INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

4. AMENDMENTS TO INFORMATION ON THE TARGET FUND

a. The seventh paragraph of "About the Target Fund" in Section 4.1 on page 9 of the Information Memorandum is hereby deleted in its entirety.

b. The information of "Investment objective, focus and approach of the Target Fund" in Section 4.2 on pages 9 to 10 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

4.2 Investment objective, focus and approach of the Target Fund

The investment objective of the Target Fund is to provide income and capital growth over the medium to longer term* by investing primarily (i.e. approximately two-thirds of its assets) in Asian equities** (including real estate investment funds ("REITs")) and Asian fixed income securities.

*Notes: * "medium to longer term" in this context refers to a period between 3-10 years.*
*** This could include companies that are listed in Australia and/or New Zealand.*

The Target Fund will seek to achieve the investment objective primarily through investment in a portfolio of equity securities of Asian companies which offer attractive yields[(1)] and sustainable dividend payments[(2)], and fixed income securities and other fixed or floating rate securities, of investment grade or below investment grade (at the time of or subsequent to acquisition), issued by governments, government agencies, supra-national and corporate issuers in Asia which offer attractive yields. The Target Fund may substantially[(3)] invest in fixed income securities and debt securities which are below investment grade or unrated. The Target Fund may, if its manager considers fit and to a limited extent, seek exposure to other asset classes including but not limited to non-Asian securities and commodities (including energy, metals and agricultural commodities) indirectly through exchange traded funds ("ETFs") and/or similar instruments. The REITs invested in by the Target Fund may not necessarily be authorised by the Monetary Authority of Singapore ("Authority") and the distribution policy of the Target Fund may not reflect the dividend policy of the underlying REITs.

The Target Fund will actively allocate between Asian equities, Asian fixed income securities, cash and other permissible investments in accordance with the Code on Collective Investment Schemes ("Code") issued by the Authority to achieve the Target Fund's objectives. The Target Fund will use a cyclical approach to asset allocation where the asset mix will be adjusted according to the four phases of the economic cycle – recovery, expansion, slowdown and recession – based on a combination of fundamental and quantitative factors such as asset class valuation, macroeconomic data and liquidity. Cash will be treated as a separate asset class and will be deployed if necessary to limit downside risk during adverse market conditions. The Target Fund's expected asset allocation ranges for each asset class is expected to be the following:

Asian equities: 30 - 70%

Asian fixed income: 30 - 70%

Other permissible investments: 0 - 20%

Cash: 0 - 30%

In addition to active asset allocation, the Target Fund will also perform active security selection for its investments in Asian equities, Asian fixed income and other permissible investments. For the Asian equities portfolio, the Target Fund intends to focus on companies that are able to create true shareholder value[(4)], have a strong and stable earnings stream[(5)] and have a strong sustainable dividend yield[(6)]. For the Asian fixed income portfolio, the Target Fund intends to select securities that deliver attractive yield and capital growth taking into account both fundamental and technical views such as valuation, demand/supply conditions and liquidity. The Target Fund will also perform duration management based on its managers' interest rate views. Duration is a measure of the sensitivity of the portfolio value to changes in interest rates. Hence duration management means managing the impact that interest rate movements have on the value of the portfolio. For example, an increase in interest rates usually has a negative impact on the value of fixed income securities, hence the manager of the Target Fund would reduce the duration of the portfolio to reduce the effect from rising interest rates.

The Target Fund may invest up to 10% of its assets in China A-Shares through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect.

The Target Fund may also invest up to 10% of its assets directly in Renminbi ("RMB") denominated fixed income and debt instruments issued or distributed in mainland China ("Onshore RMB Bonds"). Direct exposure to Onshore RMB Bonds may be gained via investing in the China Interbank Bond Market ("CIBM") under the Bond Connect[(7)] and/or other means as may be permitted by the relevant regulations from time to time.

In extreme market conditions, the Target Fund may hold more than 10% of its assets in cash.

The Target Fund may also use financial derivatives for the purposes of hedging, efficient portfolio management and/or optimising returns only.

