MEMBERS' LETTER

Dear Valued Members,

Greetings from Principal Asset Management Berhad ("Principal Malaysia") and thank you for investing with us!

We are pleased to bring you a copy of the Annual Fund Report of the Principal Islamic PRS Plus Moderate for the financial year ended 31 August 2023. You may also download this report from our website at www.principal.com.my.

We are happy to share that Principal Malaysia won two awards at the International Finance's 2023 Financial Awards and Leadership Awards. The awards were for Best Asset Management Company (Malaysia) and Best Asset Management CEO (Malaysia) – Ms. Munirah Khairuddin.

Digital innovation is central to our strategy, as we use data and technology to develop the right solutions for you. We will continue to advance our digital capabilities to provide easy access to your investment portfolio and enable you to carry out transactions seamlessly.

Please continue to check out our website (www.principal.com.my), like our Facebook page (@PrincipalAssetMY), follow us on our Instagram account (@principalassetmanagement_my), and LinkedIn page (Principal Asset Management Berhad) for the latest updates, market insights and investment articles.

We appreciate your continuous support and the trust you place in us.

Yours faithfully,
for **Principal Asset Management Berhad**

Munirah Khairuddin
Country Head and Chief Executive Officer, Malaysia
Non-Independent Executive Director

PRS PROVIDER'S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The Fund seeks to provide a moderate level of capital growth over the long-term by investing in a diversified portfolio of shariah-compliant equity and Sukuk.

Has the Fund achieved its objective?

The Fund performed in line with its objective during the financial year under review.

What are the Fund investment policy and principal investment strategy?

The Fund will invest in a mix of Shariah-compliant equities and Sukuk to provide a moderate level of capital growth. The fixed income portion will provide capital stability to the Fund whilst the equity portion will provide the added return in a rising market. The Fund may opt to invest in Sukuk and Shariah-compliant equities either directly or via Islamic collective investment scheme.

The investments by the Fund in Shariah-compliant equities which include foreign exposure shall not exceed 60% of the Fund's NAV and investments in local and/or foreign Sukuk shall not be less than 40% of its NAV with a minimum credit rating of "BBB3" or "P2" by RAM Rating Services Berhad ("RAM") or equivalent rating by Malaysian Rating Corporation Berhad ("MARC") or "BBB" or "A-2" by Standard & Poor's ("S&P") or equivalent rating by any other international rating agencies. Notwithstanding, the Fund may also invest up to 5% of its NAV in unrated Sukuk.

The asset allocation strategy for this Fund is as follows:

- At least 40% of the Fund's NAV will be invested in Sukuk, of which up to 5% of the Fund's NAV may be invested in unrated Sukuk;
- Up to 60% of the Fund's NAV may be invested in Shariah-compliant equities; and
- Up to 5% of the Fund's NAV may be invested in Islamic liquid assets for liquidity purpose.

Fund category

Balanced (Shariah-compliant)

When was the Fund launched?

12 November 2012

What was the size of the Fund as at 31 August 2023?

RM16.31 million (25.22 million units)

What is the Fund's benchmark?

60% FTSE Bursa Malaysia ("FBM") EMAS Shariah ("FBMS") Index + 40% Quant shop Government Investment Issues ("GII") Short Index.

Note: The Fund's benchmark is for performance comparison purpose only. The risk profile of the Fund is not the same as the risk profile of the benchmark.

What is the Fund distribution policy?

The Fund is not expected to pay any distribution. All income earned by members will automatically be reinvested into the Fund.

What was the net income distribution for the financial year ended 31 August 2023?

There was no distribution made for the financial year ended 31 August 2023.

PERFORMANCE DATA

Details of portfolio composition of the Fund for the last three financial years were as follows:

	31.08.2023	31.08.2022	31.08.2021
	%	%	%
Shariah-compliant quoted securities			
- Communication Services	1.16	4.95	3.70

- Class X	3.68	(8.88)	1.61	12.56	2.15

(Launch date: 12 November 2012)

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up. All performance figures for the financial year have been extracted from Lipper.

MARKET REVIEW (1 SEPTEMBER 2022 TO 31 AUGUST 2023)

Local Equity

The FBMS Index rose 107.18 points or 0.99% during the financial year under review to close at 10,920.64 points.

The FBMS Index declined 805.43 points or 7.45% to 10,008.03 points in September 2022 as the market reeled from renewed fears of a global recession stoked by the ever-so-hawkish Fed which remained adamant about sustaining hikes to cool the economy further. A stronger US Dollar (“USD”) also triggered flows out of emerging markets and commodities.

In October 2022, The FBMS Index gained 403.08 points or 4.03% to 10,411.11 points from the previous month sell-off in tandem with the rebound in global and regional markets.

MARKET REVIEW (1 SEPTEMBER 2022 TO 31 AUGUST 2023)**Local Equity (continued)**

In November 2022, The FBMS Index escalated further 371.98 points or 3.57% to end at 10,783.09 points. Investors cheered as the political deadlock from 15th General Election (which resulted in a hung parliament) was broken with the appointment of Datuk Seri Anwar Ibrahim as Malaysia's 10th Prime Minister who will lead a 'unity Government'. Global sentiment also improved on raised bets that the US Federal Reserve (the "Fed") may start slowing the pace of rate hikes in the upcoming Federal Open Market Committee ("FOMC") meeting in December 2022 following the softer October 2022 inflation print.

The FBMS Index rose 155.46 points or 1.44% in December 2022 and ended 2022 at 10,938.55 points which represented a decline of 10.80% for the year overall. Investors were more vigilant on renewed fears of a US recession with concerns of inflation staying higher for longer and as the pace of the Fed rate hikes starts taking a toll on the economy. Recent Institute for Supply Management ("ISM") data showed an unexpected rise in the services industry in November 2022 while employment and wage growth remain robust, albeit US home prices fell for the fourth month running.

The FBMS Index rallied on during the month of January 2023 gaining 137.65 points or 1.26% to end the month at 11,076.20 points despite Malaysia's Purchasing Managers Index ("PMI") declined further from 46.5 points from 47.8 points in December 2022, representing the sixth consecutive month of contraction which contrasted the rest of ASEAN. Bank Negara also surprised with a rate hike pause, holding Opening Price Rate ("OPR") at 2.75%.

In February 2023, The FBMS Index eased 278.53 points or 2.51%. Investors remained cautious leading up to Budget 2023 while renewed concerns over the Fed staying hawkish given persistent inflation coupled with encouraging consumption and employment data in the US recently further weighed on sentiment. The rebound in the US Dollar ("USD") also took flows out of Emerging Markets ("EM").

