7. AMENDMENTS TO RHB KIDSAVE TRUST

- (a) A new Section 1.3.1A Fund Type is hereby inserted immediately after Section 1.3.1 Fund Category on page 17 of the Master Prospectus:

1.3.1A Fund Type

Growth and Income.

- (b) Section 1.3.5 Investment Strategy on pages 17 to 18 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.5 Investment Strategy

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions. Specific risks associated with such securities and investments are as elaborated in section 2.2.

This Fund will generally adopt a 50% equities and 50% fixed income securities asset allocation strategy. Given this balanced asset mix, the fixed income portion of the Fund's portfolio could provide a buffer to mitigate the adverse effect on the Fund's portfolio arising from volatile price movements in the stock market whilst the equity portion of the Fund would enable the Fund to enjoy part of the appreciation from growth in the stock market. However, the actual percentage of assets invested in equities and fixed income securities will vary from time to time, depending on the judgement of the Manager as to the general market and

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in equities and from 40% to 60% in fixed income securities to reflect the market conditions but subject always to a minimum allocation of 40% in equities and 40% in fixed income securities. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM KLCI, the FTSE Bursa Malaysia EMAS Index nor the RHB Bank Berhad's 12-month fixed deposit rate as the Fund is a balanced fund where investment in equities and fixed income securities are each restricted to a maximum of 60%. As such, a benchmark comprising 50% of the performance of the FBM KLCI and 50% of the RHB Bank Berhad's 12-month fixed deposit rate[^] is used for comparative purpose which is reflective of the Fund's underlying investments. For ease of reference, investors may refer to local newspapers for these indicators. Unit Holders can obtain information on the composite benchmark from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

[^] *the performance benchmark of the Fund has been replaced from 50% of the performance of the FBM KLCI and 50% of the 12-month KLIBOR to 50% of the performance of the FBM KLCI and 50% of the RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the discontinued publication of the 12-month KLIBOR with effect from 1 January 2023.*

- (c) Section 1.3.7 Collective Investment Schemes, on page 18 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.7 Collective Investment Schemes

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.3.13 (f), (g), (n) and (r).

- (d) Section 1.3.8 Financial Derivatives, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.8 Financial Derivatives

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts, interest rate futures contracts, bond futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its

uninvested cash. The benefit of any upside of price or interest rate movement in the underlying market or the currency movement is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the benchmark. When participating in such instruments, the Manager will monitor the financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such financial derivatives. This may extend to unwinding of the financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemptions in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC financial derivatives. The Fund's investment holding in financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.3.13 (e), (o), (p) and (q).

- (e) Section 1.3.9 Structured Products, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.9 Structured Products

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of the Fund.

- (f) The first paragraph of Section 1.3.10 Foreign Securities, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in securities of Eligible Market.

- (g) Section 1.3.13 Permitted Investments and Restrictions, on pages 20 to 21 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

Income.

- (b) Section 1.6.5 Investment Strategy on pages 32 to 33 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.6.5 Investment Strategy

This Fund seeks to achieve its investment objective by investing substantially all of its assets in fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investments schemes), money market instruments, cash and deposits with any financial institutions. At least 60% of Net Asset Value will be invested in bonds. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The performance of this Fund is benchmarked against the RHB Bank Berhad's 12-month fixed deposit rate^{^^}. The benchmark selected is reflective of the Fund's investment objective. For ease of reference, investors may refer to RHB Bank Berhad's website, www.rhbgroup.com, for this indicator. It should be noted that the risk of investing in this Fund is different from the risk of investing in a bank's fixed deposit account. In addition, investors of the Fund assume higher risk compared to a depositor of the RHB Bank Berhad's 12-month fixed deposit.

^^ the performance benchmark of the Fund has been replaced from Maybank's 12-month fixed deposit rate to RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

12. AMENDMENTS TO RHB GROWTH AND INCOME FOCUS TRUST

- (a) A new Section 1.8.1A Fund Type is hereby inserted immediately after Section 1.8.1 Fund Category on page 41 of the Master Prospectus:

1.8.1A Fund Type

Growth and income.

- (b) Section 1.8.5 Investment Strategy on pages 41 to 42 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.5 Investment Strategy

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and quality fixed income securities. Specific risks associated with securities and investments are as elaborated in section 2.2.

