Note:

- (1) Total return is the actual return of the Fund for the respective financial years computed based on the net asset value per unit and net of all fees.
- (2) Total expense ratio ("TER") is calculated based on the total fees and expenses incurred by the Fund divided by the average fund size calculated on a daily basis. The TER decreased by 0.12% as compared to 1.43% per annum for the financial year ended 31 August 2022 mainly due to increase in average fund size.
- (3) Portfolio turnover ratio ("PTR") is calculated based on the average of the total acquisitions and total disposals of investment securities of the Fund divided by the average fund size calculated on a daily basis. The increase in the PTR for 2023 and decrease in 2022 were due mainly to investing activities.

Cross Trade

There were no cross trades undertaken during the financial year under review.

Distribution/ Unit splits	There is no income distribution and unit split declared for the financial year under review.
State of Affairs	There has been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the members during the financial year under review.
Rebates and Soft Commission	<p>During the year, the private retirement scheme provider received soft commissions by virtue of transactions conducted for the Fund, in the form of research services, systems and services relating to performance measurement of portfolios and subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to members of the Fund.</p> <p>The provider has soft commission arrangement with a total of 12 brokers, who execute trades for the Fund and other funds or investments managed by the provider. The soft commission received would be in the form of research services, systems and services relating to performance measurement of portfolios and/or subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to members of the Fund and other funds or investments managed by the provider.</p> <p>Soft commissions received were for the benefit of the Fund and there was no churning of trades.</p>
Market Review	<p>Investors turned cautious in September and October 2022 with the MSCI Asia Pacific ex-Japan Index declining consecutively at 12.92% and 4.24%, respectively, dragged by China due to COVID-19 flare-ups and policy uncertainty post-Congress that weighed on risk sentiment. In addition, the Federal Reserve revised upward interest rate forecast dot plot signaling higher federal reserve fund rate for 2022 also did not bode well to the stock markets.</p> <p>In November, the MSCI Asia Pacific ex-Japan Index rebounded strongly, gaining 17.41%, with all North Asia markets recording double-digit growth. The positive sentiment was supported by potentially earlier-than-expected relaxation in Covid restriction policies in China, as well as announcement by the Chinese government to support the housing market, and eased concerns over United States (US) - China relations after the Biden-Xi Bali meeting. After the strong rebound, the markets went marginally down in December, declining 0.67%.</p> <p>The equity market started positively in 2023, with the MSCI Asia Pacific ex-Japan Index jumping 8.69% in January 2023, helped by prospects of a softer monetary tightening by Federal Reserve amid cooling inflation data. The positive momentum was also lifted by optimism of a re-rating in economic growth prospects on the back of strong revival in demand as China reopened its borders.</p> <p>However, the positive sentiment was short-lived, as the MSCI Asia Pacific ex-Japan Index declined 6.87% in February on concerns over the Federal Reserve's rate hikes following strong job report and inflation numbers in the U.S., as well as heightened geopolitical tension and concern over sustainability of China's economic recovery.</p> <p>In March, the MSCI Asia Pacific ex-Japan Index rebounded 2.45% on receding concerns over the contagion effect from the US and European banks on Asian banks. Dragged by Hong Kong and China markets, the index fell in April and May, declining 1.79% and 2.65%, respectively, as recovery in China was slower than expected with the purchasing managers index for manufacturing sector contracting to 48.8 points in May from 49.2 points a month ago.</p>

	<p>The MSCI Asia Pacific ex-Japan Index rebounded in May and June, gaining 2.61% and 5.39%, respectively, supported by targeted stimulus by the Chinese government, as well as positive investor sentiment towards the politburo meeting policy and persisted interest in information technology sector, especially in artificial intelligence (AI) thematic names in Taiwan.</p> <p>However, the positive sentiment took a hit in August, as a surprise downgrade of the US's long-term credit rating by Fitch along with an increase in the size of debt sales announced by the United States Treasury (UST) weighed on equities. The MSCI Asia Pacific ex-Japan Index declined 6.37% for the month to close at 507.2098 points to register a decline of 2.44% (+1.10% in Ringgit terms) for the financial year under review.</p>
Market Outlook	<p>Market is expected to remain volatile, due to lingering concern on looming recession amid the Federal Reserve keeping interest rate higher- for- longer. Meanwhile, rising geopolitical tensions between the United States and China and Russia-Ukraine conflict may potentially increase the volatility in the global financial market further. To ride through the macro headwinds, the fund will adopt barbell strategy to balance value/growth vs. defensiveness, as well as focus on geographies and sectors which are expected to experience growth/resilience.</p>

Independent auditors' report to the members of AmPRS – Growth Fund

Report on the audit of the financial statements

Opinion

We have audited the financial statements of AmPRS – Growth Fund (“the Fund”), which comprise the statement of financial position as at 31 August 2023 and the statement of comprehensive income, statement of changes in net assets attributable to members and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 13 to 56.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 August 2023 and of its financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Provider is responsible for the other information. The other information comprises the information in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

**Independent auditors' report to the members of
AmPRS – Growth Fund (cont'd.)**

Information other than the financial statements and auditors' report thereon (cont'd.)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of the Provider and the Trustees for the financial statements

The Provider is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Provider is also responsible for such internal control as the Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Provider either intends to liquidate the Fund or to cease operations, or has no realistic alternative to do so.