The FBMS Index continued to slip in March 2023, falling 81.24 points or 0.75%. Weakness was in line with the sell-off in regional markets as investors aggressively risked off following the collapse of several high-profile banks in the US and Europe, potentially triggering a global liquidity squeeze, and mounting worries that US Fed's aggressive tightening may have finally taken a toll on the US economy. The market, however, rebounded towards the later part of the month following the Fed's decision to go ahead with a 25 bps hike, downplaying fears of a banking contagion and shifting attention back to inflation which has started to ease, albeit very gradually.

The FBMS Index recovered 20.36 points or 0.19% in April 2023. Commodities, Telcos and Consumer Discretionary did well during the month. Economic data out of the US were mixed with a lower first quarter of 2023 US Gross Domestic Products ("GDP") print of a mere 1%, down from 2.6% in fourth quarter of 2022. On the other hand, US consumer spending remains strong, up 3.7% over the same period (versus 1% in fourth quarter of 2022) on the back of low unemployment and solid wage gains. US CPI cooled to 5% in March, a lower end of forecast, but core Personal Consumption Expenditure ("PCE") picked up from 3.5% in February 2023 to 3.6% in March 2023 no thanks to higher rents.

The FBMS Index dropped by 130.28 points or 1.21% in May 2023. The sell-off was relatively broad-based, with select stocks within defensive sectors showing green, and we believe it was largely triggered by the recent weakness of the Ringgit on the back of poor Chinese data and consequently the depreciation of the Yuan. Further aggravating the situation was the stronger Dollar. Encouraging payroll and wage, sticky inflation and recent rebound in job openings stoke bets on further rates hikes in the next FOMC meeting.

The market continued to be in jittery and the FBMS Index fell 191.64 points or 1.81% in June 2023. Investors remain wary of the sustained weakness of the Ringgit, a rather uninspiring first quarter of 2023 corporate results (although they were broadly in line), and domestic political uncertainties caused by the upcoming State elections. Expectations of a US recession have now been pushed back to 2024 given the still buoyant data points coming out of the US.

MARKET REVIEW (1 SEPTEMBER 2022 TO 31 AUGUST 2023) (CONTINUED)**Local Equity (continued)**

The FBMS Index rebounded 537.85 points or 5.16% in July 2023, fully reversing the loss sustained in 1H23. Sentiment was sharply lifted by the slump in the US dollar, benefiting the Ringgit Malaysia (“MYR” or “RM”), and waning expectations of a US recession following recent favorable economic data points – cooling inflation and still resilient jobs market. Gainers were broad-based led by Property, Industrial, and Oil and Gas, with large-caps forging ahead.

The FBMS Index dipped slightly by 32.08 points or 0.29% in August 2023 dragged by the Healthcare (Gloves) and Plantation sectors. Overall sentiment was dampened by rebound in the US dollar and rising US treasury yields on expectations of further interest rate hikes in the US as economic data points remain strong.

Foreign Equity

During the financial year under review, Asian equities as measured by the MSCI Asia ex Japan Islamic Index was flat in USD terms. Topical issues were: a) Tightening monetary policy environment led by the Federal reserve (the “Fed”) and b) Loosening Coronavirus Disease 2019 (“COVID-19”) restrictions in China.

At the start of the period, we saw signs that the largest contributors such as shelter (rent), transportation and food were peaking. The big unknown was the possible second order effects of wage-price spiral, i.e., demand driven inflation from wage growth.

Towards end-2022, North Asian markets rallied on the back of easing of zero covid policy from China, announcement of measures to support the property market and the meeting between President Xi and President Biden in Bali eased concerns about US-China tension. The move by China to implement more pragmatic policies paved the way for Chinese economy to recover from the economic impact of the lockdowns and weakness in property market.

Towards the end of February 2023, US economic data is more mixed versus being on the weaker side in January. Inflation is expected to reach ~3.5% in June 2023 from the peak of 9% in June 2022. There is more uncertainty on the pace of rate hikes.

In March 2023, the interest rate trajectory was made more complicated with early signs of stress in the banking system, i.e., the regional banks. The US Fed had reacted quickly with its the Bank Term Funding Program to alleviate any potential liquidity concerns. The futures market was implying a modest 25 basis points (“bps”) rate hike in the Fed’s upcoming May 2023 meeting and thereafter between 1 to 2 rate cuts by year end.

In April 2023, jobs growth and the unemployment rate in the US was stronger than expected, which shows the resilience of the economy. It suggests the Fed has little reason to cut in the near term (3 months). While inflation has moderated, and we expect this to continue, core personal consumption expenditures Index in March 2023 at +4.6% yoy (+4.7% yoy in Feb) was still high.

China’s economic recovery was on track with first quarter of 2023 GDP growth at 2% quarter-on-quarter (“q-o-q”) seasonally adjusted.

The Government is in a pro-growth mode for policies and regulation even though significant stimulus was unlikely. Economic resilience was in domestic driven sectors and services, rather than exports and manufacturing. Exports were likely to soften in the second-half due to headwinds from the global economy and geopolitical tensions.

MARKET REVIEW (1 SEPTEMBER 2022 TO 31 AUGUST 2023) (CONTINUED)**Foreign Equity (continued)**

Towards the end of the period, we are seeing an uneven recovery in China's economy. A sustained recovery will need to be supported by an improvement in labor conditions as well as the housing market. Amidst increasing expectations, the government has announced several measures to support the economy, but we are still waiting for a clear signal on a firm turnaround in consumer/business confidence.

Unquoted Sukuk

During the months of September 2022 to December 2022, the Monetary Policy Committee ("MPC") increased the Overnight Policy Rate ("OPR") by a total of 50 bps as it increased 25 bps each at the two meetings held in September 2022 and November 2022. At the end of 2022, the OPR ended at 2.75%. In the first three months of 2023, the MPC maintained the Overnight Policy Rate ("OPR") at 2.75% throughout the two meetings held in January and March 2023. This was after a total of 100 basis points was increased in 2022. The committee then unexpectedly raised its OPR to 3.00% in its May meeting. The move was to pre-emptively ward off inflationary pressures amid strong domestic demand and potential subsidy cuts. Meanwhile, up to the end of the financial period under review, the MPC maintained OPR at 3.00% at its meeting held in early September 2023.

In September 2022, the Consumer Price Index ("CPI") inched slightly lower as it recorded 4.5% YoY increase and continued to decelerate in October and November as it recorded 4.0% YoY increase for both months. In December 2022, it eased to 3.8% YoY with a slower increase in the Food & Non-Alcoholic Beverages group. Inflation for overall year 2022 increased 3.3% as compared to 2.5% recorded in 2021. The CPI continued to decelerate to 3.7% in January 2023 after being in a deceleration pace from the last few months of 2022. It continued to remain at 3.7% in the month of February 2023. In the month of March 2023, it eased further to 3.4% and 3.3% in the month of April 2023. Continuing its easing pace, inflation in the month of May 2023 was at 2.8% whilst June 2023 recorded a slower pace of 2.4%. In July 2023, it slowed down further to 2% YoY, amid a slower increase in the costs of restaurants, hotels and food & non-alcoholic beverages.