This Fund's portfolio will comprise a blend of carefully selected investments in securities of companies with market capitalization of not more than RM750 million ("small cap securities"), quality fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions, but subject always to a minimum allocation of 30% in small cap securities and 30% in fixed income securities, money market instruments, cash and deposits with financial institutions.

In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 30% -70% in small cap securities and 30% - 70% in fixed income securities, money market instruments, cash and deposits with financial institutions. Accordingly, this Fund will be able to have a maximum exposure to the equities market of up to 70% through investments in small cap securities whilst maintaining a minimum of 30% in fixed income securities to provide stability through diversification of the asset class. Similarly, this Fund can also invest up to 70% of its investments in fixed income securities whilst maintaining the minimum of 30% in small cap securities to diversify the portfolio and to provide capital growth. The restriction on market capitalisation mentioned above is determined at the point of purchase.

Given this asset mix, the Fund will be able to tap into varied market conditions in order to capitalise on any market opportunities. The actual percentage of assets invested in equities and fixed income securities will therefore vary from time to time, depending on the judgement of the Manager as to the general market and

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. Thus, although this Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of this Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 10% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM Fledgling Index nor the 12-month fixed deposit rate offered by financial institutions as the Fund's investments in equities and fixed income securities are restricted to a maximum of 70% each. As such, a benchmark comprising 50% of the performance of the FBM Fledgling Index and 50% of the RHB Bank Berhad's 12-month fixed deposit rate^{^^} is used for comparative purposes. The composite benchmark selected best reflects the Fund's underlying investments. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at www.bursamalaysia.com for the index indicator and the RHB Bank Berhad's website at www.rhbgroup.com for the fixed deposits rates. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

^{^^} the performance benchmark of the Fund has been replaced from 50% of the performance of the FBM Fledgling Index and 50% of the Maybank's 12-month fixed deposit rate to 50% of the performance of the FBM Fledgling Index and 50% of the RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

- (c) Section 1.8.7 Collective Investment Schemes, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.7 Collective Investment Schemes

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.8.13 (f), (g), (n) and (r).

- (d) Section 1.8.8 Financial Derivatives, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.8 Financial Derivatives

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, interest rates futures contracts, bonds futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price or interest rate movement in the underlying market or currency movement is limited as the primary interest is

to protect the value of the portfolio and to manage risks in relation to the benchmark. When participating in such instruments, the Manager will monitor the financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such financial derivatives. This may extend to unwinding of the financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemptions in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC financial derivatives. The Fund's investment holding in financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.8.13 (e), (o), (p) and (q).

- (e) Section 1.8.9 Structured Products, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.9 Structured Products

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of the Fund.

- (f) The first paragraph of Section 1.8.10 Foreign Securities, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in securities of Eligible Market.

16. AMENDMENTS TO RHB DANA HAZEEM

- (a) A new Section 1.13.1A Fund Type is hereby inserted immediately after Section 1.13.1 Fund Category on page 61 of the Master Prospectus:

1.13.1A Fund Type

Growth and income.

- (b) Section 1.13.5 Investment Strategy, on pages 61 to 63 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.13.5 Investment Strategy

This Fund seeks to achieve its investment objective through a diversified portfolio of Shariah-compliant investments comprising Shariah-compliant equities, sukuk, Islamic money market instruments, Islamic deposits with financial institutions and Islamic collective investment schemes.

This Fund will generally adopt a balanced asset allocation strategy of 50% in Shariah-compliant equities and 50% in non-equity Shariah-compliant investments which are defensive in nature comprising sukuk, Islamic money market instruments and Islamic deposits with financial institutions (collectively known as "Non-Equity Shariah-Compliant Investments"). Investments in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments may also be made via Islamic collective investment schemes.

Given this balanced asset mix, the Fund will be cushioned from wild swings in the equity market while still able to enjoy part of the appreciation from growth in the equity investments of the Fund. However, the actual percentage of assets invested in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments will vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in Shariah-compliant equities and from 40% to 60% in Non-Equity Shariah-Compliant Investments to reflect the market conditions but subject always to a minimum allocation of 40% in Shariah-compliant equities and 40% in Non-Equity Shariah-Compliant Investments. Although the Fund is expected to be actively managed, the frequency of its trading strategy will very much depend on market opportunities.

When making investments, the Manager may invest up to 30% of the Net Asset Value in foreign markets. The Fund will invest in Shariah-compliant securities / instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities / instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange).