Explanatory notes:

[(1)] "attractive yields" for equity securities are level of yields that are generally above the country/industry norms. Attractive yields for fixed income securities are level of yields that are above the industry norm for that type of fixed income security of the same rating in the country of investment.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

(2) "sustainable dividend payments" means consistent percentage dividend payout by a company over time. For example, the target fund manager would prefer a company that has a stable dividend payout ratio rather than a company that has a high payout ratio in one or two years and zero payout ratio in the next few years.

(3) "substantially" means up to 70% of the Target Fund's net asset value.

(4) "create true shareholder value" are companies that in the judgment of Schroder Singapore, delivers value through its management's ability to grow earnings, dividends and share price. In other words, it is the sum of all strategic decisions that affect the company's ability to efficiently increase the amount of free cash flow over time, after considering factors such as the effect of inflation, amongst others.

(5) "strong and stable earnings stream" are companies that in the judgment of Schroder Singapore, can offer consistently growing/increasing corporate earnings with low volatility from one year to the next.

(6) "strong sustainable dividend yield" are companies that in the judgment of Schroder Singapore, can offer increasing dividend payout from one year to the next.

(7) "Bond Connect" is an initiative launched in July 2017 for mutual bond market access between Hong Kong and mainland China established by China Foreign Exchange Trade System & National Interbank Funding Centre, China Central Depositary & Clearing Co., Ltd, Shanghai Clearing House, Hong Kong Exchanges and Clearing Limited and Central Moneymarkets Unit.

c. The information of "Risk management process of the Target Fund" in Section 4.3 on page 11 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

4.3 Risk management of the Target Fund

The Target Fund may invest in financial derivatives (such as futures, options, warrants, forwards, swaps or swap options) for the purposes of hedging, efficient portfolio management and/or optimising returns only. Where such financial derivatives are financial derivatives on commodities, such transactions shall be settled in cash at all times. The Target Fund's global exposure to financial derivatives or embedded financial derivatives will not exceed 100% of the net asset value of the Target Fund at all times and such exposure will be calculated using the commitment approach as described in, and in accordance with the provisions of the Code.

The Schroder group, being the group of companies to which Schroder Singapore belongs, has established a Group Derivatives Committee (the "Committee") which reviews and monitors the adequacy and effectiveness of the processes managing operational risks faced by Schroder group from the use of financial derivatives, and will escalate significant issues relating to financial derivatives to key stakeholders.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

The Committee reviews and approves funds using financial derivatives and new financial derivative instruments to ensure that the key operational risks have been identified and mitigated before launch of the fund or execution of the instrument, and is responsible for the policy on new instruments. After approval by the Committee, new financial derivative instruments are recorded in a financial derivative instruments register. This process is designed to ensure that new financial derivative instruments are assessed prior to investment by the Target Fund to ensure that the Schroder Singapore has the appropriate processes and controls in place to mitigate operational, investment and credit risks.

The fund managers of Schroder Singapore have primary responsibility for ensuring that financial derivative transactions are consistent with the investment objective of the Target Fund. Financial derivative positions are monitored to ensure that financial derivative usage is consistent with the Target Fund's investment objectives and in line with the way the Target Fund is offered. Funds are categorised by their performance/risk profiles and risk-related parameters are set for each fund category. The risk related parameters are monitored by an independent investment risk team, and exceptions are investigated and resolved.

The fund managers of Schroder Singapore are required to liaise with the risk team or portfolio compliance team to agree on how the financial derivative investments should be monitored and clarify any uncertainty in relation to interpretation of rules or monitoring requirements prior to investing or as soon as the uncertainty arises. The portfolio compliance team is responsible for performing independent compliance monitoring of investment restrictions. The compliance team ensures that the fund managers are made aware of changes to regulations, including those in relation to financial derivatives usage. Schroder Singapore has a system in place to monitor investment restrictions. Where the system does not have the capability to monitor a particular instrument or restriction, the monitoring process is supplemented either by in-house or external systems and/or manual processes.