The Malaysian Government Securities ("MGS") market was volatile over the course of the financial period under review. In third quarter of 2022, almost all indices recorded positive returns with corporates outperforming local govvnies as Bond Pricing Agency Malaysia ("BPAM") Corporates 3 years to 7 years Index recorded best returns for the quarter whilst MGS Long Index returned -0.50% for the same period. In October 2022, market started recording positive returns reversing their dismal performance in the months prior. The MGS yield curve bull flattened in November with the yields seen falling across the curve by 6 bps to 70 bps. Sentiment turned positive due to the mix of the FOMC minutes which hinted smaller rate hikes as well as better political clarity with the formation of unity government led by Pakatan Harapan and the announcement of Anwar Ibrahim as the Prime Minister. The bond rally continued until the end of December 2022, albeit at a milder pace and with some volatility during the month.

Meanwhile, the first quarter of 2023 bode well for the fixed income market despite continued volatility seen. For first quarter of 2023, the Quantshop GII Long Index was the best performer year-to-date ("YTD") with a return of +3.35% and the BPAM Corporates All Bond (1 year to 3 years) Index recorded the lowest return of +1.41% during the financial year. In second quarter of 2023, the best performing Index was the BPAM Corporates (7 year over) Index which was also the best performing Index on a year-to-date basis returning 6.16%. Meanwhile the worst performing Index at the end of June 2023 was the Quantshop MGS Short Index with returns of 2.04% for the year.

At the end of August 2023, BPAM Corporates (7y over) Index continued to be the best performer for the year registering a return of 7.64% whilst the Quantshop MGS Short Index continued to be the worst performing Index with returns of only 2.63%. The MGS yield curve steepened in August with the longer-end tenors adjusting higher tracking the movements in US Treasuries. The 3-year, 5-year, 7-year, 10-year, 15-year, 20-year and 30-year benchmarks closed at 3.48%, 3.63%, 3.77%, 3.85%, 4.06%, 4.17% and 4.29% respectively in August 2023.

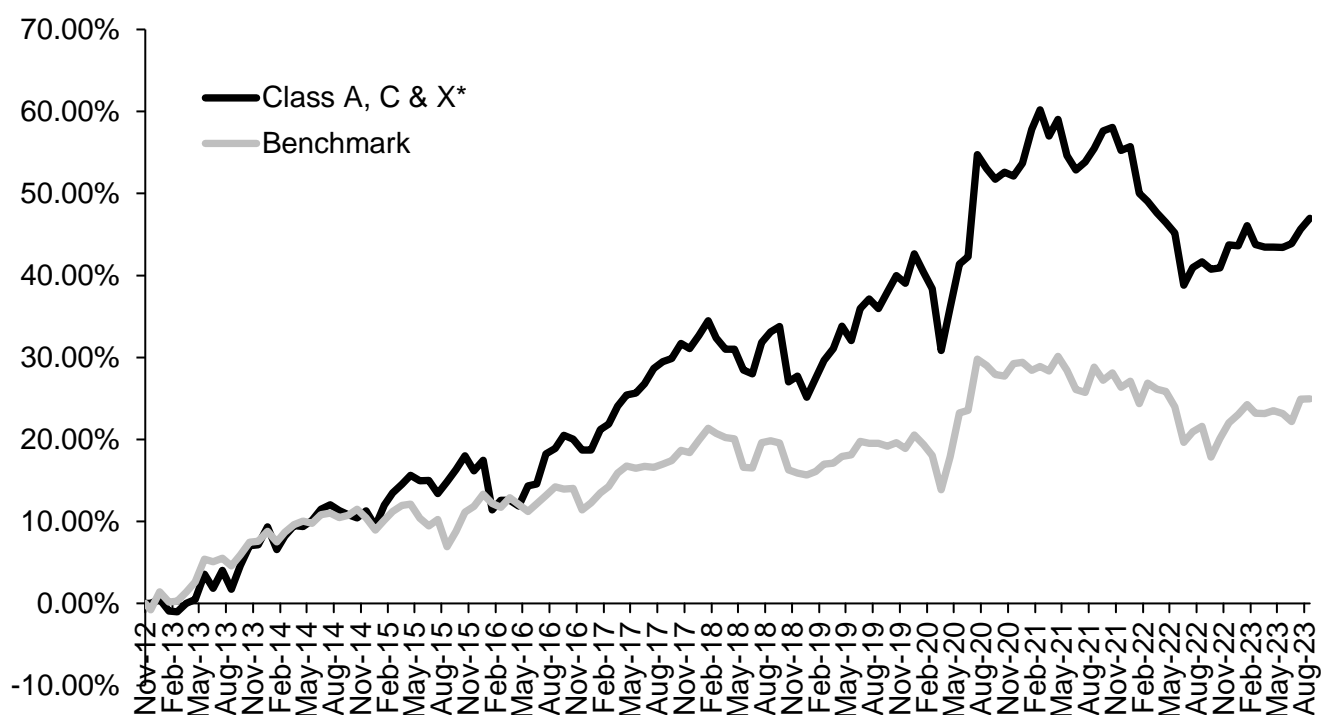

FUND PERFORMANCE

	1 year to 31.08.2023 %	3 years to 31.08.2023 %	5 years to 31.08.2023 %	Since inception to 31.08.2023 %

- Class X	3.68	(1.34)	2.00	3.63

For the 1-year period ended 31 August 2023, Class A, Class C and Class X gained 3.67%, 3.60% and 3.68% respectively outperforming the benchmark which gained 2.78% over the same reporting period.

The slight variation in the performance between Class A, Class C and Class X, if any, was due to different timing of units created for each of the class.

Since Inception

* Performance of Class A, Class C and Class X are almost the same. Slight variant was due to different timing of units created for each of the class.

FUND PERFORMANCE (CONTINUED)

Changes in NAV

	31.08.2023	31.08.2022	Changes %
CLASS A			
NAV (RM Million)	10.05	21.58	(53.43)
NAV/Unit (RM)	0.6460	0.6233	3.64
CLASS C			
NAV (RM Million)	1.59	2.58	(38.37)
NAV/Unit (RM)	0.6415	0.6195	3.55
CLASS X			
NAV (RM Million)	4.67	34.32	(86.39)
NAV/Unit (RM)	0.6495	0.6266	3.65

The NAV has declined for all classes due to the migration of funds in September 2022. However, better performance is seen in NAV per unit as it has improved by around 3.6% year-on-year.