The fund's investments in Shariah-compliant equities comprise of equity and equity related securities of companies listed on the local and/or foreign markets which, in the Manager's opinion, will have good growth potential and/or the ability to provide good dividend yield over a long term period. In seeking investments in companies of good growth potential, the Fund will look to companies with sales or earnings growth that are stronger than the industry average and/or the country's Gross Domestic Product (GDP) growth, whereas

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

“good dividend yield” refers to yield that is above the average industry dividend yield in the country of investment, and “long term” refers to a period of between 5 - 7 years.

The Fund’s investments in sukuk may comprise of sukuk issued by corporations, financial institutions, supra-nationals, local or foreign governments and their agencies. Sukuk issued by Malaysian incorporated companies must carry a rating of at least BBB at the point of purchase by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment. Foreign sukuk issued by corporations and financial institutions must carry a rating of BB or higher at the point of purchase by any Global Rating Agencies or its equivalent rating by a reputable rating establishment whereas sukuk issued by supra-nationals, governments and their agencies need not be rated.

The Fund’s investments in Islamic money market instruments may comprise of Islamic money market instruments issued by the government which amongst others comprise of Government Investment Issues (GII), Islamic accepted bills, Bank Negara monetary notes-i, Islamic negotiable instruments, cagamas sukuk and other government Islamic papers whereas Islamic money market instruments issued by Malaysian incorporated companies are those issued by such companies which carry a rating of at least P3 by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment at the point of purchase.

Placements of Islamic deposits with any financial institution are placements such as in General Investment Account (GIA) or Islamic fixed deposits.

The Fund’s investments may also comprise of Islamic collective investment schemes which are consistent with the underlying investments of the Fund.

The Fund’s portfolio will be structured as follows:

40% - 60% of Net Asset Value

- Investments in Shariah-compliant equity and equity related securities of companies that have dividend and/or growth potential.

40% - 60% of Net Asset Value

- Investments in Non-Equity Shariah-Compliant Investments.