Schroder Singapore will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to manage the risk relating to the use of financial derivatives.

5. AMENDMENTS TO RISK FACTORS OF THE FUND

a. The information on "(b) Equity Risk" in Section 6.3 on page 14 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

(b) Equity risk

The Target Fund may invest in stocks and other equity securities and their derivatives which are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. The Target Fund may also invest in convertible instruments which may be converted into equity. When the price of the underlying equity exceeds the conversion price, the convertible instrument generally

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

behaves more like an equity and will be more sensitive to changes in equity securities. When the price of the underlying equity is lower than the conversion price, the convertible instrument generally behaves more like a bond and will be more sensitive to changes in interest rates and in credit spreads.

b. The information on "(c) Currency Risk" in Section 6.3 on pages 14 to 15 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

(c) Currency risk

The assets and liabilities of the Target Fund may be denominated in currencies other than the Target Fund's base currency of SGD. There is the prospect of additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment. Investors may therefore be exposed to exchange rate risks. Hence, the Target Fund may be affected favourably or unfavourably by exchange control regulations or changes in the exchange rates between the base currency of the Target Fund and such other currencies. If the currency in which a security is denominated appreciates against the base currency of the Target Fund, the value of the security would increase. Conversely, a decline in the currency in which a security is denominated against the base currency of the Target Fund would adversely affect the value of the security. Schroder Singapore may at their discretion manage the currency risks by hedging through forward currency contracts, currency futures, currency swap agreements or currency options. The currency derivative instruments which may be employed are subject to the risk of default by the counterparty. If the counterparty defaults, the unrealised gain on the transaction as well as some of the desired market exposure may be lost. The Target Fund may be exposed to different currencies, and changes in the exchange rates of these currencies could result in losses. Investor should note that there is no assurance that the currency risks of the Target Fund will be fully hedged.

c. The information on "(f) Risks relating to distributions" in Section 6.3 on page 15 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

(f) Risks relating to distributions

The manager of the Target Fund, i.e. Schroder Singapore intends to make distributions, at a variable percentage per annum with distributions to be made on a monthly basis at the Target Fund level. Schroder Singapore has the absolute discretion to determine whether a distribution is to be declared. Schroder Singapore also reserves the right to review and make changes to the distribution policy from time to time. Where the income generated by the Target Fund is insufficient to pay distributions as declared, Schroder Singapore may at its discretion (with the trustee of the Target Fund's consent) make such distributions out of the capital of the Target Fund. Investors should note that in the circumstances where distributions are paid out of the capital of the Target Fund, its net asset value will be reduced. Distributions out of the capital may also amount to a partial return of the investors' original investment and may result in reduced future returns to investors.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

d. The following new risks are hereby inserted immediately after "(h) Derivatives risk" in Section 6.3 on page 16 of the Information Memorandum:

(i) Interest rate risk

Investments in bonds, debentures, loan stocks, convertibles and other debt instruments may decline in value if interest rates change. In general, the price or value of existing debt instruments rises when interest rates fall, and falls when interest rates rise. Interest rate risk is generally greater for investments with long durations or maturities.

(j) Foreign securities risk

Investments in securities throughout the world are subject to numerous risks resulting from market and currency fluctuations, future adverse political and economic developments, the possible imposition of restrictions on the repatriation of currency or other governmental laws or restrictions, reduced availability of public information concerning issuers and the lack of uniform accounting, auditing and financial reporting standards or of other regulatory practices and requirements comparable to those applicable to companies in the investor's domicile. In addition, securities of companies or governments of some countries may be illiquid and their prices volatile and, with respect to certain countries, the possibility exists of expropriation, nationalisation, exchange control restrictions, confiscatory taxation and limitations on the use or removal of funds or other assets, including withholding of dividends. Some of the securities in the Target Fund may be subject to government taxes that could reduce the yield on such securities, and fluctuation in foreign currency exchange rates may affect the value of securities and the appreciation or depreciation of investments. Certain types of investments may result in currency conversion expenses and higher custodial expenses.

