MARKET REVIEW (1 FEBRUARY 2025 TO 31 JULY 2025)

Asia ex-Japan equity markets navigated a complex macroeconomic landscape during the review financial period, marked by geopolitical tensions and shifting global policy dynamics. Technology and financial sectors remained key pillars of performance, supported by strong corporate earnings and structural demand. Despite global volatility, markets in North Asia showed relative stability, aided by resilient consumer activity and robust export demand, particularly in semiconductors and digital services.

Trade policy uncertainty stemming from US tariff actions created indirect pressures across the region. Industrial and data center segments faced rising construction costs due to tariffs on key materials such as aluminum and steel. Additionally, cloud and Artificial Intelligence ("AI") investments were impacted by supply chain disruptions, as critical components sourced from North Asia, excluding semiconductors were subject to trade restrictions. These developments weighed on sentiment in cyclical sectors, while defensive areas such as real estate outperformed, benefiting from slowing supply and durable earnings.

The broader investment environment was shaped by a defensive rotation, with non-US markets—including Asia ex-Japan outpacing US counterparts. Fiscal stimulus measures and new trade agreements initiated by countries outside the US provided tailwinds to regional performance. Real estate investment trusts ("REITs") with exposure to Asia ex-Japan benefited from these trends, as investors sought diversification and stability amid rising global risks. Overall, the region demonstrated resilience, supported by sectoral strengths and favorable policy developments.

MARKET OUTLOOK*

Asia ex-Japan markets are expected to remain relatively resilient amid global macroeconomic and political uncertainty. Defensive sectors such as real estate are likely to continue outperforming, supported by durable earnings and slowing supply. The broader environment is characterized by a defensive rotation, with non-US markets benefiting from increased fiscal stimulus and new trade agreements initiated in response to shifting global policy dynamics. Falling real yields and steady fundamentals across most sectors are seen as potential tailwinds, particularly for listed REITs, which offer diversification and low correlation to high-growth US equities.

However, risks remain elevated due to ongoing trade tensions and geopolitical developments. Tariff-related inflation and supply chain disruptions could impact industrial and data center segments, especially those reliant on North Asian components. While semiconductors are largely exempt, other critical inputs face cost pressures, potentially slowing investment in cloud and AI infrastructure. A moderate recession scenario could favor defensive assets in Asia ex-Japan, especially if monetary conditions ease.

* This market outlook does not constitute an offer, invitation, commitment, advice, or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. **NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 JULY 2025**

1. THE FUND, THE PRS PROVIDER AND ITS PRINCIPAL ACTIVITIES

Principal PRS Plus Asia Pacific Ex Japan Equity (the “Fund”) is governed by a Deed dated 8 November 2012, a First Supplemental Deed dated 2 January 2014, a Second Supplemental Deed dated 25 November 2014, a Third Supplemental Deed dated 3 February 2020, a Fourth Supplemental Deed dated 17 December 2021, a Fifth Supplemental Deed dated 12 July 2022 and a Sixth Supplemental Deed dated 14 June 2023 (collectively referred to as the “Deeds”) made between Principal Asset Management Berhad (the “PRS Provider”) and Deutsche Trustees Malaysia Berhad (the “Previous Trustee”) and a Seventh Supplemental Master Deed dated 31 July 2024 (collectively referred to as the “Deeds”) between the Manager and HSBC (Malaysia) Trustee Berhad (the “Trustee”).

The Fund offers three classes of units known respectively as Class A, Class C and Class X. In accordance with the Disclosure Document, subject to the PRS Provider’s absolute discretion, Class A and Class C are for an individual who has attained the age 18 years as of the date of opening a private pension account while Class X is for Member who participates via his/her employer. Class A and Class C have different Sales Charge and Management Fee while Class X has no Sales Charge.

The Fund will invest at least 85% of its Net Asset Value (“NAV”) in the Principal Asia Pacific Dynamic Income Fund (“Target Fund”), a Malaysian-domiciled fund established on 25 April 2011, which invests in the Asia Pacific ex Japan region. The Fund may also maintain up to 15% of its NAV in liquid assets.

The asset allocation strategy for this Fund is as follows:

- At least 85% of the Fund’s NAV will be invested in the Target Fund; and
- Up to 15% of the Fund’s NAV may be invested in liquid assets for liquidity purpose

With effect from 1 June 2020, Principal Asset Management (S) Pte Ltd (“Principal Singapore”) has been appointed as the Sub-Adviser of the Fund. Principal Singapore will provide investment research and recommendation to us in accordance with the investment objective and within the investment restrictions of the Fund.

All investments are subjected to the SC Guidelines on PRS, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The PRS Provider, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the PRS Provider are the establishment and management of unit trust funds and fund management activities.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”).

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(a) Basis of preparation (continued)

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS Accounting Standards and IFRS Accounting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period.

