target Fund's ability to repatriate investment income, capital or the proceeds of sales of securities by foreign investors. The Target Fund could be adversely affected by delays in, or a refusal to grant any required governmental approval for repatriation of capital, as well as by the application to the Target Fund of any restriction on investments. A number of countries have authorised the formation of closed-end investment companies to facilitate indirect foreign investment in their capital markets. Shares of certain closed-end investment companies may at times be acquired only at market prices representing premiums to their net asset values. If the Target Fund acquires shares in closed-end investment companies, shareholders would bear both their proportionate share of expenses in the Target Fund (including management fees) and, indirectly, the expenses of such closed end investment companies. In addition, certain countries such as India and the PRC implement quota restrictions on foreign ownership of certain onshore investments. These investments may at times be acquired only at market prices representing premiums to their net asset values and such premiums may ultimately be borne by the Target Fund. The Target Fund may also seek, at its own cost, to create its own investment entities under the laws of certain countries.</p>
<b>Funds investing in specific sectors</b>	<p>Where investment is made in one or in a limited number of market sectors, the Target Fund may be more volatile than other more diversified funds. The companies within these sectors may have limited product lines, markets, or financial resources, or may depend on a limited management group. The Target Fund may also be subject to rapid cyclical changes in investor activity and/or the supply of and demand for specific products and services. As a result, a stock market or economic downturn in the relevant specific sector or sectors would have a larger impact on the Target Fund that concentrates its investments in that sector or sectors than on a more diversified fund. There may also be special risk factors associated with individual sectors. For example, the stock prices of companies operating in natural resource related sectors, such as precious and other metals may be expected to follow the market price of the related natural resource, although there is unlikely to be perfect correlation between these two factors. Precious and other metal prices historically have been very volatile, which may adversely affect the financial condition of companies involved with precious and other metals. Also, the sale of precious and other metals by governments or central banks or other larger holders can be affected by various economic, financial, social and political factors, which may be unpredictable and may have a significant impact on the prices of precious and other metals. Other factors that may affect the prices of precious and other metals and securities related to them include changes in inflation, the outlook for inflation and changes in industrial and commercial supply and demand for such metals.</p> <p>Real estate securities are subject to some of the same risks associated with the direct ownership of real estate including, but not limited to: adverse changes in the conditions of the real estate markets, changes in the general and local economies,</p>

<b>SPECIFIC RISKS OF THE TARGET FUND</b>	
	<p>obsolescence of properties, changes in availability of real estate stock, vacancy rates, tenant bankruptcies, costs and terms of mortgage financing, costs of operating and improving real estate and the impact of laws affecting real estate (including environmental and planning laws).</p> <p>However, investing in real estate securities is not equivalent to investing directly in real estate and the performance of real estate securities may be more heavily dependent on the general performance of stock markets than the general performance of the real estate sector. Historically there had been an inverse relationship between interest rates and property values. Rising interest rates can decrease the value of the properties in which a real estate company invests and can also increase related borrowing costs. Either of these events can decrease the value of an investment in real estate companies. The current taxation regimes for property-invested entities are potentially complex and may change in the future. This may impact either directly or indirectly the returns to investors in a real estate fund and the taxation treatment thereof.</p>
<b>Investments in the PRC</b>	<p>Investments in the PRC are currently subject to certain additional risks, particularly regarding the ability to deal in securities in the PRC. Dealing in certain PRC securities is restricted to licensed investors and the ability of the investor to repatriate its capital invested in those securities may be limited at times. Due to issues relating to liquidity and repatriation of capital, the Company may determine from time to time that making direct investments in certain securities may not be appropriate for a UCITS. As a result, the Company may choose to gain exposure to PRC securities indirectly and may be unable to gain full exposure to the PRC markets.</p>
<b>PRC economics risk</b>	<p>The PRC is one of the world's largest global emerging markets. The economy in the PRC, which has been in a state of transition from a planned economy to a more market orientated economy, differs from the economies of most developed countries and investing in the PRC may be subject to greater risk of loss than investments in developed markets. This is due to, among other things, greater market volatility, lower trading volume, political and economic instability, greater risk of market shut down, greater control of foreign exchange and more limitations on foreign investment policy than those typically found in a developed market. There may be substantial government intervention in the PRC economy, including restrictions on investment in companies or industries deemed sensitive to relevant national interests. The PRC government and regulators may also intervene in the financial markets, such as by the imposition of trading restrictions, which may affect the trading of PRC securities. The companies in which the Target Fund invests may be held to lower disclosure, corporate governance, accounting and reporting standards than companies in more developed markets. In addition, some of the securities held by the Target Fund may be subject to higher transaction and other costs, foreign ownership limits, the imposition of withholding or other taxes, or may have liquidity issues which make such securities more difficult to sell at reasonable prices. These factors may have an unpredictable impact on the Target Fund's investments and increase the volatility and hence the risk of a loss to the value of an investment in the Target Fund.</p> <p>As with any fund investing in an emerging market country, the Target Fund investing in the PRC may be subject to greater risk of loss than a fund investing in a developed market country. The PRC economy has experienced significant and rapid growth in the past 20 years. However, such growth may or may not continue, and may not apply evenly across different geographic locations and sectors of the PRC economy. Economic growth has also been accompanied by periods of high inflation. The PRC government has implemented various measures from time to time to control inflation and restrain the rate of economic growth of the PRC economy. Furthermore, the PRC government has carried out economic reforms to achieve decentralisation and utilisation of market forces to develop the economy of the PRC. These reforms have resulted in significant economic growth and social progress. There can, however, be no assurance that the PRC government will continue to pursue such economic policies or, if it does, that those policies will continue to be successful. Any such adjustment and modification of those economic policies may have an adverse impact on the securities markets in PRC and therefore on the performance of the Target Fund.</p> <p>These factors may increase the volatility of the Target Fund (depending on its degree of investment in the PRC) and hence the risk of loss to the value of the Fund's investment.</p>