(k) Liquidity risk

There is no secondary market for the Target Fund. All redemption requests should be made to Schroder Singapore or their appointed agents. In difficult market conditions, the Target Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Target Fund to defer or suspend redemptions of its units or shares (as the case may be).

(l) Risks associated with investing in CIBM

The on-shore China bond market mainly consists of the interbank bond market and the exchange listed bond market. The CIBM is an over-the-counter ("OTC") market established in 1997. Currently, more than 90% of onshore RMB (CNY) bond trading activity takes place in the CIBM, and the main products traded in this market include government bonds, enterprise bonds, policy bank bonds, and medium term notes. The CIBM is in a stage of development and internationalisation. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

The Target Fund investing in such market is therefore subject to liquidity and volatility risks. In particular, the bid and offer spreads of the prices of on-shore China bonds may be large, and the Target Fund may therefore incur significant trading and realisation costs when selling such investments.

To the extent that the Target Fund transacts in the CIBM, it may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the Target Fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value.

The CIBM is also subject to regulatory risks.

Because the Central Moneymarkets Unit is only a nominee holder and not the beneficial owner of the securities, in the unlikely event that the Central Moneymarkets Unit becomes subject to winding up proceedings in Hong Kong, investors should note that securities will not be regarded as part of the general assets of the Central Moneymarkets Unit available for distribution to creditors even under the People's Republic of China ("PRC") law. However, the Central Moneymarkets Unit will not be obliged to take any legal action or enter into court proceedings to enforce any rights on behalf of investors in securities in the PRC. A failure or delay by the Central Moneymarkets Unit in the performance of its obligations may result in a failure of settlement, or the loss, of securities and/or monies in connection with them and the Target Fund and its investors may suffer losses as a result. The Target Fund shall not be responsible or liable for any such losses.

For investments via the Bond Connect, the relevant filings, registration with the People's Bank of China and account opening have to be carried out via an onshore settlement agent, offshore custody agent, registration agent or other third parties (as the case may be). As such, the Target Fund is subject to the risks of default or errors on the part of such third parties.

Trading in securities via Bond Connect may be subject to clearing and settlement risk. If the PRC clearing house defaults on its obligation to deliver securities / make payment, the Target Fund may suffer delays in recovering its losses or may not be able to fully recover its losses. Investing in the CIBM via the Bond Connect is also subject to regulatory risks. The relevant rules and regulations on these regimes are subject to change which may have potential retrospective effect. If the relevant mainland Chinese authorities suspend account opening or trading on the CIBM, the ability of the Target Fund to invest in the CIBM will be adversely affected. In such event, the ability of the Target Fund to achieve its investment objective will be negatively affected.

(m) Risks specific to China

Any significant change in mainland China's political, social or economic policies may have a negative impact on investments in the China market. The regulatory and legal framework for capital markets in mainland China may not be as well developed as those of developed countries. Chinese accounting standards and practices may deviate

significantly from international accounting standards. The settlement and clearing systems of the Chinese securities markets may not be well tested and may be subject to increased risks of error or inefficiency. Investors should also be aware that changes in mainland China's taxation legislation could affect the amount of income which may be derived, and the amount of capital returned, from the Target Fund. Changes in China's political, social or economic policies may significantly affect the value of the investments of the Target Fund. China's tax law is also applied under policies that may change without notice and with retrospective effect.

(n) Risks associated with investing through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect ("Stock connect")

(i) General risk

The relevant regulations are untested and subject to change. There is no certainty as to how they will be applied which could adversely affect the Target Fund. The Stock Connect requires use of new information technology systems which may be subject to operational risk due to its cross-border nature. If the relevant systems fail to function properly, trading in Hong Kong and Shanghai/Shenzhen markets through Stock Connect could be disrupted.

(ii) Clearing and settlement risk

The Hong Kong Securities Clearing Company Limited ("HKSCC") and China Securities Depository and Clearing Corporation Limited ("ChinaClear") have established the clearing links and each will become a participant of each other to facilitate clearing and settlement of cross-boundary trades. For cross-boundary trades initiated in a market, the clearing house of that market will on one hand clear and settle with its own clearing participants, and on the other hand undertake to fulfil the clearing and settlement obligations of its clearing participants with the counterparty clearing house.