The actual asset allocation will be reviewed from time to time depending on economic and market conditions.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund’s investments in terms of its exposure to various industries, sectors and countries. Further, as the Fund is a balanced fund with minimum investment of 40% of Net Asset Value in Shariah-compliant equities and 40% of Net Asset Value in Non-Equity Shariah-Compliant Investments, the Fund is able to alleviate the risks associated with single asset class investments such as an all Shariah-compliant equities investment or an investment wholly invested in Non-Equity Shariah-Compliant Investments such as a sukuk fund. This therefore reduces the risk associated or peculiar to a particular asset class. Generally, the assets of the Fund will be invested over the long term with disposal of the Shariah-compliant investments where necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available Shariah-compliant investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund’s portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund’s principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund’s Shariah-compliant equities investments into other asset classes which are defensive in nature such as sukuk, Islamic money market instruments and non-equity Islamic collective investment schemes or just make placements in Islamic deposits with any financial institutions. In its reallocation, the level of Shariah-compliant equities investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FTSE Bursa Malaysia EMAS Shariah Index or the RHB Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate as the Fund is a balanced fund where investment in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments are each restricted to a maximum of 60% of Net Asset Value. As such, a benchmark comprising 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the RHB Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate ^{^^^^} is used for comparative purposes. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at www.bursamalaysia.com for the index indicator and the RHB Bank Berhad’s website at www.rhbgroup.com for the 12-month Commodity Murabahah Deposit-i rate. risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

~~~~~ the performance benchmark of the Fund has been replaced from 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the Maybank Islamic Berhad's 12-month Islamic fixed deposit rate to 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the RHB Bank Berhad's 12-month Commodity Murabahah Deposit-i rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

- (c) Section 1.13.7 Islamic Collective Investment Schemes, on page 63 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.7 Islamic Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the Islamic collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in Islamic collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.13.13 (f), (g), (n) and (r).

- (d) Section 1.13.8 Islamic Financial Derivatives, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.8 Islamic Financial Derivatives**

The Manager may participate in Islamic futures contracts and other Islamic financial derivatives, when appropriate. The category of Islamic financial derivatives to be participated in shall be the stock index futures contracts, the stock index options contracts, the single stock futures contracts, the sukuk futures contracts, or any other categories and/or types of Islamic futures contracts or Islamic financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in Islamic financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency volatility. Such participation in Islamic financial derivatives shall commence only if the underlying financial instrument complies with Shariah requirements. The benefit of any upside of price or interest rate movement in the underlying market or currency movement is limited. The purpose is to protect the value of the portfolio. When participating in such instruments, the Manager will monitor the Islamic financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the Islamic financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such Islamic financial derivatives. This may extend to unwinding of the Islamic financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemption in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual Islamic financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual Islamic financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic financial derivatives. The Fund's investment holding in Islamic financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.13.13 (e), (o), (p) and (q).

- (e) Section 1.13.9 Islamic Structured Products, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.9 Islamic Structured Products**

The Manager may invest in Islamic structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund.

- (f) The first paragraph of Section 1.13.10 Foreign Shariah-compliant Securities, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in Shariah-compliant securities of Eligible Market provided the securities are reviewed and designated as Shariah-compliant by the Shariah Adviser. The Fund will invest in Shariah-compliant securities/instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities/instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange) and/or Shariah-compliant securities / instruments issued and/or guaranteed by governments or quasi-government agencies.

\*Funds with mandates investing in foreign markets

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

Accordingly, for Funds investing solely in the local market, the valuation of the respective Funds for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the Fund for a particular Business Day will be published online on the Manager’s website on the next day, with the exception of **CASH**, whose price shall be the Net Asset Value per Unit as at the valuation point of the Fund immediately preceding the Fund’s relevant Business Day when the request for Units of the Fund is received by the Manager (“historical pricing”). [Please refer section 5.2 (Computation of Purchase of Units – **CASH**)].

For Funds which have investments in foreign markets, the valuation of the respective Funds for a Business Day will be conducted by 5.00 pm (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published online on the Manager’s website on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated on the Manager’s website.

#### Illustration (for Funds investing in foreign markets)

When markets are closed for trading on 18 April 2023 (Tuesday), the valuation date will be the next day on which the Manager is open for business, i.e. 19 April 2023 (Wednesday). Thus, the publication date for the price as at 18 April 2023 (Tuesday) will be on 20 April 2023 (Thursday) on the Manager’s website.

Investors may obtain the most current computed price by contacting the Manager directly or visiting the Manager’s website, [www.rhbgroup.com](http://www.rhbgroup.com) [please refer to section 5.5 (g) (Availability of Information on Investment)].

In undertaking any of the Fund’s investments, the Manager will ensure that all the assets of the respective Funds will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

Accordingly, where applicable:

- (i) Listed securities / Shariah-compliant securities
- (ii) Listed securities / Shariah-compliant securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if: -

- (a) a valuation based on the market price does not represent the fair value of the listed securities / Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of the listed securities / Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the listed securities / Shariah-compliant securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

- (iii) Unlisted fixed income securities / sukuk