Performance data represents the combined income and capital return as a result of holding units in the Fund for the specified length of time, based on NAV to NAV price. The performance data assumes that all earnings from the Fund are reinvested and are net of management and trustee fees. Past performance is not reflective of future performance and income distributions are not guaranteed. Unit prices and income distributions, if any, may fall and rise. All performance figures for the financial year have been extracted from Lipper.

PORTFOLIO STRUCTURE

Asset allocation

(% of NAV)	31.08.2023	31.08.2022
Shariah-compliant quoted securities	55.86	50.06
Unquoted Sukuk	40.61	34.29
Cash and other assets	3.78	15.86
Liabilities	(0.25)	(0.21)
Total	100.00	100.00

Asset allocation in Shariah-compliant quoted securities increased from 50.06% as at 31 August 2022 to 55.86% at the end of this financial year. Meanwhile, asset allocation in unquoted sukuk increased from 34.29% to 40.61% as of 31 August 2023. The higher cash holdings reflected on 31 August 2022 compared to 31 August 2023 is mainly due to the cash-raising activities due to fund migration purposes.

MARKET OUTLOOK*

Local Equity

Malaysia's economy expanded 2.9% yoy in second quarter of 2023, below the 3.6% yoy expected by economists. In addition to the high second quarter of 2022 base, there were temporary commodity-related factors that weighed on growth such as lower production of oil and related products, and lower crude palm oil ("CPO") output – these collectively shaved off 40 bps of growth. Bank Negara Malaysia ("BNM") anticipates a subdued third quarter of 2023 given the weak external demand but momentum should improve from fourth quarter of 2023 and into 2024 on the back of a recovery in Electrical and electronics ("E&E") exports and tourism-led consumption.

BNM may keep Overnight Policy Rate ("OPR") unchanged at 3.00% at the upcoming MPC meeting despite mounting pressures to intervene given the Ringgit weakness. Inflation eased further with July's 2023 CPI reading at 2.0% vs 2.4% in June 2023, significantly undershooting BNM's target of 2.8% to 3.8% for 2023.

MARKET OUTLOOK* (CONTINUED)**Local Equity (continued)**

Malaysia's equity market valuation remains extremely compressed with forward Price earning ("PE") of 13.5 times which is still over 1.5 below the historical mean. This is based on consensus earnings growth of 6% for 2023 and 11% for 2024. The Budget 2024 projected the budget deficit to reach 3% of GDP in 2026 from 4.3% in 2024. The improved fiscal discipline would reduce the current extreme risk premiums applied to the market (yield gap of ~360 bps). We believe the newly launched National Energy Transition Roadmap ("NETR") and Industrial Master Plan 2030 would revitalize domestic investment and buoy consumption.

Foreign Equity

The US economy has been stronger than expected with strong consumption growth, firm wage growth and tight labor markets. Rate cuts may only come in second half of 2024. We think the Fed will want to see more evidence of inflation moderating. Any weakness in labor markets (which we have yet to see) would probably reverse the current uptrend in US Treasury ("UST") yields.

"In China, a series of growth stabilization policies were announced since mid-August that covered fiscal, monetary, housing, capital market and exchange rate. Economic data showed some improvement with a bounce in industrial production and retail sales, coupled with an uptick in PMI for services and manufacturing. Looking ahead, important actions will be an urban renewal program (called "Urban Village Renovation") and additional local debt resolutions (e.g., local debt swap). We are watching for investment plans by large listed companies as an indicator of improved confidence. A recapitalization of selective SOE-banks would also help raise the capacity to boost credit growth. Finally, it is important that China maintains the momentum of policy easing actions.

A strong USD and weak China growth are headwinds which we hope will recede as we move into 2024.

Unquoted Sukuk

The Prime Minister and Finance Minister, YAB Dato' Seri Anwar bin Ibrahim recently tabled Malaysia's largest ever budget of RM394 billion for 2024 on 13 October 2023, which was 2% higher than the previous year's RM386 billion. Budget 2024 demonstrates policy continuity and much needed fiscal reforms. The government maintains its gradual fiscal consolidation path, with the fiscal deficit improving from a projected 5% in 2023 to 4.3% in 2024. It sets out a series of targets to be met within 3 to 5 years which include achieving a fiscal deficit of 3% of GDP by 2026 and capping Federal debt and Government guarantees at 60% and 25% of GDP respectively.

BNM projects Malaysia's GDP growth to range between 4% to 5% for 2024 versus 4% for 2023, driven by sustained domestic demand and a recovery in exports. The central bank projects inflation to range between 2.1% to 3.6% (against 2.5% to 3.0% for 2023), and for the unemployment rate to improve further to 3.4%.

After registering seven consecutive months of foreign inflows in 2023, foreign investors reduced holdings in August 2023, totaling -RM5.0 billion (July: +RM11.3 billion). The outflows were concentrated on MGS (-RM5.2 billion) and MGII (-RM0.7 billion) YTD August 2023 inflows remain sizeable with cumulative inflows for all Ringgit debts totaling +RM27.4 billion and total foreign holdings fell to RM274.2 billion at end August 2023 (end July 2023: 279.2 billion).

We believe the government bond yield curve will see some steepening following government plans to refinance some of the outstanding short-term bills with MGS and Malaysian Government Investment Issues ("MGII"). The move will see total gross issuances of MGS and MGII for 2023 increasing to RM186 billion from a prior forecast gross issuance of RM175 billion. Nevertheless, we do expect the domestic fixed income market to be able to absorb the additional supply in view of the ample liquidity locally.

MARKET OUTLOOK* (CONTINUED)

Unquoted Sukuk (continued)

Overall, we remain positive for the domestic bond market as we believe BNM will keep its OPR unchanged for now unless growth and inflationary outlook continue to surprise market on the upside. We believe the local bond market will remain well supported for now with volatility mainly coming from global yield movements.

* This market outlook does not constitute an offer, invitation, commitment, advice or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

Local Equity

Market sentiment continued to improve on the back of the reversal of foreign outflows and buying from local institutions. We remain constructive on sectors that stand to gain from the National Energy Transition Roadmap ("NETR"), including Utilities, Construction, and Property. Additionally, we are optimistic on selective Technology due to the ongoing structural growth trends in the sector. Key risks are the derailment of Malaysia's macroeconomic recovery and corporate earnings growth due to the larger-than-expected impact of rising inflation, slower global economic growth, and heightened geopolitical risks.

Foreign Equity

We remain fully invested and well positioned in the areas of a) bottoming of the tech hardware cycle b) long term headroom from low penetration rates c) China's reopening, although we are judicious in which areas.