(iii) Legal/beneficial ownership

Where securities are held in custody on a cross-border basis, there are specific legal/beneficial ownership risks linked to compulsory requirements of the local Central Securities Depositaries, HKSCC and ChinaClear.

As in other emerging and less developed markets, the legislative framework is only beginning to develop the concept of legal/formal ownership and of beneficial ownership or interest in securities. In addition, HKSCC, as nominee holder, does not guarantee the title to Stock Connect securities held through it and is under no obligation to enforce title or other rights associated with ownership on behalf of beneficial owners. Consequently, the courts may consider that any nominee or custodian as registered holder of Stock Connect securities would have full ownership thereof, and that those Stock Connect securities would form part of the pool of assets

of such entity available for distribution to creditors of such entities and/or that a beneficial owner may have no rights whatsoever in respect thereof. Consequently, the Target Fund and (where applicable) the custodian of the Target Fund cannot ensure that the Target Fund's ownership of these securities or title thereto is assured.

To the extent that HKSCC is deemed to be performing safekeeping functions with respect to assets held through it, it should be noted that (where applicable) the custodian of the Target Fund and the Target Fund will have no legal relationship with HKSCC and no direct legal recourse against HKSCC in the event that the Target Fund suffer losses resulting from the performance or insolvency of HKSCC.

In the event ChinaClear defaults, HKSCC's liabilities under its market contracts with clearing participants will be limited to assisting clearing participants with claims. HKSCC will act in good faith to seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or the liquidation of ChinaClear. In this event, the Target Fund may not fully recover its losses or its Stock Connect securities and the process of recovery could also be delayed.

(iv) Operational risk

The HKSCC provides clearing, settlement, nominee functions and other related services of the trades executed by Hong Kong market participants. PRC regulations which include certain restrictions on selling and buying will apply to all market participants. In the case of sale, pre-delivery of shares are required to the broker, increasing counterparty risk. Because of such requirements, the Target Fund may not be able to purchase and/or dispose of holdings of China A-Shares in a timely manner.

(v) Quota limitations

The Stock Connect is subject to quota limitations which may restrict the Target Fund's ability to invest in China A-Shares through the Stock Connect on a timely basis.

(vi) Investor compensation

The Target Fund will not benefit from local investor compensation schemes. Stock Connect will only operate on days when both the PRC and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. There may be occasions when it is a normal trading day for the PRC market but the Target Fund cannot carry out any China A-Shares trading. The Target Fund may be subject to risks of price fluctuations in China A-Shares during the time when Stock Connect is not trading as a result.

(vii) Investment risk

Securities traded via Shenzhen-Hong Kong Stock Connect may be smaller companies which are subject to smaller companies risk.

The Target Fund which invests in smaller companies may fluctuate in value more than other sub-funds. Smaller companies may offer greater opportunities for capital appreciation than larger companies, but may also involve certain special risks. They are more likely than larger companies to have limited product lines, markets or financial resources, or to depend on a small, inexperienced management group. Securities of smaller companies may, especially during periods where markets are falling, become less liquid and experience short-term price volatility and wide spreads between dealing prices. They may also trade in the OTC market or on a regional exchange, or may otherwise have limited liquidity. Consequently investments in smaller companies may be more vulnerable to adverse developments than those in larger companies and the Target Fund may have more difficulty establishing or closing out its securities positions in smaller companies at prevailing market prices. Also, there may be less publicly available information about smaller companies or less market interest in the securities, and it may take longer for the prices of the securities to reflect the full value of the issuers' earning potential or assets.