Investments in unlisted fixed income securities / sukuk denominated in Ringgit Malaysia will be valued on a daily basis by reference to the prices quoted by a bond pricing agency (BPA) registered with the Securities Commission. However, where quotations are not available, such unlisted fixed income securities / sukuk will generally be valued on a weekly basis or as and when appropriate, by reference to the average indicative yield quoted by three independent and reputable financial institutions in OTC market at the close of trading. These institutions include investment banks and commercial banks dealing in fixed income securities / sukuk.

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.**

Investments in foreign unlisted fixed income securities / sukuk are valued daily using the Bloomberg Generic Price (BGN) provided by Bloomberg. Where BGN prices are not available on any Business Day, these fixed income securities / sukuk will be valued by reference to the average indicative yield quoted by three independent and reputable financial institutions.

In a case where the Manager is of the view that the price quoted by BPA or the BGN price for a specific unlisted fixed income security / sukuk differs from the market price (i.e., the Manager's view of the market yield) by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non BPA price or non BGN price, obtains necessary internal approvals to use the non BPA price or non BGN price and keeps an audit trail of all decisions and basis for adopting its own view of the market price.

However, when the Manager, after taking all reasonable efforts, is unable to obtain quotations from BPA or any BGN price or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such unlisted fixed income securities / sukuk (denominated in Ringgit Malaysia and denominated in foreign currencies) will be valued according to an alternative method determined in good faith by the Manager, which has been verified by the auditor of the Fund and approved by the Trustee provided that the Manager records its basis for using the alternative method, obtains necessary internal approvals to use the alternative method and keeps an audit trail of all decisions and basis for adopting the alternative method. Any alternative method shall be consistently applied unless advised otherwise by the auditors of the Fund and the Trustee.

(iv) Unlisted securities / Shariah-compliant unlisted securities

Investments in unlisted securities / Shariah-compliant unlisted securities will be valued at the cost price of each investment until the securities / Shariah-compliant securities of the investee companies are successfully listed on a recognised stock exchange, upon which quoted prices will be available and valuation will be based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

(v) Collective investment schemes / Islamic collective investment schemes

Collective investment schemes / Islamic collective investment schemes which are quoted on an approved exchange shall be valued in the same manner as listed securities as described above. When investing in unlisted collective investment schemes / Islamic collective investment schemes, the value shall be determined by reference to the last published repurchase price per unit for that unlisted collective investment scheme / Islamic collective investment schemes.

(vi) Financial derivatives / Islamic financial derivatives

Financial derivatives / Islamic financial derivatives positions will be 'marked-to-market' at the close of each trading day.

(vii) Deposits / Islamic deposits

Deposits / Islamic deposits placed with financial institutions will be valued each day by reference to the principal value of such investments and the interest / profits accrued thereon for the relevant period.

(viii) Money market instruments / Islamic money market instruments

Money market instruments / Islamic money market instruments that are held for collecting contractual cash flow purpose i.e. commercial papers / Islamic commercial papers and money market placements / Islamic money market placements which have a remaining term to maturity of not more than 90 days at the time of acquisition will be measured on an ongoing basis at amortised cost. The risk of using amortised cost is the mismatch between the fair value and book value of a money market instrument / an Islamic money market instrument. The Manager will monitor closely and consider prompt action to discontinue the use of amortised cost method and adopt the fair value as the valuation for money market instrument / Islamic money market instrument in the event the variance is above 3%.

Money market instruments / Islamic money market instruments other than the aforesaid will be valued on a daily basis by reference to the fair value prices quoted by a BPA registered with the Securities Commission.

(ix) Foreign exchange translation of foreign investments into Ringgit Malaysia for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant laws.

(x) Any other investments / Shariah-compliant investments as may be held by the Fund will be valued based on fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

The cooling-off right refers to the right of an individual investor to obtain a refund of his investment if he so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust funds managed by the Manager for the first time:

(ii) a person registered with a body approved by the Securities Commission to deal in unit trust funds.

The refund to the investor pursuant to the exercise of his cooling-off right must be as follows:

- a) the Net Asset Value per Unit at the point of exercise of the cooling-off right (“market price”), if the Net Asset Value per Unit on the day the Units were purchased (“original price”) is higher than the market price; or  
b) the original price, if the market price is higher than the original price.

If the market price is higher than the original price paid by the investor, the Manager may agree to pay the investor the excess amount, provided that such amount is not paid out of the Funds or the assets of the Funds.

The Manager must also refund the sales charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days which shall be effective from the date of receipt of the application by the Manager. Where applicable, if you have invested via the EPF-MIS, the cooling-off period shall be subject to EPF’s terms and conditions.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque. The Manager shall refund the investor in cash within seven (7) Business Days of receiving the cooling-off notice. Where applicable, if you have invested via the EPF-MIS, the refund will be credited back into your EPF accounts

Unit Holders may switch to units of any unit trust fund under the management of the Manager that are of the same currency and that allows for switching by forwarding the completed form of request to switch to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. The minimum amount for a switch into another fund is RM100.00 or such other amount as the Manager may from time to time decide. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of Units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.

#### **CASH**

Switching is not applicable for this Fund.

The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.

- (b) The information on “Rights of Unit Holders” in Section 6.1.2 on page 108 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### 6.1.2 Rights of Unit Holders

Unit Holders shall have the right in respect of the Funds in which they hold Units, amongst others, to the following:

- (a) to receive distributions of the Funds, to participate in any increase in the value of the Units and to enjoy such other rights and privileges as set out in the Deeds;
- (b) to call for Unit Holders’ meetings, and to vote for the removal of the Trustee or the Manager through a special resolution as provided for in the Deeds;
- (c) to exercise the cooling-off right, if applicable; and