Unquoted Sukuk

We continue to prefer corporate bonds driven by the compelling potential for a more favorable total return. We maintain our defensive stance in our credit selections on the back of potential implications for economic growth and credit conditions.

SOFT COMMISSIONS AND REBATES

Principal Asset Management Berhad (the "PRS Provider"), the Sub-Manager and the Trustee will not retain any form of rebate from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the account of the Principal Malaysia Funds ("Funds"). The PRS Provider may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Funds; and
- (c) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

SOFT COMMISSIONS AND REBATES (CONTIUED)

During the financial year under review, the PRS Provider, the Sub-Manager and Trustee did not receive any rebates from the brokers or dealers, but the PRS Provider has retained soft commission in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Funds. The PRS Provider confirms that the goods and services received were for the benefit of the Fund, the trades were made on a best execution basis and there was no churning of trades.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

STATE OF AFFAIR OF THE FUND

In relation to this Fund, the Fund had issued the First Supplemental Disclosure Document dated 30 August 2023. We are of view that the changes above do not affect the existing members to stay invested in the Fund and it is not a significant change. Members may refer to Appendix 1 for the detailed list of changes.

There were no significant changes in the state of affairs of the Fund during the financial year and up to the date of PRS Provider's report, not otherwise disclosed in the financial statements.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF MEMBERS

There were no circumstances that had materially affected the interest of the members during the financial year under review.

CROSS TRADE

No cross-trade transactions have been carried out during the financial year under review.

UNIT SPLIT

No unit split exercise has been carried out during the financial year under review.

**STATEMENT BY THE PRS PROVIDER TO THE MEMBERS OF
PRINCIPAL ISLAMIC PRS PLUS MODERATE**

We, being the Directors of Principal Asset Management Berhad (the “PRS Provider”), do hereby state that, in the opinion of the PRS Provider, the accompanying audited financial statements set out on pages 8 to 46 are drawn up in accordance with the provisions of the Deeds and give a true and fair view of the statement of financial position of the Fund as at 31 August 2023 and of its financial performance, changes in net assets attributable to members and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL ISLAMIC PRS PLUS MODERATE**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Principal Islamic PRS Plus Moderate (the "Fund"), which comprise the statement of financial position as at 31 August 2023, and statement of comprehensive income, statement of changes in net assets attributable to members and statement of cash flows of the Fund for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 8 to 46.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 August 2023, and of its financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL ISLAMIC PRS PLUS MODERATE (CONTINUED)**

Report on the audit of the financial statements (cont'd.)

Information other than the financial statements and auditors' report thereon

The PRS Provider of the Fund (the "PRS Provider") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the PRS Provider for the financial statements

The PRS Provider is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The PRS Provider is also responsible for such internal control as the PRS Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the PRS Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the PRS Provider either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the PRS Provider maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL ISLAMIC PRS PLUS MODERATE (CONTINUED)**

Report on the audit of the financial statements (cont'd.)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the PRS Provider.
- Conclude on the appropriateness of the PRS Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the PRS Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL ISLAMIC PRS PLUS MODERATE (CONTINUED)**

Report on the audit of the financial statements (cont'd.)

Other matters

This report is made solely to the members of the Fund, as a body, in accordance with the Guidelines on Private Retirement Schemes ("PRS") issued by the Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023**

1. THE FUND, THE PRS PROVIDER AND ITS PRINCIPAL ACTIVITIES

Principal Islamic PRS Plus Moderate (the “Fund”) is governed by a Deed dated 8 November 2012, a First Supplemental Deed dated 2 January 2014, a Second Supplemental Deed dated 25 November 2014 and Third Supplemental Deed dated 3 February 2020, a Fourth Supplemental Deed dated 17 December 2021, a Fifth Supplemental Deed dated 12 July 2022 and a Sixth Supplemental Deed dated 14 June 2023 (collectively referred to as the “Deeds”), made between Principal Asset Management Berhad (the “PRS Provider”) and Deutsche Trustees Malaysia Berhad (the “Trustee”).

The Fund offers three classes of units known respectively as Class A, Class C and Class X. In accordance with the Disclosure Document, subject to the PRS Provider’s absolute discretion, Class A and Class C are for an individual who has attained the age 18 years as of the date of opening a private pension account while Class X is for a Member who participates via his/her employer. Class A and Class C have different Sales Charge and Management Fee while Class X has no Sales Charge.

The Fund will invest in a mix of Shariah-compliant equities and Sukuk to provide a moderate level of capital growth. The fixed income portion will provide capital stability to the Fund whilst the equity portion will provide the added return in a rising market. The Fund may opt to invest in Sukuk and Shariah-compliant equities either directly or via Islamic collective investment scheme.

The investments by the Fund in Shariah-compliant equities which include foreign exposure shall not exceed 60% of the Fund’s NAV and investments in local and/or foreign Sukuk shall not be less than 40% of its NAV with a minimum credit rating of “BBB3” or “P2” by RAM or equivalent rating by MARC or “BBB” or “A-2” by S&P or equivalent rating by any other international rating agencies. Notwithstanding, the Fund may also invest up to 5% of its NAV in unrated Sukuk.

The asset allocation strategy for this Fund is as follows:

- At least 40% of the Fund’s NAV will be invested in Sukuk, of which up to 5% of the Fund’s NAV may be invested in unrated Sukuk;
- Up to 60% of the Fund’s NAV may be invested in Shariah-compliant equities; and
- Up to 5% of the Fund’s NAV may be invested in Islamic liquid assets for liquidity purpose.

Principal Singapore was appointed to provide investment advice for the Fund. Principal Singapore will provide investment research and recommendation in accordance with the investment objective and within the investment restrictions of the Fund.

All investments are subjected to the Securities Commission Malaysia (“SC”) Guidelines on PRS, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The Fund had issued the First Supplemental Disclosure Document dated 30 August 2023.

The PRS Provider, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the PRS Provider are the establishment and management of unit trust funds and fund management activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

It also requires the PRS Provider to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the PRS Provider’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(l).

There are no other standards, amendments to standards or interpretations that are effective for financial year beginning on 1 September 2022 that have a material effect on the financial statements of the Fund.

There are no applicable standards, amendments to standards or interpretations that are effective for financial year beginning on/after 1 September 2023 to the financial statements of the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income (“OCI”).

The contractual cash flows of the Fund’s debt securities are solely principal and interest¹ (“SPPI”). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale.

¹ For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Classification (continued)

The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from dealer, amount due from the PRS Provider – creation of units and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Shariah-compliant quoted securities in Malaysia are valued at the last traded market price quoted on Bursa Malaysia Securities Bhd ("Bursa Securities") at the date of the statement of financial position.