It also requires the PRS Provider to exercise their judgment in the process of applying the Fund's accounting policies. Although these estimates and judgment are based on the PRS Provider's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(i).

There are no other standards, amendments to standards or interpretations that are effective for financial periods beginning on 1 February 2025 that have a material effect on the financial statements of the Fund.

Other than MFRS 18: Presentation and Disclosure in Financial Statements (which will first become applicable for annual periods beginning on or after 1 January 2027), none of the standards, amendments to standards or interpretations that are effective for the financial period beginning on or after 1 August 2025 are applicable to the financial statements of the Fund. The Fund is still currently in the process of assessing the impact, if any, of MFRS 18: Presentation and Disclosure in Financial Statements.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed, and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income ("OCI").

Investment in collective investment scheme is debt instrument with contractual cash flow that do not represent solely payment of principal and interest ("SPPI") and therefore is classified as fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from PRS Provider – creation of units at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(b) Financial assets and financial liabilities (continued)

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial period which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Collective investment scheme is valued based on the most recent published NAV per unit or share of such collective investment scheme or, if unavailable, on the last published price of such unit or share (excluding any sales charge included in such selling price).

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit loss ("ECL") using probability of default, exposure at default and loss given default. PRS Provider consider both historical analysis and forward looking information in determining any ECL. PRS Provider consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by PRS Provider as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

(c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Realised gain or loss on disposal of collective investment scheme is accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Malaysian Ringgit ("MYR") or ("RM"), which is the Fund's functional and presentation currency.

(e) Members' contributions

The members' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in three classes of units, known respectively as the Class A, Class C and Class X, which are cancelled at the member's option and do not have identical features subject to restrictions as stipulated in the Disclosure Document and SC Guidelines on PRS. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the member exercises the right to put back the unit to the Fund.

Units are created and cancelled at the member's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

(f) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances which are subject to an insignificant risk of changes in value.

(g) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial period.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(h) Realised and unrealised portions of profit or loss after taxation

The analysis of realised and unrealised portions of profit or loss after taxation as presented on the statement of comprehensive income is prepared in accordance with SC Guidelines on PRS.

(i) Critical accounting estimates and judgments in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgment are continually evaluated by the PRS Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the PRS Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on PRS.

However, the PRS Provider is of the opinion that there are no accounting policies which require significant judgement to be exercised.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES

The investment objective of the Fund is to provide capital growth over the long-term by investing in a target fund with investments in the Asia Pacific ex Japan region.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the PRS Provider and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on PRS.

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in collective investment scheme will fluctuate because of changes in market prices. The value of investment may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of collective investment scheme and other financial instruments within specified limits according to the Deeds.

(b) Credit risk

Credit risk refers to the risk that a counter party will default on its contractual obligation resulting in financial loss to the Fund.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk (continued)

The credit risk arising from cash and cash equivalents is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

For the amount due from the PRS Provider, the settlement terms of the proceeds from the creation of units receivable from the PRS Provider are governed by the SC Guidelines on PRS Funds.

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The PRS Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by members. Liquid assets comprise bank balances, which are capable of being converted into cash within 7 business days. The Fund's investments in collective investment scheme are realisable which are capable of being converted into cash within 10 business days. This is expected to reduce the risk for the entire portfolio without limiting to the Fund's growth potential.

(d) Capital risk management

The capital of the Fund is represented by net assets attributable to members. The amount of net assets attributable to members can change significantly on a daily basis as the Fund is subjected to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the PRS Provider will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

Investments which values are based on quoted market prices in active markets, and are therefore classified within Level 1, include collective investments scheme. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents, amount due from the PRS Provider – creation of units and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE AND PRIVATE PENSION ADMINISTRATOR ADMINISTRATION FEE

In accordance with the Deeds, the PRS Provider is entitled to a maximum management fee of 3.00% per annum for each unit class, calculated daily based on the NAV of the Fund.

For the six months financial period ended 31 July 2025 and 31 July 2024, the management fee for the respective classes was recognised at the following rates:

Class A	Class C	Class X
1.40%	1.50%	1.40%

Nonetheless, no management fee is charged on the Fund for the financial period as the management fee has been waived by the PRS Provider.

The Private Pension Administrator administration fee was recognised at a rate of 0.04% per annum (31.07.2024: 0.04% per annum) for each unit class, calculated daily based on the NAV of the Fund.

There was no further liability in respect of management fee and Private Pension Administrator administration fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.04% per annum for each unit class, calculated daily based on the NAV of the Fund. The Trustee fee includes local custodian fees and charges but excluding foreign sub-custodian fees and charges.

For the six months financial period ended 31 July 2025, the Trustee fee was recognised at a rate of 0.04% per annum (31.07.2024: 0.04% per annum) for each unit class.

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6. TAXATION