- (d) to receive annual reports, semi-annual reports or any other reports of the Funds.

No Unit Holder shall be entitled to require the transfer to him of any assets of the Funds or be entitled to interfere with or question the exercise by the Trustee, or the Manager on the Trustee’s behalf, of the rights of the Trustee as the registered owner of such assets.

Note: If your investments are made through an IUTA which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the Deeds and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders’ meetings and the right to vote at a Unit Holders’ meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the Deeds.

- (c) The first paragraph on “Maximum Annual Trustee Fee” in Section 6.2.3 on page 111 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The maximum annual trustee fee the Trustee is permitted to charge each Fund is at the rate below:

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Funds.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement ("DTA") or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013<sup>N1</sup>; or
- any development financial institution regulated under the Development Financial Institutions Act 2002<sup>N1</sup>; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority<sup>N2</sup>.

Discounts earned by the Funds from the following are also exempt from tax: -

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds' expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

#### ***Real Property Gains Tax ("RPGT")***

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

#### ***Sales Tax and Service Tax***

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which was claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

#### **Taxation of Unit Holders**

##### ***Income Tax***

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This

<sup>N1</sup> Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

<sup>N2</sup> Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall also not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Bill 2023, it is proposed that the tax rate of 17% will be reduced to 15% for chargeable income of up to RM150,000, while the tax rate for chargeable income from RM150,001 up to RM600,000, will remain unchanged at 17%. For chargeable income in excess of RM600,000, the tax rate of 24% will apply. The proposed changes will come into effect from YA 2023.

In addition to the current conditions as mentioned above, it is proposed that the preferential tax rate would not apply if more than 20% of the paid-up capital in respect of ordinary shares of the company at the beginning of the basis period for a YA is directly or indirectly owned by a company or companies incorporated outside Malaysia or an individual or individuals who are not Malaysian citizens. The proposed condition is effective from YA 2024.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Funds will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income exempt from tax of the RHB Cash Management Fund 2 which is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002, will be subjected to tax. This is effective from 1 January 2022. Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is also effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

#### ***Service Tax***

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, certain expenses such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. #### **FOREIGN ACCOUNT TAX COMPLIANCE ACT ("FATCA") AND COMMON REPORTING STANDARD ("CRS")**

- "Foreign Account Tax Compliance Act (FATCA)" which was passed as part of the Hiring Incentives to Restore Employment (HIRE) Act, generally requires that foreign financial Institutions and certain other non-financial foreign entities report on the foreign assets held by their U.S. account holders or be subject to withholding on withholdable payments. The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.
- RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.
- "Common Reporting Standard (CRS)" means the Standard for Automatic Exchange of Financial Account Information ("AEOI") in Tax Matters and was developed in response to the G20 request and approved by the Organisation for Economic Co-operation and Development (OECD) Council on 15 July 2014, calls on jurisdictions to obtain information from their financial institutions and automatically exchange that information with other jurisdictions on an annual basis. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.
- RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.
- Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/>
- RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).
- "Participating Jurisdiction" means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the CRS.
- "Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.
- "Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>]. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.
- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers>]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.
- "US Person" refers to a US Person as defined in Section 7701 (a) (30) of the Internal Revenue Code and includes an individual who is a citizen or resident of the US.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
  - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
  - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
  - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
  - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

### FOREIGN ACCOUNT TAX COMPLIANCE ACT ("FATCA") AND COMMON REPORTING STANDARD ("CRS")

"Foreign Account Tax Compliance Act (FATCA)" which was passed as part of the Hiring Incentives to Restore Employment (HIRE) Act, generally requires that foreign financial Institutions and certain other non-financial foreign entities report on the foreign assets held by their U.S. account holders or be subject to withholding on withholdable payments. The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.

RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.

"Common Reporting Standard (CRS)" means the Standard for Automatic Exchange of Financial Account Information ("AEOI") in Tax Matters and was developed in response to the G20 request and approved by the Organisation for Economic Co-operation and Development (OECD) Council on 15 July 2014, calls on jurisdictions to obtain information from their financial institutions and automatically exchange that information with other jurisdictions on an annual basis. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.

RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.

Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/>

RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).

"Participating Jurisdiction" means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the CRS.

"Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.

"Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on <https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).

For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.

- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.
- "US Person" refers to a US Person as defined in Section 7701 (a) (30) of the Internal Revenue Code and includes an individual who is a citizen or resident of the US.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
  - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
  - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
  - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
  - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

**LOAN FINANCING RISK DISCLOSURE STATEMENT**

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- (i) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- (ii) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- (iii) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
- (iv) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
- (v) This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