	<b>SPECIFIC RISKS OF THE TARGET FUND</b>
<b>PRC political risks</b>	Any political changes, social instability and adverse diplomatic developments which may take place in, or in relation to, the PRC could result in significant fluctuation in the price of China A Shares and/or China onshore bonds.
<b>Legal system of the PRC</b>	The PRC legal system is based on written statutes and their interpretation by the Supreme People’s Court. Prior court decisions may be cited for reference but have no precedent value. Since 1979, the PRC government has been developing a comprehensive system of commercial laws and considerable progress has been made in introducing laws and regulations dealing with economic matters such as foreign investment, corporate organisation and governance, commerce, taxation and trade. However, because of the limited volume of published cases and judicial interpretation and their non-binding nature, the interpretation and enforcement of these regulations involves significant uncertainties. Given the short history of the PRC system of commercial laws, the PRC regulatory and legal framework may not be as well developed as those of developed countries. Such regulations also empower the CSRC and SAFE to exercise discretion in their respective interpretation of the regulations, which may result in increased uncertainties in their application. In addition, as the PRC legal system develops, no assurance can be given that changes in such laws and regulations, their interpretation or their enforcement will not have a material adverse effect on the Target Fund’s onshore business operations or the ability of the Target Fund to acquire China A Shares and/or China onshore bonds.
<b>Renminbi currency and conversion risks</b>	<p>The Renminbi, the lawful currency of the PRC, is not currently a freely convertible currency and is subject to exchange control imposed by the PRC government. Such control of currency conversion and movements in the Renminbi exchange rates may adversely affect the operations and financial results of companies in the PRC. Insofar as the Target Fund may invest in the PRC, it will be subject to the risk of the PRC government’s imposition of restrictions on the repatriation of funds or other assets out of the country, limiting the ability of the Target Fund to satisfy payments to investors.</p> <p>Non-Renminbi based investors are exposed to foreign exchange risk and there is no guarantee that the value of Renminbi against the investors’ base currencies (for example USD) will not depreciate. Any depreciation of Renminbi could adversely affect the value of investor’s investment in the Target Fund. The exchange rate used for the Target Fund transactions in Renminbi is in relation to the offshore Renminbi (“CNH”), not the onshore Renminbi (“CNY”), save for those made via the qualified foreign investors (“QFI”) regime. The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions applied by the PRC government from time-to-time as well as other external market forces. Any divergence between CNH and CNY may adversely impact investors.</p>
<b>Risk applicable to investing via the Stock Connects</b>	<p><b>Quota Limitations</b></p> <p>The Stock Connect is subject to quota limitations, further details of which are set out in the section “Investment Objective and Policies” of the Target Fund above. In particular, once the daily quota is exceeded, buy orders will be rejected (although investors will be permitted to sell their cross-boundary securities regardless of the quota balance). Therefore, quota limitations may restrict the Target Fund’s ability to invest in the eligible securities through the Stock Connect on a timely basis, and the Target Fund may not be able to effectively pursue its investment strategy.</p> <p><b>Legal/Beneficial Ownership</b></p> <p>The SSE Securities and SZSE Securities in respect of the Target Fund are held by the Depository /sub-custodian in accounts in the Hong Kong central clearing and settlement system (“CCASS”) maintained by the HKSCC as central securities depository in Hong Kong. HKSCC in turn holds the SSE Securities and SZSE Securities, as the nominee holder, through an omnibus securities account in its name registered with ChinaClear. The precise nature and rights of the Target Fund as the beneficial owners of the SSE Securities and SZSE Securities through HKSCC as nominee is not well defined under PRC law. There is lack of a clear definition of, and distinction between, “legal ownership” and “beneficial ownership” under PRC law and there have been few cases involving a nominee account structure in the PRC courts. Therefore, the exact nature</p>

**SPECIFIC RISKS OF THE TARGET FUND**

and methods of enforcement of the rights and interests of the Target Fund under PRC law is uncertain. Because of this uncertainty, in the unlikely event that HKSCC becomes subject to winding up proceedings in Hong Kong it is not clear if the SSE Securities and SZSE Securities will be regarded as held for the beneficial ownership of the Target Fund or as part of the general assets of HKSCC available for general distribution to its creditors.

**Clearing and Settlement Risk**

HKSCC and ChinaClear have established the clearing links and each has become a participant of the other to facilitate clearing and settlement of cross-boundary trades. For cross-boundary trades initiated in a market, the clearing house of that market will on one hand clear and settle with its own clearing participants, and on the other hand undertake to fulfil the clearing and settlement obligations of its clearing participants with the counterparty clearing house.

As the national central counterparty of the PRC's securities market, ChinaClear operates a comprehensive network of clearing, settlement and stock holding infrastructure.