(o) RMB currency risk

The Target Fund may invest in China A-Shares of mainland China through the Stock Connect, and investors should note that RMB is currently not freely convertible and RMB convertibility from offshore RMB (CNH) to (CNY) is a managed currency process subject to foreign exchange control policies of and restrictions imposed by the Chinese government. The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions. There is also a risk that payment of redemption proceeds and/or distributions (if any) in RMB may be delayed when there is not sufficient amount of RMB for currency conversion for settlement of the redemption proceeds and distributions in a timely manner due to the exchange controls and restrictions applicable to RMB.

(p) Onshore RMB currency risk

Currency control decisions made by the Chinese government could affect the value of the investments of the Target Fund and could cause the Target Fund to defer or suspend redemptions of its units or shares (as the case may be).

6. AMENDMENT TO PRICING POLICY

The information on "Pricing Policy" in Section 7 on page 17 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

7. TRANSACTION INFORMATION

7.1 Pricing Policy

The Manager adopts a single pricing policy, i.e. the Selling Price and the Repurchase Price is the NAV per Unit.

7.2 Computation of NAV and NAV per Unit

The NAV is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point.

The valuation of the Fund is in the currency of SGD. The NAV per Unit will be the NAV divided by the total number of Units in circulation, at that valuation point.

Illustration of computation of the NAV per Unit for a particular Business Day

	SGD
Gross NAV before income and expenses	194,455,842.10
Add: income	50,000
Less: expenses	(10,000)
Gross NAV before management fee & Trustee's fee	194,495,842.10
Less adjustments:	
Management fee (1.80%) per annum	(9,591.58)
Trustee's fee (0.08%) per annum	(426.29)
Total NAV (SGD)	194,485,824.23
Assumption of Units in circulation at valuation point	190,675,555.00
NAV per Unit	1.0200*

* NAV per Unit is rounded to 4 decimal places.

7.3 Computation of Selling Price

The Selling Price shall be the NAV per Unit as at the next valuation point of the Fund's relevant Business Day after the application for Units is received by the Manager ("forward pricing"). A sales charge[1] will be computed separately based on the investment amount / purchase amount, net of bank charges (if any).

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

Illustration

If an investor makes an investment of SGD10,000.00 at the Selling Price of SGD0.4750 (which is the NAV per Unit as at the next valuation point) and a distributor levies a sales charge[1] of 5.50%, he will pay a total of SGD10,550.00 which is made up of:

Investment amount	SGD10,000.00
Add: sales charge @ 5.50%	SGD 550.00
Total amount paid by the investor	SGD10,550.00

The investor will be allotted with Units calculated as follows:	SGD10,000.00
	SGD0.4750*
	= 21,052.63 Units**

* Unit price is rounded to the nearest 4 decimal places.
** Units computed are rounded to the nearest 2 decimal places.

Note: [1]All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the Malaysian government from time to time.

7.4 Computation of Repurchase Price

The Repurchase Price shall be the NAV per Unit as at the next valuation point of the Fund's relevant Business Day after the repurchase request is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for the Fund.

Illustration

Say, an investor redeems 21,052.63 Units at the Repurchase Price of SGD0.4750 (which is the NAV per Unit as at the next valuation point), he would receive proceeds of repurchase of SGD10,000.00 as follows:

Repurchase proceeds (21,052.63 Units x SGD0.4750*)	SGD10,000.00
Add: repurchase charge	NIL
Net amount payable to the Unit Holder	SGD10,000.00

* Unit price is rounded to the nearest 4 decimal places.

Note: Any bank charges imposed by the relevant financial institutions will be borne by the Unit Holders.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

7.5 Pricing Error Policy

The Manager shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation of the Fund, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

(a) by the Manager to the Fund, and/or to the Unit Holders and/or to the former Unit Holders; or
(b) by the Fund to the Manager.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is equivalent to RM10.00 or more.

7.6 How and Where to Purchase and Repurchase Units

When purchasing Units, investors must forward the following:

1) completed account application form and purchase form;
2) necessary remittance; and
3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant),

to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors, before their respective cut-off times on any Business Day.

Units can be repurchased by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All repurchase requests will be processed in accordance with the repurchase conditions for the Fund. Redemption monies will be paid in accordance to the "Redemption Settlement" in Section 1 Key Data under Transaction Details.