Foreign Shariah-compliant quoted securities are valued at the last traded market price quoted on the respective foreign stock exchanges at the close of the business day of the respective foreign stock exchanges.

If a valuation based on the market price does not represent the fair value of the Shariah-compliant quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the Shariah-compliant quoted securities for a year exceeding 14 days, or such shorter year as agreed by the Trustee, then the Shariah-compliant quoted securities are valued as determined in good faith by the PRS Provider, based on the methods or bases approved by the Trustee after appropriate technical consultation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Recognition and measurement (continued)

Unquoted Sukuk denominated in Malaysian Ringgit ("MYR or RM") are revalued on a daily basis based on fair value prices quoted by a Bond Pricing Agency ("BPA") registered with the SC as per the SC Guidelines on PRS. Refer to Note 2(l) for further explanation.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at cost plus accrued profit calculated on the effective profit method over the year from the date of placement to the date of maturity of the respective Shariah-compliant deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The PRS Provider consider both historical analysis and forward looking information in determining any ECL. The PRS Provider consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the PRS Provider as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions and unquoted Sukuk are recognised on a time proportionate basis using the effective profit method on an accrual basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Income recognition (continued)

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of Shariah-compliant quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant quoted securities, determined on a weighted average cost basis.

Realised gain or loss on disposal of unquoted Sukuk is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted Sukuk, determined on cost adjusted for accretion of discount or amortisation of premium.

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM" or "MYR"), which is the Fund's functional and presentation currency.

Due to mixed factors in determining the functional currency of the Fund, the PRS Provider has used its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in MYR primarily due to the following factors:

- i) Significant portion of the Fund's expenses are denominated in MYR;
- ii) More of the Fund's Shariah-compliant investments are denominated in MYR than other currencies; and
- iii) Units of the Fund are denominated in MYR.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income.

(e) Members' contributions

The members' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in three classes of units, known respectively as the Class A, Class C and Class X, which are cancelled at the member's option and do not have identical features subject to restrictions as stipulated in the Disclosure Document and SC Guidelines on PRS. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the member exercises the right to put back the unit to the Fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(e) Members' contributions (continued)**

Units are created and cancelled at the member's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

(f) Distribution

Distributions to members are recognised in the statement of comprehensive income as finance costs, as the members' contributions are classified as financial liability as per Note 2(e). Distribution is reinvested into the PRS on the ex-date. Reinvestment of units is based on the NAV per unit on the ex-date, which is also the time of creation. Proposed distributions are recognised as a liability in the financial year in which it is approved by the Trustee.

(g) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances and Shariah-compliant deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

(h) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

Withholding taxes on investment income from foreign Shariah-compliant investments is based on tax regime of the respective countries that the Fund invests in. They are presented within other expenses line in the statement of comprehensive income.

(i) Transaction costs

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(j) Realised and unrealised portions of profit or loss after taxation

The analysis of realised and unrealised portions of profit or loss after taxation as presented on the statement of comprehensive income is prepared in accordance with SC Guidelines on PRS.

(k) Amount due from/to stockbrokers/dealers

Amounts due from and amount due to stockbrokers/dealers represent receivables for Shariah-compliant quoted securities and unquoted Sukuk sold and payables for Shariah-compliant quoted securities and unquoted Sukuk purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(I) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the PRS Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of unquoted Sukuk

In undertaking any of the Fund's Shariah-compliant investments, the PRS Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on PRS.

Ringgit-denominated unquoted Sukuk are valued using fair value prices quoted by a BPA. Where the PRS Provider is of the view that the price quoted by BPA for a specific unquoted Sukuk differs from the market price by more than 20 bps, the PRS Provider may use market price, provided that the PRS Provider records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund were as follows:

	Financial assets at fair value through profit or loss RM	Financial assets at amortised cost RM	Total RM
2023			
Cash and cash equivalents (Note 9)	-	578,259	578,259
Shariah-compliant quoted securities (Note 8)	9,110,262	-	9,110,262
Unquoted Sukuk (Note 8)	6,622,347	-	6,622,347
Amount due from the PRS Provider			
- Creation of units	-	31,267	31,267
Dividends receivable	-	6,833	6,833
	<u>15,732,609</u>	<u>616,359</u>	<u>16,348,968</u>
2022			
Cash and cash equivalents (Note 9)	-	8,280,658	8,280,658
Shariah-compliant quoted securities (Note 8)	29,275,642	-	29,275,642
Unquoted Sukuk (Note 8)	20,051,855	-	20,051,855
Amount due from dealer	-	643,918	643,918
Amount due from the PRS Provider			
- Creation of units	-	323,836	323,836
Dividends receivable	-	25,718	25,718
	<u>49,327,497</u>	<u>9,274,130</u>	<u>58,601,627</u>

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

All liabilities are financial liabilities which are carried at amortised cost except for net assets attributable to members which are carried at fair value through profit or loss.

The Fund seeks to provide a moderate level of capital growth over the long-term by investing in a diversified portfolio of equity and Sukuk.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the PRS Provider and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on PRS.

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in Shariah-compliant quoted securities and unquoted Sukuk will fluctuate because of changes in market prices. The value of investments in Shariah-compliant quoted securities and unquoted Sukuk may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of Shariah-compliant quoted securities, unquoted Sukuk and other financial instruments within specified limits according to the Deeds.

The Fund's overall exposure to price risk was as follows:

	2023	2022
	RM	RM
Financial assets at fair value through profit or loss:		
- Shariah-compliant quoted securities	9,110,262	29,275,642
- Unquoted Sukuk*	<u>6,622,347</u>	<u>20,051,855</u>
	<u>15,732,609</u>	<u>49,327,497</u>

*Includes profit receivable of RM30,262 (2022: RM285,698).

The table below summarises the sensitivity of the Fund's profit or loss and NAV to movements in prices of Shariah-compliant quoted securities. The analysis was based on the assumptions that the price of the Shariah-compliant quoted securities fluctuates by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the Shariah-compliant quoted securities, having regard to the historical volatility of the prices.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(i) Price risk (continued)

% Change in price of Shariah-compliant quoted securities	Market value RM	Impact on profit or loss/NAV RM
2023		
-5%	8,654,749	(455,513)
0%	9,110,262	-
5%	9,565,775	455,513
2022		
-5%	27,811,860	(1,463,782)
0%	29,275,642	-
5%	30,739,424	1,463,782

The Fund is exposed to price risk arising from profit rate fluctuation in relation to its investments of RM6,622,347 (2022: RM20,051,855) in unquoted Sukuk. The Fund's exposure to price risk arising from profit rate fluctuation and the related sensitivity analysis are disclosed in "interest rate risk" below.