ChinaClear has established a risk management framework and measures that are approved and supervised by the CSRC. The chances of ChinaClear default are considered to be remote. In the remote event of a ChinaClear default, HKSCC's liabilities in Northbound trades under its market contracts with clearing participants will be limited to assisting clearing participants in pursuing their claims against ChinaClear. HKSCC should in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear's liquidation. In that event, the Target Fund may suffer delay in the recovery process or may not fully recover its losses from ChinaClear.

**Suspension Risk**

Each of the SEHK, SSE and SZSE reserves the right to suspend trading if necessary for ensuring an orderly and fair market and that risks are managed prudently. Consent from the relevant regulator would be sought before a suspension is triggered. Where a suspension is effected, the Target Fund's ability to access the PRC market will be adversely affected.

**Differences in Trading Day**

The Stock Connect only operates on days when both the PRC and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the PRC market but the Target Fund cannot carry out any China A Shares trading via the Stock Connect. The Target Fund may be subject to a risk of price fluctuations in China A Shares during the time when the Stock Connect is not trading as a result.

**Restrictions on Selling Imposed by Front-end Monitoring**

PRC regulations require that before an investor sells any share, there should be sufficient shares in the account; otherwise the SSE or SZSE will reject the sell order concerned. SEHK will carry out pre-trade checking on China A Share sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling.

If the Target Fund intends to sell certain China A Shares it holds, it must transfer those China A Shares to the respective accounts of its broker(s) before the market opens on the day of selling ("trading day"). If it fails to meet this deadline, it will not be able to sell those shares on the trading day. Because of this requirement, the Target Fund may not be able to dispose of its holdings of China A Shares in a timely manner.

Alternatively, if the Target Fund maintains its SSE Securities and/or SZSE Securities with a custodian which is a custodian participant or general clearing participant participating in the CCASS, the Target Fund may request such custodian to open a special segregated account ("SPSA") in CCASS to maintain its holdings in SSE Securities and/or SZSE Securities (as the case may be) under the enhanced pre-trade checking model. Each SPSA will be assigned a unique "Investor ID" by CCASS for the purpose of facilitating the Stock Connects system to verify the holdings of an investor such as the Target Fund. Provided that there is sufficient holding in the SPSA when a broker inputs the Target Fund's sell order, the Target Fund will only need to transfer SSE Securities and/or SZSE Securities from its SPSA to its broker's account after execution and not before placing the sell order and the Target Fund

**SPECIFIC RISKS OF THE TARGET FUND**

will not be subject to the risk of being unable to dispose of its holdings of SSE Securities and/or SZSE Securities in a timely manner due to failure to transfer SSE Securities and/or SZSE Securities to its brokers in a timely manner.

To the extent the Target Fund is unable to utilize the SPSA model, it would have to deliver SSE Securities and/or SZSE Securities to its brokers before the market opens on the trading day. Accordingly, if there are insufficient SSE Securities and/or SZSE Securities in the Target Fund's account before the market opens on the trading day, the sell order will be rejected, which may adversely impact its performance.

**Settlement Mode under the SPSA model**

Under the normal delivery versus payment ("DVP") settlement mode, stock and cash settlement will take place on the day instruction is received, between clearing participants (i.e. brokers and custodian or a custodian participant) with a maximum window of four hours between stocks and cash movement. This applies to settlement in CNH only and on the condition that the brokers support same-day Chinese renminbi cash finality. Under the real time delivery versus payment ("RDVP") settlement mode introduced in November, 2017, stock and cash movement will take place real time but the use of RDVP is not mandatory. The clearing participants must agree to settle the transaction RDVP and indicate RDVP on the settlement instruction in a specific field. If either of the clearing participants are unable to settle the trades RDVP, there is a risk that the trades could either fail or revert to normal DVP based on amendment from both parties. If the trades are to revert to normal DVP, an amended instruction from the Target Fund must be provided before the published cut-off and matched with the broker's amended instruction before the market cut off; in the absence of such amended instructions, there is a risk the trades could fail and therefore may impact on the ability of the Target Fund to track closely the performance of its benchmark index.

**Operational Risk**

The Stock Connects are premised on the functioning of the operational systems of the relevant market participants. Market participants are permitted to participate in this program subject to meeting certain information technology capability, risk management and other requirements as may be specified by the relevant exchange and/or clearing house.

The securities regimes and legal systems of the two markets differ significantly and market participants may need to address issues arising from the differences on an on-going basis. There is no assurance that the systems of the SEHK and market participants will function properly or will continue to be adapted to changes and developments in both markets. In the event that the relevant systems fail to function properly, trading in both markets through the program could be disrupted. The Target Fund's ability to access the PRC market (and hence to pursue its investment strategy) may be adversely affected.

**Regulatory Risk**

The Stock Connect is a novel concept. The current regulations are untested and there is no certainty as to how they will be applied. In addition, the current regulations are subject to change which may have potential retrospective effects and there can be no assurance that the Stock Connects will not be abolished. New regulations may be issued from time to time by the regulators / stock exchanges in the PRC and Hong Kong in connection with operations, legal enforcement and cross-border trades under the Stock Connect. The Target Fund may be adversely affected as a result of such changes.

Chinese companies, such as those in the financial services or technology sectors, and potentially other sectors in the future, are also subject to the risk that Chinese authorities can intervene in their operations and structure, which may negatively affect the value of the Target Fund's investments.