For further information, please call us at 03-9205 8000 at any time during our office hours: Mondays through Fridays from 9:00 a.m. – 5:00 p.m. Alternatively, investors may e-mail their enquiries to **rhbam@rhbgroup.com**.

Application forms, redemption forms and this information memorandum are also available from these distributors.

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

7. AMENDMENTS TO VALUATION OF ASSETS

a. The third to fifth paragraphs of "Valuation of Assets" in Section 8 on page 17 of the Information Memorandum are hereby deleted in their entirety and replaced with the following:

Third to fifth paragraphs:

As such, the price of the Fund for a particular Business Day will not be published on the Manager's website on the next day but will instead be published the next following day (i.e. the price will be two (2) days old). This will be specifically indicated on the Manager's website.

Investors may however obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, **www.rhbgroup.com/myinvest**.

In undertaking any of the Fund's investments, the Manager will ensure that all the assets of the Fund will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

b. Item (iii) of "Valuation of Assets" in Section 8 on page 18 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

(iii) Money market instruments that are held for collecting contractual cash flow purpose i.e. money market placements which have a remaining term to maturity of not more than 90 days at the time of acquisition may be measured on an ongoing basis at amortised cost. The risk of using amortised cost is the mismatch between the fair value and book value of money market instruments. The Manager will monitor closely and consider prompt action to discontinue the use of amortised cost method and adopt the fair value as the valuation for money market instrument in the event the variance is above 3%.

Money market instruments other than the aforesaid will be valued on a daily basis by reference to the prices quoted by a bond pricing agency registered with the Securities Commission Malaysia.

8. AMENDMENT TO POLICY ON REBATES AND SOFT COMMISSION

The information on "Policy on Rebates and Soft Commission" in Section 9 on page 18 of the Information Memorandum is hereby deleted in its entirety and replaced with the following:

9. Policy on Rebates and Soft Commission

It is the Manager's policy to credit all rebates to the account of the Fund. However, goods and services ("soft commission") provided by any broker or dealer may be retained by the Manager or the fund manager if:

(a) the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THIS THIRD SUPPLEMENTARY INFORMATION MEMORANDUM DATED 26 FEBRUARY 2024 WHICH IS TO BE READ TOGETHER WITH THE INFORMATION MEMORANDUM DATED 5 NOVEMBER 2015, THE FIRST SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2020 AND THE SECOND SUPPLEMENTARY INFORMATION MEMORANDUM DATED 1 DECEMBER 2021.

(b) any dealing with broker or dealer is executed on terms which are the most favourable for the Fund; and

(c) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager or fund manager must not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

9. INSERTION OF NEW SECTION 9A

A new section 9A Tax is hereby inserted immediately after Section 9 Policy on Rebates and Soft Commission on page 18 of the Information Memorandum:

9A. Tax

- **"Foreign Account Tax Compliance Act (FATCA)"** which was passed as part of the Hiring Incentives to Restore Employment (HIRE) Act, generally requires that foreign financial Institutions and certain other non-financial foreign entities report on the foreign assets held by their U.S. account holders or be subject to withholding on withholdable payments. The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.
- RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.
- **"Common Reporting Standard (CRS)"** means the Standard for Automatic Exchange of Financial Account Information ("AEOFAI") in Tax Matters and was developed in response to the G20 request and approved by the Organisation for Economic Co-operation and Development (OECD) Council on 15 July 2014, calls on jurisdictions to obtain information from their financial institutions and automatically exchange that information with other jurisdictions on an annual basis. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.
- RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.
- Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - http://www/oecd/org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/
- RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).
- "Participating Jurisdiction" means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the CRS.
- "Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.
- "Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on [https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760\]. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.
- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.
- "US Person" refers to a US Person as defined in Section 7701 (a) (30) of the Internal Revenue Code and includes an individual who is a citizen or resident of the US.

11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.

Further details of acceptable TINs can be found at the following link [https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers]. 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

(i) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.

(ii) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.

(iii) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.

(iv) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

(v) This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