(ii) Interest rate risk

In general, when interest rates rise, unquoted Sukuk prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund holds an unquoted Sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the PRS Provider will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the PRS Provider, which is based on its continuous fundamental research and analysis.

Although unquoted Sukuk is a non-interest bearing instrument, investors should note that the movement in prices of unquoted Sukuk are correlated to the movement in interest rates. As such, the investments in unquoted Sukuk are exposed to the movement of the interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country, which may affect the value of the investment of the Fund. However, it does not in any way suggest that this Fund will invest in conventional financial instruments. All investments carried out for the Fund including placement and deposits are in accordance with Shariah.

This risk is crucial since unquoted Sukuk portfolio management depends on forecasting interest rate movements. Prices of unquoted Sukuk move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted Sukuk decrease and vice versa. Furthermore, unquoted Sukuk with longer maturity and lower yield interest rates are more susceptible to interest rate movements.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Interest rate risk (continued)

Such Shariah-compliant investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to meet the obligation under the instrument, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's interest or loss and NAV to movements in prices of unquoted Sukuk held by the Fund as a result of movement in interest rate at the end of each reporting year. The analysis is based on the assumptions that the interest rate changed by 1% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

% Change in interest rate	Impact on profit or loss/NAV	
	2023 RM	2022 RM
+1%	(4,987)	(21,804)
-1%	4,994	21,887

The Fund's exposure to interest rate risk associated with Shariah-compliant deposits with licensed Islamic financial institutions is not material as the Shariah-compliant deposits are held on short-term basis.

The weighted average effective interest rate per annum was as follows:

	2023 %	2022 %
Shariah-compliant deposits with licensed Islamic financial institutions	2.95	2.28

(iii) Currency risk

Currency risk of the Fund is associated with Shariah-compliant investments that are quoted and/or priced in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The PRS Provider will evaluate the likely directions of a foreign currency versus MYR based on considerations of economic fundamentals such as profit rate differentials, balance of payments position, debt levels, and technical chart considerations.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(iii) Currency risk (continued)

The following table sets out the foreign currency risk concentrations arising from the denomination of the Fund's financial instruments in foreign currencies:

Financial assets	Cash and cash equivalents RM	Financial assets at fair value through profit or loss RM	Dividends receivable RM	Total RM
2023				
AUD	-	30,967	-	30,967
CNY	-	98,306	-	98,306
EUR	-	80,114	-	80,114
GBP	-	89,151	878	90,029

USD	+/- 5	+/-25,623	+/-38,245
		<u>+/-149,577</u>	<u>+/-482,312</u>

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted Sukuk may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. This will cause a decline in value of the investment and subsequently depress the NAV of the Fund. Usually credit risk is more apparent for an investment with a longer tenure, i.e. the longer the duration, the higher the credit risk.

Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the PRS Provider imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund. For this Fund, the unquoted Sukuk investment must satisfy a minimum credit requirement of at "BBB" or "A-2" by S&P or or equivalent rating by any other international rating agencies.

For amount due from the PRS Provider, the settlement terms of the proceeds from the creation of units receivable from the PRS Provider are governed by the SC Guidelines on PRS.

The credit risk arising from bank balances and placements of Shariah-compliant deposits with licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

For amount due from stockbrokers, the settlement terms are governed by the relevant rules and regulations as prescribed by respective stock exchange. The credit risk is minimal as all transactions in Shariah-compliant quoted securities and unquoted Sukuk are settled/paid upon delivery using approved brokers.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk (continued)

The following table sets out the credit risk concentration of the Fund:

	Financial assets at fair value through profit or loss RM	Cash and cash equivalents RM	Amount due from dealer RM	Amount due from the PRS Provider - Creation of units RM	Dividends receivable RM	Total RM
2023						
AAA	1,107,232	236,038	-	-	-	1,343,270

All deposits with licensed financial institutions of the Fund have an average maturity of 1 day (2022: 2 days).

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The PRS Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by members. Liquid assets comprise bank balances and Shariah-compliant deposits with licensed Islamic financial institutions, which are capable of being converted into cash within 7 business days. Generally, all Shariah-compliant investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the PRS Provider will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(c) Liquidity risk (continued)

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the following table are the contractual undiscounted cash flows.

	Less than 1 month RM	Between 1 month to 1 year RM	Total RM
2023			
Accrued management fee	19,319	-	19,319
Amount due to the PRS Provider - Cancellation of units	3,000	-	3,000
Amount due to Private Pension Administrator	548	-	548
Amount due to Trustee	548	-	548
Other payables and accruals	-	18,099	18,099
Net assets attributable to members*	16,307,454	-	16,307,454
Contractual undiscounted cash flows	16,330,869	18,099	16,348,968
2022			
Accrued management fee	69,250	-	69,250
Amount due to the PRS Provider - Cancellation of units	30,073	-	30,073
Amount due to Private Pension Administrator	1,972	-	1,972
Amount due to Trustee	1,972	-	1,972
Other payables and accruals	-	18,099	18,099
Net assets attributable to members*	58,480,261	-	58,480,261
Contractual undiscounted cash flows	58,583,528	18,099	58,601,627

* Outstanding units are redeemed on demand at the member's option, subject to the requirements in the SC Guidelines on PRS. However, the PRS Provider does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium for long term.

(d) Capital risk management

The capital of the Fund was represented by net assets attributable to member's RM16,307,454 (2022: RM58,480,261). The amount of capital can change significantly on a daily basis as the Fund is subjected to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the PRS Provider will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2023				
Financial asset at fair value through profit or loss:				
- Shariah-compliant quoted securities	9,110,262	-	-	9,110,262
- Unquoted Sukuk	-	6,622,347	-	6,622,347
	<u>9,110,262</u>	<u>6,622,347</u>	<u>-</u>	<u>15,732,609</u>
2022				
Financial asset at fair value through profit or loss:				
- Shariah-compliant quoted securities	29,275,642	-	-	29,275,642
- Unquoted Sukuk	-	20,051,855	-	20,051,855
	<u>29,275,642</u>	<u>20,051,855</u>	<u>-</u>	<u>49,327,497</u>

Shariah-compliant investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed Shariah-compliant equities. Net assets attributable to members are valued based on the NAV per unit as at the financial year end. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. This includes unquoted Sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents, amount due from dealer, amount due from the PRS Provider - creation of units dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE AND PRIVATE PENSION ADMINISTRATOR ADMINISTRATION FEE

In accordance with the Deeds, the PRS Provider is entitled to a maximum management fee of 3.00% per annum for each unit class, calculated daily based on the NAV of the Fund.