**Recalling of Eligible Securities**

When a security is recalled from the scope of eligible stocks for trading via the Stock Connect, the stock can only be sold but restricted from being bought. This may affect the investment portfolio or strategies of the Target Fund, for example, if the Target Fund Manager wishes to purchase a stock which is recalled from the scope of eligible stocks.

<b>SPECIFIC RISKS OF THE TARGET FUND</b>	
<b>ESG investment policy risk</b>	<p>The Target Fund will use certain ESG criteria in their investment strategies, as determined by the data provided by their respective ESG Providers and as set out in the Target Fund’s investment policies. The Target Fund may use one or more different ESG Providers.</p> <p>The use of ESG criteria may affect the Target Fund’s investment performance and, as such, the Target Fund may perform differently compared to similar funds that do not use such criteria. ESG-based exclusionary criteria used in the Target Fund’s investment policy may result in the Target Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their ESG characteristics when it might be disadvantageous to do so.</p> <p>In the event the ESG characteristics of a security held by the Target Fund change, resulting in the Target Fund Manager having to sell the security, neither the Target Fund, the Company nor the Target Fund Manager accept liability in relation to such change.</p> <p>No investment will be made in contravention of Luxembourg law.</p> <p>Any website indicated in the investment policy of the Target Fund includes information on the index methodology published by the relevant ESG Provider and explains which types of issuer or security are excluded, for example by reference to the sector from which they derive their revenue. Such sectors might include tobacco, weapons or thermal coal. The relevant exclusions might not correspond directly with investors own subjective ethical views.</p> <p>The Target Fund will vote proxies in a manner that is consistent with the relevant ESG exclusionary criteria, which may not always be consistent with maximising the short-term performance of the relevant issuer.</p> <p>In evaluating a security or issuer based on ESG criteria, the Target Fund Manager is dependent upon information and data from third party ESG Providers, which may be incomplete, inaccurate, inconsistent or unavailable. As a result, there is a risk that the Target Fund Manager may incorrectly assess a security or issuer. There is also a risk that the Target Fund Manager may not apply the relevant ESG criteria correctly or that the Target Fund may gain limited exposure (through, including but not limited to, derivatives, cash and near- cash instruments, shares or units of CIS, and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide) to issuers which may not be consistent with the relevant ESG criteria used by the Target Fund. Neither the Target Fund, the Company nor the Target Fund Manager make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of such ESG assessment.</p> <p><b>MSCI ESG Screening Criteria</b></p> <p>The Target Fund will apply ESG criteria as defined by MSCI, an ESG Provider. The MSCI methodology positively screens and ranks potential constituents according to their ESG credentials relative to their industry peers. No exclusion is made by MSCI on the basis of how ethical a particular industry/sector is perceived to be. Such ESG screening may affect, adversely or otherwise, the value and/or quality of the Target Fund’s investments compared to a fund without such screening.</p>

# DEALING INFORMATION

**You are advised not to make payment in cash to any individual agent when purchasing Units of the Fund.**

If you intend to invest in a Class other than MYR Class and MYR Hedged-class, you are required to have a foreign currency account with any Financial Institution as all transactions relating to the particular foreign currency will ONLY be made via telegraphic transfers.

## WHO IS ELIGIBLE TO INVEST?

- You must be at least eighteen (18) years old and a Sophisticated Investor in order to invest in this Fund. Please refer to the “Glossary” chapter of this Information Memorandum for the definition of “Sophisticated Investor”.
- Please note that if you are a US Person, you are not eligible to subscribe to the Units of the Fund. If we become aware that you are a US Person who holds Units of the Fund, we will issue a notice requiring you to:-
  - redeem your Units of the Fund; or
  - transfer your Units to a non-US Person, within thirty (30) days from the date of the said notice.

## HOW TO PURCHASE UNITS?

- You may submit the purchase request by completing an application form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- You are required to provide us with the following completed forms and documents. However, we reserve the right to request for additional documentations before we process the purchase application.

Individual or Jointholder	Corporation
<ul style="list-style-type: none"> <li>• Account opening form;</li> <li>• Suitability assessment form;</li> <li>• Personal data protection notice form;</li> <li>• Client acknowledgement form;</li> <li>• A copy of identity card or passport or any other document of identification; and</li> <li>• Foreign Account Tax Compliance Act (“FATCA”) and Common Reporting Standard (“CRS”) Self-certification Form.</li> </ul>	<ul style="list-style-type: none"> <li>• Account opening form;</li> <li>• Suitability assessment form;</li> <li>• Personal data protection notice form;</li> <li>• Certified true copy of memorandum and articles of association*;</li> <li>• Certified true copy of certificate of incorporation*;</li> <li>• Certified true copy of form 24 and form 49*;</li> <li>• Certified true copy of form 8, 9, 13, 20 and 44 (where applicable)*;</li> <li>• Latest audited financial statement;</li> <li>• Board resolution relating to the investment;</li> <li>• A list of the authorised signatories;</li> <li>• Specimen signatures of the respective signatories; and</li> <li>• Foreign Account Tax Compliance Act (“FATCA”) and Common Reporting Standard (“CRS”) Self-certification Form.</li> </ul> <p><i>* or any other equivalent documentation issued by the authorities.</i></p>

## HOW TO MAKE PAYMENT FOR PURCHASE APPLICATION?

- You may transfer the purchase payment into our bank account via telegraphic transfer or online transfer, and include your name in the transaction description for our reference. Payment must be made in the currency of the Class which you intend to invest into. You may obtain our bank account details from our online download center at [www.aham.com.my](http://www.aham.com.my).
- Bank charges or other bank fees, if any, will be borne by you.