The Trustee is responsible for ensuring that the Provider maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund, as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent auditors' report to the members of
AmPRS – Growth Fund (cont'd.)**

Auditor's responsibilities for the audit of the financial statements (cont'd.)

As part of an audit in accordance with the approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the planning and performance of the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Provider.
- Conclude on the appropriateness of the Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Independent auditors' report to the members of
AmPRS – Growth Fund (cont'd.)**

Other matters

This report is made solely to the members of the Fund, as a body, in accordance with the Guidelines on Private Retirement Schemes issued by Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023

1. GENERAL INFORMATION

AmPRS – Growth Fund (“the Fund”) was established pursuant to a Deed dated 4 December 2012 as amended by Deeds Supplemental thereto (“the Deed”), between AmFunds Management Berhad as the PRS Provider (“the Provider”), Deutsche Trustees Malaysia Berhad as the Trustee and all members.

The Fund aims to provide long term capital growth by investing primarily in equities, equity-related securities and/or REITs. As provided in the Deed, the financial year shall end on 31 August and the units in the Fund were first offered for sale on 8 April 2013.

The financial statements were authorised for issue by the Provider on 19 October 2023.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards (“MFRS”) as issued by the Malaysian Accounting Standards Board (“MASB”) and International Financial Reporting Standards (“IFRS”).

Standards effective during the financial year

The adoption of the following MFRS which became effective during the financial year did not have any material financial impact to the financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Dividend income

Dividend income is recognised when the Fund's right to receive payment is established.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.1 Income recognition (cont'd.)

(ii) Interest income

For all interest-bearing financial assets, interest income is calculated using the effective interest method. Effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(iii) Gain or loss on disposal of investments

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.4 Foreign currency transactions

Transactions in currencies other than the Fund's functional currency (foreign currencies) are recorded in the functional currency using exchange rates prevailing at the transaction dates. At each reporting date, foreign currency monetary items are translated into RM at exchange rates ruling at the reporting date. All exchange gains or losses are recognised in profit or loss.

3.5 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

3.6 Members' contribution

The members' contribution of the Fund are classified as liabilities under the requirements of MFRS 132 *Financial Instruments: Presentation* ("MFRS 132").

Under MFRS 132, a unit trust fund with one common class of members is classified as equity as it meets the requirement of having identical features. In a multi-unit class fund, if any one class (or a group of classes) can be differentiated in terms of their features, then all the classes will be classified as liability.

The Fund issues cancellable units in two classes for which further details are disclosed in Note 11.

3.7 Distribution

Distributions are at the discretion of the Provider. A distribution to the Fund's members is accounted for as a deduction from the retained earnings and realised income as finance cost - distribution to members and recognised in the statement of comprehensive income, as the members' contribution are classified as financial liability as per Note 3.6. Realised income is the income earned from dividend/distribution income, interest income, other income and net gain on disposal of investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the members on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.8 Capital repayments received

Capital repayments received are cash received by the Fund as a result of capital reduction, a corporate action executed by a REIT entities in which the Fund is holding units of shares as its investments. A capital reduction is made out of an entity's contributed share capital. The shareholders will receive a return of capital and the cost of the shareholder's investments are reduced accordingly by the amount of capital returned.

Capital repayments received is a financial asset and reduces the Fund's cost of investment on the REIT entity.

3.9 Financial assets – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial asset. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.10 Financial assets – classification and subsequent measurement

(i) Debt instruments

The classification and subsequent measurement of debt instruments held by the Fund are determined based on their business model and cash flow characteristics.

Business model

The business model reflects how the Fund manages the financial assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. the financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model. Factors considered by the Fund in determining the business model for a portfolio of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

Cash flow characteristics

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Fund assesses whether the financial assets' contractual cash flows represent solely payment of principal and interest ("SPPI"). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

(ii) Equity instruments and collective investment schemes ("CIS")

The Fund subsequently measures investments in equity investments and CIS at FVTPL. Dividends/distributions earned whilst holding the investments are recognised in profit or loss when the right to receive the payment has been established. Gains and losses on the investments in CIS, realised and unrealised, are included in profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.11 Financial assets under MFRS 9

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPI test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPI test determines whether the contractual cash flows are solely for payments of principal and interest and the assessment is performed on a financial instrument basis.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets include in this category are deposits with financial institutions, cash at banks, amount due from Target Fund Manager, amount due from Provider, amount due from brokers/financial institutions, dividend/distribution receivables and other receivables.

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial asset. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal.

These investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.11 Financial assets under MFRS 9 (cont'd.)

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories: (cont'd.)