For the financial year ended 31 August 2023 and 31 August 2022, the management fee for the respective classes is recognised at the following rates:

Class A	Class C	Class X
1.40%	1.50%	1.40%

The Private Pension Administrator administrations fee was recognised at a rate of 0.04% per annum (2022: 0.04% per annum) for each unit class, calculated daily based on the NAV of the Fund.

There was no further liability in respect of management fee, and Private Pension Administrator administration fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.04% per annum for each unit class, calculated daily based on the NAV of the Fund. The Trustee's fee includes local custodian fees and charges but excluding foreign custodian fees.

For the financial year ended 31 August 2023, the Trustee fee was recognised at a rate of 0.04% per annum (2022: 0.04% per annum) for each unit class.

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6. DISTRIBUTION

Distribution to members was derived from the following sources (assessed up to distribution declaration date):

Breakdown of distribution were as follows:

Source of distribution	2023		2022	
	RM	%	RM	%
Distribution out of current year's income	-	-	1,204,639	72.08
Distribution out of prior year's income/capital	-	-	3,110,317	27.92
Total	-	-	4,314,956	100.00

	2023	2022
	RM	RM
Dividend income	-	788,366
Profit income	-	861,417
Net realised gain from disposal of investments	-	640,075
Prior financial year's realised income/capital*	-	3,110,317
	-	5,400,175
Less:		
Expenses	-	1,085,219
Net distribution amount	-	4,314,956

* Distribution income has been accrued as at the end of the prior financial year but is not declared and paid as distribution.

6. DISTRIBUTION (CONTINUED)

Gross/Net distribution per unit (sen)

Distribution on 15 October 2021

- Class A	-	3.52
- Class C	-	3.51
- Class X	-	3.52

Distribution on 15 August 2022

- Class A	-	1.82
- Class C	-	1.97
- Class X	-	1.48
	-	15.82

Gross distribution was derived using total income less total expenses. Net distribution above was sourced from current and previous financial year's realised income.

Gross distribution per unit was derived from gross realised income less expenses, divided by the number of units in circulation. Net distribution per unit was derived from gross realised income less expenses and taxation, divided by the number of units in circulation.

There are unrealised losses arising from the Fund for the financial year ended 31 August 2023 is nil. (2022: RM5,637,457).

7. TAXATION

	2023	2022
	RM	RM
Tax charged for the financial year		
- Current taxation	-	-

A numerical reconciliation between the profit/(loss) before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund was as follows:

	2023	2022
	RM	RM
Profit/(Loss) before taxation	281,897	(9,922,655)
Taxation at Malaysian statutory rate of 24% (2022: 24%)	67,655	(2,381,437)
Tax effects of:		
- (Investment income not subject to tax)/Losses not deductible for tax purposes	(189,289)	1,081,234
- Expenses not deductible for tax purposes	55,953	1,099,476
- Restriction on tax deductible expenses for PRS Funds	65,681	200,727
Taxation	-	-

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

¹ A-shares trade on the two Chinese stock exchanges, the Shanghai Stock Exchange and the Shenzhen Stock Exchange. A-shares are shares of mainland China-based companies and are available for purchase to selected foreign institutions through the Qualified Foreign Institutional Investor (“QFII”) system.

² NVDR, or non-voting depository receipt, is a trading instrument issued by Thai NVDR Company Limited, a subsidiary wholly owned by the Stock Exchange of Thailand (“SET”). It is a valid security as specified by the United States Securities and Exchange Commission (“SEC”) and is automatically regarded as a listed security by the SET. The underlying security is a listed security in the SET.

The unquoted Sukuk which are not rated as at the end of each financial year are issued, backed or guaranteed by government or government agencies.

(iii) Class X		
At the beginning of the financial year	54,757,913	44,520,623
Add : Creation of units from applications	2,308,943	12,263,383
Add : Creation of units from distribution	-	3,468,636
Less: Cancellation of units	<u>(49,877,669)</u>	<u>(5,494,729)</u>
At the end of the financial year	<u>7,189,187</u>	<u>54,757,913</u>

11. TOTAL EXPENSE RATIO (“TER”)

	<u>2023</u>	<u>2022</u>
	%	%
TER	<u>1.82</u>	<u>1.57</u>

TER was derived from the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E + F) \times 100}{G}$$

- A = Management fee
- B = Private Pension Administrator administration fee
- C = Trustee fee
- D = Audit fee
- E = Tax agent's fee
- F = Other expenses excluding Central Depository System (“CDS”) transfer fee and withholding tax
- G = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis was RM18,658,430 (2022: RM58,959,561).

12. PORTFOLIO TURNOVER RATIO (“PTR”)

	<u>2023</u>	<u>2022</u>
PTR (times)	<u>1.89</u>	<u>0.54</u>

PTR was derived based on the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

where:

- total acquisition for the financial year = RM19,492,684 (2022: RM36,081,122)
- total disposal for the financial year = RM50,919,704 (2022: RM27,947,445)

13. **UNITS HELD BY THE PRS PROVIDER AND PARTIES RELATED TO THE PRS PROVIDER, AND SIGNIFICANT RELATED PARTIES TRANSACTIONS AND BALANCES**

The related parties and their relationship with the Fund are as follows:

<u>Related parties</u>	<u>Relationship</u>
Principal Asset Management Berhad	The PRS Provider
Principal Financial Group, Inc.	Ultimate holding company of shareholder of the PRS Provider
Principal International (Asia) Ltd	Shareholder of the PRS Provider
CIMB Group Holdings Bhd	Ultimate holding company of shareholder of the PRS Provider

		<ul style="list-style-type: none"> ▪ The PRS Provider may request the Trustee to suspend withdrawal requests due to exceptional circumstances where the market value or fair value of a material portion of the Funds' assets cannot be determined (i.e. due to the closure of a securities exchange or trading restrictions on a securities exchange; an emergency or other state of affairs; the declaration of a moratorium in a country where that Fund has assets; for the purpose of conversion of any currency, a closure or restrictions on trading in the relevant foreign exchange market; or the realisation of the assets not being able to be effected at prices which would be realised if assets were realised in an orderly fashion over a reasonable period in a stable market). During the suspension period, withdrawal requests will not be accepted and in the event we have earlier accepted the withdrawal requests prior to the suspension is declared, the withdrawal requests will be dealt on the next Business Day once the suspension is lifted. In such case, a Member will not be able to redeem the units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Members' investments will continue to be subjected to the risks inherent to the Fund (Please refer to the "Risk Factors" section in the Disclosure Document). The action to suspend withdrawal requests from Members may be exercised by the Trustee on its own accord in accordance with the GPRS where there are good and sufficient reason to do so, after having considered the interest of Members.