#### WHAT IS THE PROCESS OF THE PURCHASE APPLICATION?

- If we receive your purchase application at or before 3.30 p.m. on a Business Day (or “T day”), the Units will be created in the following manner:-

<b>USD Class, MYR Class, MYR Hedged-class, SGD Hedged-class and AUD Hedged-class</b>	Based on the NAV per Unit of a Class for that Business Day.
<b>GBP Hedged-class, EUR Hedged-class and RMB Hedged-class</b>	Based on the initial offer price of a Class during the initial offer period and thereafter, NAV per Unit of a Class for that Business Day.

- Any purchase request received or deemed to have been received by us after 3.30 p.m. will be transacted on the next Business Day (or “T + 1 day”), unless a prior arrangement is made to our satisfaction.
- Sale of Units will be honoured upon receipt of a complete set of documents together with the proof of payments.

#### HOW TO REPURCHASE UNITS?

- It is important to note that, you must meet the minimum holding of Units for a particular Class after a repurchase transaction.

If you insist on making a repurchase request knowing that after the transaction you will hold less than the minimum holding of Units for a particular Class, we may withdraw all your holding of Units for that particular Class and pay the proceeds to you.

We may, with the consent of the Trustee, reserve the right to defer your repurchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- Payment of the repurchase proceeds will be made via bank transfer where proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Bank charges or other bank fees, if any, will be borne by us.

#### WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 3.30 p.m. on a Business Day (or “T day”), the Units will be repurchased in the following manner:-

<b>USD Class, MYR Class, MYR Hedged-class, SGD Hedged-class and AUD Hedged-class</b>	Based on the NAV per Unit of a Class for that Business Day.
<b>GBP Hedged-class, EUR Hedged-class and RMB Hedged-class</b>	Based on the initial offer price of a Class during the initial offer period and thereafter, NAV per Unit of a Class for that Business Day.

- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

#### WHAT IS THE REPURCHASE PROCEEDS PAYOUT PERIOD?

- You will be paid within ten (10) Business Days from the day the repurchase request is received by us, provided that all documentations are completed and verifiable (“**Payment Period**”). Please note that such Payment Period may be extended in the event of a temporarily suspension of dealing in Units or the calculation of the net asset value of the Target Fund and/or its share class is deferred or the payment period of the Target Fund is extended.

#### WHAT IS THE PRICING OF UNITS?

- During the initial offer period, the Selling Price and Repurchase Price for all Classes is equivalent to the initial offer price of each Class and thereafter, the NAV per Unit of the respective Class. Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class after the initial offer period, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.
- Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

## WHERE TO PURCHASE AND REPURCHASE UNITS?

- Units can be purchased and repurchased at any of the location listed in the “Directory of Sales Offices” section in this Information Memorandum or with our authorised distributors.
- You may obtain a copy of the Information Memorandum, product highlights sheet and application forms from the abovementioned location. Alternatively, you may also visit our website at [www.aham.com.my](http://www.aham.com.my).

## WHAT IS COOLING-OFF RIGHT?

- You have the right to apply for and receive a refund for every Unit that you have paid for within six (6) Business Days from the date we received your purchase application.
- You will be refunded for every Unit held based on the prices mentioned below and the Sales Charge of the particular Class imposed on the day those Units were purchased.
  - (i) If the price of a Unit on the day the Units were first purchased (“original price”) is higher than the price of a Unit at the point of exercise of the cooling-off right (“market price”), you will be refunded based on the market price at the point of cooling-off; or
  - (ii) If the market price is higher than the original price, you will be refunded based on the original price at the point of cooling-off.
- You will be refunded within ten (10) Business Days from our receipt of the cooling-off application.

Please note that the cooling-off right is applicable to you if you are an individual investor and are investing in any of our funds for the first time. However, if you are a staff of AHAM or a person registered with a body approved by the SC to deal in unit trust funds, you are not entitled to this right.

## WHAT IS THE PROCESS OF COOLING-OFF APPLICATION?

- We will process your cooling-off request if your request is received or deemed to have been received by us at or before 3.30 p.m. on a Business Day (or “T day”). Any cooling-off request received after 3.30 p.m. will be transacted on the next Business Day (or “T + 1 day”).

Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

## WHAT ARE THE SWITCHING OPTIONS?

You are able to switch:

- between Classes of the Fund; or
- into any of our funds (or its classes), provided that the fund (or its class) is denominated in the same currency as the Class that you intend to switch out of, and it is subject to the terms and conditions applicable for the respective funds.

However, you must meet the minimum holding of Units requirements of the Class that you switched out from and the minimum investment amount of the fund (or its class) that you intend to switch into.

You are also to note that we reserve the right to reject any switching requests that are regarded as disruptive to efficient portfolio management, or request that we deem to be contrary to the best interests of the Fund and/or the existing Unit Holders of a particular Class.

The process of the switching application is as below:

### ➤ **Switching between Classes of the Fund**

You must complete a switching transaction form and submit it to us together with relevant supporting documents, if any. If we receive your switching request at or before the cut-off time of 3.30 p.m. on a Business Day, we will process it using the NAV per Unit of a Class for that Business Day (or “T Day”). If we receive your switching request after 3.30 p.m., we will process it using the NAV per Unit of a Class calculated at the end of the next Business Day (or “T + 1 Day”).