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in “Net gain or loss on financial assets at FVTPL”. Dividend/distribution revenue and interest earned elements of such instruments are recorded separately in “Dividend/distribution income” and “Interest income” respectively. Exchange differences on financial assets at FVTPL are not recognised separately in profit or loss but are included in net gain or net loss on changes in fair value of financial assets at FVTPL.

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

3.12 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holder. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

3.13 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either:

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.13 Derecognition of financial instruments (cont'd)

(i) Derecognition of financial asset (cont'd)

- the Fund has transferred substantially all the risks and rewards of the asset,
or
- the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.14 Financial instruments – expected credit losses (“ECL”)

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.15 Determination of fair value

For the investments in local quoted securities, fair value is determined based on the closing price quoted on Bursa Malaysia Berhad. For investments in foreign listed securities, which are quoted in the respective stock exchanges, fair value will be determined based on the published market price quoted by the respective stock exchanges at the end of each business day. For investments in CIS, fair value is determined based on the closing NAV per unit of the CIS. Purchased cost is the quoted price that the Fund paid when buying its investments. For investments in local fixed income securities, nominal value is the face value of the securities and fair value is determined based on the indicative prices from Bond Pricing Agency Malaysia Sdn Bhd plus accrued interest, which includes the accretion of discount and amortisation of premium. Adjusted cost of investments relates to the purchased cost plus accrued interest, adjusted for amortisation of premium and accretion of discount, if any, calculated over the period from the date of acquisition to the date of maturity of the respective securities as approved by the Provider and the Trustee. The difference between purchased/adjusted cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

3.16 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.17 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Provider to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in the short-term for profit-taking or to meet members' cancellation of units.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.17 Significant accounting estimates and judgments (cont'd.)

No major judgments have been made by the Provider in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

19. FINANCIAL INSTRUMENTS (CONT'D.)

(b) Financial instruments that are carried at fair value

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable; either directly or indirectly; or
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2023				
Financial assets at FVTPL	<u>48,323,173</u>	<u>34,314,034</u>	<u>-</u>	<u>82,637,207</u>

Financial assets at FVTPL	<u>36,817,402</u>	<u>27,029,150</u>	<u>-</u>	<u>63,846,552</u>

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Dividend/Distribution receivables
- Amount due from/to Provider
- Capital repayment receivables
- Cash at banks
- Amount due to brokers
- Amount due to Trustee
- Amount due to PPA

There are no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximation of their respective fair value.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, country risk, management risk and non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investments coupled with stringent compliance to investments restrictions as stipulated by the Capital Market and Services Act 2007, Securities Commission Malaysia's Guidelines on Private Retirement Schemes and the Deed as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

(i) Price risk

Price risk refers to the uncertainty of an investment's future prices. In the event of adverse price movements, the Fund might endure potential loss on its quoted investments. In managing price risk, the Provider actively monitors the performance and risk profile of the investment portfolio.

The result below summarised the price risk sensitivity of the Fund's NAV due to movements of price by -5.00% and +5.00% respectively:

Percentage movements in price by:	Sensitivity of the Fund's NAV	
	2023 RM	2022 RM
-5.00%	(2,862,819)	(2,368,824)
+5.00%	<u>2,862,819</u>	<u>2,368,824</u>

(ii) Interest rate risk

Interest rate risk will affect the value of the Fund's investments, given the interest rate movements, which are influenced by regional and local economic developments as well as political developments.

Domestic interest rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

The result below summarized the interest rate sensitivity of the Fund's NAV, or theoretical value due to the parallel movement assumption of the yield curve by +100bps and -100bps respectively:

-100bps	1,278,553	594,996

(iii) Currency risk

Currency risk is associated with the Fund's assets and liabilities that are denominated in currencies other than the Fund's functional currency. Currency risk refers to the potential loss the Fund might face due to unfavorable fluctuations of currencies other than the Fund's functional currency against the Fund's functional currency.

The result below summarised the currency risk sensitivity of the Fund's NAV due to appreciation/depreciation of the Fund's functional currency against currencies other than the Fund's functional currency.

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. Credit risk applies to short-term deposits and dividend/distribution receivables. The issuer of such instruments may not be able to fulfill the required interest payments or repay the principal invested or amount owing. These risks may cause the Fund's investments to fluctuate in value.

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by members. Liquid assets comprise of deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

The following table presents the undiscounted contractual cash flows from different asset and liability classes in the Fund:

20. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(d) Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Country risk

The risk of price fluctuation in foreign securities may arise due to political, financial and economic events in foreign countries. If this occurs, there is possibility that the NAV of the Fund may be adversely affected.

(g) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(h) Non-compliance risk

This is the risk of the Provider or the Trustee not complying with their respective internal policies, the Deed and its Supplemental Deed, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

21. CAPITAL MANAGEMENT

The primary objective of the Fund's capital management is to ensure that it maximises members' value by expanding its fund size to benefit from economies of scale and achieving growth in NAV from the performance of its investments.

The Fund manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may issue new or bonus units, make distribution payment, or return capital to members by way of redemption of units.

No changes were made in the objective, policies or processes during the financial years ended 31 August 2023 and 31 August 2022.
