PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet only highlights the key features and risks of RHB US Focus Equity Fund. Investors are advised to request, read and understand the Fund's prevailing prospectus and its supplementary(ies) (if any) before deciding to invest.

Name of Fund	RHB US Focus Equity Fund ("Fund").	Fund Category	Feeder fund.
Manager	RHB Asset Management Sdn Bhd.	Launch Date	15 October 2010.
Trustee	HSBC (Malaysia) Trustee Berhad.	Financial Year End	31 October.

PRODUCT SUITABILITY

This Fund is suitable for investors who:

- (i) seek investment opportunities in the US market;
- (ii) have medium to high risk appetite; and
- (iii) seek capital growth.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund will invest in a target fund which aims to provide capital growth primarily through investment in equity securities of smaller and medium-sized US companies. Smaller and medium-sized US companies are considered companies which, at the time of purchase, form the bottom 40% by market capitalisation of the US market.

INVESTMENT STRATEGY

The Fund will invest principally in one of the funds under the Schroder International Selection Fund ("Schroder ISF") that is, the Schroder International Selection Fund US Small & Mid-Cap Equity ("Schroder ISF USSME"), which is managed by the management company, Schroder Investment Management (Luxembourg) S.A. and whose investment manager is Schroder Investment Management North America Inc. Schroder Investment Management North America Inc. is regulated by the Securities Exchange Commission, USA under the Investment Company Act of 1940. The Fund will invest into the Schroder ISF USSME - X Accumulation Share Class (denominated in US Dollars). Schroder ISF USSME, launched on 10 December 2004 is a collective investment scheme domiciled in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier (Luxembourg Financial Sector Supervising Authority) under the Luxembourg Law on Undertakings for Collective Investment dated 17 December 2010. Schroder ISF USSME invests primarily in equity securities of smaller and medium-sized US companies. These are US companies which, at the time of purchase, form the bottom 40% by market capitalisation of the US market.

Its asset allocation is as follows:

- At least 95% of Net Asset Value ("NAV") - Investments in the X Accumulation Shares of Schroder ISF USSME.
- 2% - 5% of NAV - Investments in liquid assets including money market instruments and deposits with financial institutions.

Since the Fund's commencement date on 15 October 2010, the Fund has invested into the A Share Class of the target fund, i.e. Schroder ISF USSME – A Accumulation Share Class (denominated in US Dollars). However, effective 31 March 2011, the management company of Schroder ISF USSME has closed off the subscription of the A Share Class of Schroder ISF USSME as it had reached its optimum size. Prior to the closure and as of 25 March 2011, the management company of Schroder ISF USSME has established the X Share Class of Schroder ISF USSME, i.e. the Schroder ISF USSME – X Accumulation Share Class, to co-exist alongside the A Share Class and to allow the Fund to continue to invest in Schroder ISF USSME. This X Share Class has all the same features as that of the A Share Class of Schroder ISF USSME (i.e. the Schroder ISF USSME – A Accumulation Share Class) except for the difference in the management fee of Schroder ISF USSME. This difference however does not prejudice nor affect the interests of all unit holders of the Fund ("Unit Holder(s)") as any management fee charged to Schroder ISF USSME is fully refunded to the Fund, which means that **there is no double charging of management fee and the Unit Holder will incur only one management fee and only at the Fund's level.**

Although the Fund is passively managed, the investments in the Fund will be rebalanced from time to time to meet sales and redemptions transactions and to enable the proper and efficient management of the Fund. The Manager does not adopt a temporary defensive position for the Fund in response to adverse market, economic, political, or any other conditions as such defensive strategies are expected to be implemented at the target fund level, i.e. Schroder ISF USSME when deemed necessary by Schroder ISF USSME's manager. This will allow the Fund to best track the performance of Schroder ISF USSME. It also follows that if Schroder ISF USSME fails to adopt a successful defensive position in response to adverse market and economic conditions, there is a risk that the Fund will mirror the Schroder ISF USSME's negative performance, if any. Also, investors should note that at all times the Fund is always subject to currency.

This Fund is a feeder fund that invests at least 95% of its NAV in Schroder ISF USSME. The risk management strategies and techniques employed will be at the Schroder ISF USSME level.

Notwithstanding anything stated herein, the Manager may, in consultation with the Trustee and with the Unit Holders' approval, replace Schroder ISF USSME with another fund of a similar objective if, in the Manager's opinion, Schroder ISF USSME no longer meets this Fund's investment objective, or when acting in the interest of the Unit Holders.

BENCHMARK

Russell 2500 TR Lagged (RM).

DISTRIBUTION

DISTRIBUTION POLICY - Consistent with the Fund's objective to achieve capital growth, distribution will therefore be of secondary importance. Distribution, if any, after deduction of taxation and expenses, will be reinvested.

KEY PRODUCT FEATURES

DISTRIBUTION MODE - Distributions, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the NAV per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter.

KEY RISKS

As this Fund invests at least 95% of its NAV in the target fund, Schroder ISF USSME, it is subject to the management risk of the management company and investment manager of Schroder ISF USSME. Poor management of Schroder ISF USSME will jeopardise the investment of this Fund in Schroder ISF USSME and in turn, the Unit Holders' investment through the loss of capital invested in this Fund.

In addition, as Schroder ISF USSME is domiciled in Luxembourg and denominated in US Dollars, this Fund may be subject to currency and country risk. Changes in rates of exchange between currencies may cause the value of this Fund's investment in Schroder ISF USSME to diminish or increase which in turn will affect the value of Unit Holders' investments. The Fund's investments in Schroder ISF USSME may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in Luxembourg.

Furthermore, investments of Schroder ISF USSME are subject to the following risks:

- *General risks*
- *Investment objective risk*
- *Regulatory risk*
- *Risk of suspension of share dealings*
- *Liquidity risk*
- *Derivatives risk*
- *Warrants risk*
- *Counterparty risk*
- *Custody risk*
- *Smaller companies risk*
- *Initial public offerings risk*
- *Emerging and less developed markets securities risk*
- *Specific risks linked to securities lending and repurchase transactions*
- *Potential conflicts of interest*

These specific risks of the Schroder ISF USSME are elaborated in the Fund's prevailing prospectus and its supplementary(ies) (if any).