### ➤ **Switching from the Classes of this Fund into other funds (or its class) managed by AHAM**

You must complete a switching transaction form and submit it to us at or before the cut-off time of 3.30 p.m. on a Business Day (or “T Day”) together with relevant supporting documents, if any. If we receive your switching request after 3.30 p.m., we will process your request on the next Business Day (or “T + 1 Day”).

You should note that the pricing day of a fund (or its class) may not be on the same day as when we receive your switching application. Please see below the pricing policy of switching for all our funds:

Switching Out Fund	Switching In Fund	Pricing Day	
		Switching Out Fund	Switching In Fund
Money market fund	Non-money market fund	T Day	T Day
Non-money market fund	Non-money market fund		
Money market fund	Money market fund	T Day	T + 1 Day
Non-money market fund	Money market fund	T Day	At the next valuation point, subject to clearance of payment and money received by the intended fund

#### **CAN I TRANSFER MY UNITS TO ANOTHER PERSON?**

- You are allowed to transfer your Units, whether fully or partially, to another person by completing the transfer transaction form and returning it to us on a Business Day. The transfer must be made in terms of Units and not in terms of USD, MYR, SGD, AUD, GBP, EUR and RMB value. There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holding of Units to remain as a Unit Holder of a Class.
- It is important to note that we are at liberty to disregard or refuse to process the transfer application if the processing of such instruction will be in contravention of any law or regulatory requirements, whether or not having the force of law and/or would expose us to any liability.

Please note that the person who is in receipt of the Units must be a Sophisticated Investor as well.

#### **HOW DO I RECEIVE THE INCOME DISTRIBUTION?**

- Income distribution, if any, will be paid out in the currencies which the Classes are denominated. You may elect the mode of distribution in cash payment or additional Units by way of reinvestment by ticking the appropriate column in the application form. You may also inform us, at any time before the income distribution date of your wish of receiving cash payment or additional Units via reinvestment. All distribution will be automatically reinvested into additional Units in the Fund if you do not elect the mode of distribution in the application form.

Any distribution payable which is less than or equal to the amount of USD/MYR/SGD/AUD/GBP/EUR/RMB 300.00 would be automatically reinvested.

##### Cash Payment Process

Income distribution by way of cash payment will be paid via telegraphic transfer. Income will be transferred to your bank account within seven (7) Business Days after the distribution date.

##### Reinvestment Process

We will create the Units based on the NAV per Unit of the Class at the income payment date which is within two (2) Business Days after the distribution date. There will not be any cost for reinvestments of those additional Units, i.e. no Sales Charge will be imposed on such reinvestment.

#### **SUSPENSION OF DEALING IN UNITS**

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

# RELATED PARTIES TO THE FUND

## ABOUT THE MANAGER - AHAM

AHAM was incorporated in Malaysia on 2 May 1997 and began its operations under the name Hwang-DBS Capital Berhad in 2001. AHAM has more than 20 years' experience in the fund management industry. In 2022, AHAM's ultimate major shareholder is CVC Capital Partners Asia Fund V, a private equity fund managed by CVC Capital Partners ("CVC"), which has approximately 68.35% controlling interest in AHAM. CVC is a global private equity and investment advisory firm with approximately USD125 billion of assets under its management. AHAM is also 20% owned by Nikko Asset Management Co. Ltd., a Tokyo-based asset management company, and 7% owned by Lembaga Tabung Angkatan Tentera.

### Our Role as the Manager

We are responsible for the investment management and marketing of the Fund; servicing Unit Holders' needs; keeping proper administrative records of Unit Holders and the Fund; ensuring compliance with stringent internal procedures and guidelines of relevant authorities.

### Our Investment Team

Our investment team comprises a group of portfolio managers who possess the necessary expertise and experience to undertake the fund management of our unit trust funds. The investment team will meet at least once a week or more should the need arise. The designated fund manager of the Fund is Mr. David Ng and you may obtain his profile from our website at [www.aham.com.my](http://www.aham.com.my).

## ABOUT THE TRUSTEE - TMF TRUSTEES MALAYSIA BERHAD

The Trustee is part of TMF Group, an independent global service provider in the trust and fiduciary sector. The group has more than 125 offices in over 83 jurisdictions in the world. TMF Group started in Malaysia in 1992 with its first office in Labuan International Business Financial Centre (IBFC), providing trust and fiduciary services. The Kuala Lumpur office was established in 2003 to support the Labuan office in servicing Malaysian clients and to undertake domestic trust business.

### Duties and Responsibilities of the Trustee

The Trustee's main functions are to act as trustee and custodian of the assets of the Fund and to safeguard the interests of Unit Holders. In performing these functions and duties, the Trustee has to exercise all due care and vigilance and is required to act in accordance with the provisions of the Deed, all relevant laws and the Guidelines. Apart from being the legal owner of the Fund's assets, the Trustee is also responsible for ensuring that the Manager performs its duties and obligations in accordance with the provisions of the Deed, all relevant laws and the Guidelines.

### Trustee's Delegate

The Trustee has appointed Standard Chartered Bank Malaysia Berhad ("SCBMB") as the custodian of the quoted and unquoted investments of the Fund. SCBMB was incorporated in Malaysia under the same name on 29 February 1984 under the Companies Act 1965 (now known as Companies Act 2016) as a public limited company and is a direct subsidiary of Standard Chartered Bank (Singapore) Limited and an indirect subsidiary of Standard Chartered PLC (the holding company of a global banking group). SCBMB was granted a license on 1 July 1994 under the Banking and Financial Institution Act 1989 (now known as Financial Services Act 2013).

SCBMB is responsible for the Fund's assets settlement and custodising the Fund's asset. The assets are held in the name of the Fund through the custodian's wholly owned subsidiary and nominee company, Cartaban Nominees (Tempatan) Sdn Bhd. All investments are automatically registered into the name of the Fund. The custodian acts only in accordance with the instructions from the Trustee.

# RELEVANT INFORMATION

## SALIENT TERMS OF THE DEED

### Your Rights and Liabilities

You have the right, among others, to the following:-

- (a) To receive the distribution of income (if any), to participate in any increase in the value of the Units and to enjoy such other rights and privileges as are provided for in the Deed;
- (b) To call for Unit Holders' meetings, and to vote for the removal of the Trustee or the Manager through a Special Resolution; and
- (c) To receive quarterly and annual reports.

However, you would not have the right to require the transfer to you of any of the assets of the Fund. Neither would you have the right to interfere with or question the exercise by the Trustee or the Manager on the Trustee's behalf, of the rights of the Trustee as the registered owner of such assets.

You are not liable to the following:-

- (a) For any amount in excess of the purchase price paid for the Units as determined pursuant to the Deed at the time the Units were purchased and any charges payable in relation thereto; or
- (b) For any obligation to indemnify the Trustee and/or the Manager in the event that the liabilities incurred by the Trustee and the Manager in the name of or on behalf of the Fund pursuant to and/or in the performance of the provisions of the Deed exceed the value of the assets of the Fund, and any right of indemnity of the Trustee and/or the Manager shall be limited to recourse to the Fund.

### Provisions Regarding Unit Holders' Meetings

#### *Quorum Required for Convening a Unit Holders' Meeting*

- (a) The quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be five (5) Unit Holders (irrespective of the Class), whether present in person or by proxy; however, if the Fund or a Class, as the case may be, has five (5) or less Unit Holders (irrespective of the Class), the quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be two (2) Unit Holders (irrespective of the Class), whether present in person or by proxy.
- (b) If the meeting has been convened for the purpose of voting on a Special Resolution, the Unit Holders present in person or by proxy must hold in aggregate at least twenty-five per centum (25%) of the Units in Circulation (irrespective of the Class) of the Fund or a particular Class, as the case may be, at the time of the meeting.
- (c) If the Fund or a Class, as the case may be, has only one (1) remaining Unit Holder, such Unit Holder, whether present in person or by proxy, shall constitute the quorum required for the meeting of the Unit Holders of the Fund or a Class, as the case may be.

#### *Unit Holders' Meeting convened by the Unit Holders*

Unless otherwise required or allowed by the relevant laws, the Manager shall, within twenty-one (21) days of receiving a direction from not less than fifty (50) or one-tenth (1/10), of all the Unit Holders or of a particular Class, as the case may be, whichever is less, summon a meeting of the Unit Holders or of that Class by:

- (a) sending by post at least seven (7) days before the date of the proposed meeting a notice of the proposed meeting to all the Unit Holders of the Fund or Unit Holders of a particular Class, as the case may be, at the Unit Holders' last known address or, in the case of jointholders, to the jointholder whose name stands first in the records of the Manager at the jointholder's last known address; and
- (b) publishing at least fourteen (14) days before the date of the proposed meeting an advertisement giving notice of the proposed meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities.

The Unit Holders may direct the Manager to summon a meeting for any purpose including, without limitation, for the purpose of:-

- (a) requiring the retirement or removal of the Manager;
- (b) requiring the retirement or removal of the Trustee;
- (c) considering the most recent financial statements of the Fund; or
- (d) giving to the Trustee such directions as the meeting thinks proper;

provided always that the Manager shall not be obliged to summon such a meeting unless a direction has been received from not less than fifty (50) or one-tenth (1/10), whichever is less, of all the Unit Holders of the Fund or the Unit Holders of a particular Class.

***Unit Holders' Meeting convened by the Manager or Trustee***

The Manager may for any purpose whatsoever summon a meeting of the Unit Holders by sending by post at least fourteen (14) days before the date of the proposed meeting, or such other time as may be prescribed by the relevant laws, a notice of the proposed meeting to all the Unit Holders. All such notices and advertisement to the Unit Holders shall specify the place, time and terms of the resolutions to be proposed.

The Trustee shall summon a Unit Holders' meeting where:

- (a) the Manager is in liquidation;
- (b) in the opinion of the Trustee, the Manager has ceased to carry on business; or
- (c) in the opinion of the Trustee, the Manager has, to the prejudice of Unit Holders, failed to comply with the Deed or contravened any of the provisions of the Act.

The Trustee may also summon a Unit Holders' meeting for any purpose including, without limitation, for the purpose of:

- (a) requiring the retirement or removal of the Manager;
- (b) giving instructions to the Trustee or the Manager if the Trustee considers that the investment management policies of the Manager are not in the interests of Unit Holders;
- (c) securing the agreement of the Unit Holders to release the Trustee from any liability;
- (d) deciding on the next course of action after the Trustee has suspended the sale and repurchase of Units pursuant to Clause 6.9.3 of the Deed; and
- (e) deciding on the reasonableness of the annual management fee charged to the Fund or each Class.

Unless otherwise required or allowed by the relevant laws, a meeting of the Unit Holders summoned by the Trustee pursuant to the aforesaid shall be summoned by:

- (a) sending by post at least twenty-one (21) days before the date of the proposed meeting a notice of the proposed meeting to each of the Unit Holders at the Unit Holder's last known address or, in the case of jointholders, to the jointholder whose name stands first in the records of the Manager at the jointholder's last known address; and
- (b) publishing at least twenty-one (21) days before the date of the proposed meeting an advertisement giving notice of the meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities.

**Termination of the Fund**

The Fund may be terminated or wound up subject to a Special Resolution being passed at a Unit Holders' meeting to terminate or wind up the Fund.

The Manager may determine the trust created and wind up the Fund without having to obtain the prior approval of the Unit Holders upon the occurrence of any of the following events:

- (a) if any new law shall be passed which renders it illegal; or
- (b) if in the reasonable opinion of the Manager it is impracticable or inadvisable to continue the Fund and the termination of the Fund is in the best interests of the Unit Holders.

Notwithstanding the aforesaid, if the Fund is left with no Unit Holder, the Manager shall also be entitled to terminate the Fund.

**Termination of a Class**

The Manager may terminate a particular Class via the passing of a Special Resolution by the Unit Holders of such Class at a meeting of such Unit Holders, and subject to and in accordance with the relevant laws. The Manager may only terminate a particular Class if the termination of that Class does not prejudice the interests of Unit Holders of any other Class. For the avoidance of doubt, the termination of a Class shall not affect the continuity of any other Class.

The Manager may terminate a particular Class without having to obtain the prior approval of the Unit Holders upon the occurrence of any of the following events:

- (a) if any new law shall be passed which renders it illegal; or
- (b) if in the reasonable opinion of the Manager it is impracticable or inadvisable to continue the Class and the termination of the Class is in the best interests of the Unit Holders.

Notwithstanding the aforesaid, if the Class is left with no Unit Holder, the Manager shall also be entitled to terminate the Class.

**Procedures to be taken to increase the Fees and Charges from the current amount stipulated in the Information Memorandum**

We may not charge a Sales Charge and/or Repurchase Charge (if any) at a rate higher than that disclosed in this Information Memorandum unless:-

- (a) we have notified the Trustee in writing of and the effective date for the higher charge; and
- (b) a supplemental/replacement information memorandum in respect of the Fund setting out the higher charge is issued.

We or the Trustee may not charge an annual management fee and/or an annual trustee fee at a rate higher than that disclosed in this Information Memorandum unless:

- (a) the Manager has come to an agreement with the Trustee on the higher rate;
- (b) the Manager has notified the Unit Holders of the higher rate and the date on which such higher rate is to become effective; and
- (c) a supplemental/replacement information memorandum stating the higher rate is issued thereafter.

**INCORRECT PRICING**

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit attributable to a Class unless the total impact on your account of each Class is less than MYR 10.00 or in the case of a foreign currency Class, less than 10.00 denominated in the foreign currency denomination of the Class. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

**FINANCING AND SECURITIES LENDING**

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the SC's Securities Borrowing and Lending Guidelines [SBL Guidelines]) in connection with its activities.

Except for securities lending as provided under the SBL Guidelines, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

**UNCLAIMED MONIES**

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be dealt as follows:-

- (a) we may reinvest the unclaimed distribution proceeds provided that you still have an account with us; or
- (b) we will pay to the Registrar of Unclaimed Monies in accordance with the requirements of the Unclaimed Monies Act 1965.

# INVESTORS INFORMATION

## How can I keep track of my investments?

You may obtain the daily Fund price from our website at [www.aham.com.my](http://www.aham.com.my). As the Fund has exposure to investments in foreign jurisdiction, the daily prices are based on information available two (2) Business Days prior to publication.

We will provide you with an annual report and a quarterly report within two (2) months after the end of the financial period the report covers. In addition, we will also send you a monthly statement confirming the current Unit holdings and transactions relating to your Units in the Fund.

## Who should I contact if I need additional information of the Fund?

You can seek assistance from our customer service personnel at our toll free number 1-800-88-7080 between 8.45 a.m. to 5.30 p.m. on a Business Day. Alternatively, you can e-mail us at [customercare@aham.com.my](mailto:customercare@aham.com.my).

## ANTI-MONEY LAUNDERING POLICIES AND PROCEDURES

Pursuant to the Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001 (“AMLATFPUAA”) and the SC’s Guidelines on Prevention of Money Laundering and Terrorism Financing for Reporting Institutions in the Capital Market, it is our responsibility to prevent AHAM from being used for money laundering and terrorism financing activities. To this end, we have established an Anti-Money Laundering/Counter-Financing of Terrorism Framework (AML/CFT Framework) and put in place anti-money laundering process and procedures to combat such activities. This includes a robust due diligence process and procedures for client on-boarding (such as know-your-client procedures and customer due diligence) as well as ongoing monitoring of clients’ transactions to detect any suspicious transactions.

To meet our regulatory obligations to verify the identity of our clients and to verify the source of funds, we may request for additional information from you. Information requested may include, but not limited to, supporting documents, documentary evidence to support information given and could extend to documents regarding identity of beneficial owners (if applicable). We reserve the right to reject an application to invest in the Fund should clients fail to provide the information required. Furthermore, where a particular transaction is deemed suspicious, we have an obligation under the AMLATFPUAA to notify the relevant authority of the transaction.
