BRIEF INFORMATION ABOUT THE FUND

UNITED-i GLOBAL BALANCED FUND seeks to provide income and capital appreciation over the medium to long term by investing in Shariah-compliant equities and Sukuk globally.

The Fund is a unit trust fund managed by **UOB Asset Management (Malaysia) Berhad** (the “Manager”). The Fund is not a capital protected fund nor a capital guaranteed fund.

PRODUCT SUITABILITY

The Fund is suitable for investors who:

- seek an investment that provides income and capital appreciation;
- have a moderate risk tolerance;
- want a portfolio of investments that adhere to Shariah principles; and
- want to have investment with global exposure.

The Fund will not be offered for sale in the United States of America, its territories or possessions and all areas subject to its jurisdiction, or U.S. Person(s), except in a transaction which does not violate the securities laws of the United States of America. Accordingly, investors may be required to certify that they are not U.S. Person(s) before making an investment in the Fund.

KEY PRODUCT FEATURES

What am I investing in?

Fund Category	Balanced (Islamic)
Fund Type	Income & Growth
Base Currency	United States Dollar (“USD”)
Investment Objective	<p>The Fund seeks to provide income* and capital appreciation over the medium to long term by investing in Shariah-compliant equities and Sukuk globally.</p> <p>Notes: <i>* Income distribution (if any) will be in the form of additional Units or paid to you by way of transferred into a bank account held in your name.</i></p>
Investment Strategy	<p>The Fund seeks to achieve its investment objective through a policy of diversified investment Shariah-compliant equities, Sukuk, Islamic money market instruments and placement of Islamic Deposits with Financial Institutions.</p> <p>The Fund will generally adopt a balanced portfolio between Shariah-compliant equities and Sukuk in the ratio of 50:50. The Sukuk portion of the Fund is to provide some capital stability to the Fund whilst the Shariah-compliant equities portion will be expected to provide the added return in a rising market. The Investment Manager will have the flexibility to adjust the asset allocation between Shariah-compliant equities and Sukuk provided that the asset allocation falls within 40% to 60% threshold. The allocation decision is based on the judgement of the Investment Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies, among other factors. In a rising market, the 60% limit may be exceeded. However, the Investment Manager and/or Sub-Investment Manager will seek to adjust this within three (3) months from the date the limit is exceeded. Notwithstanding the above, the Investment Manager will have the discretion to allocate up to 100% of the Fund’s assets into</p>

	Shariah-compliant equities, Sukuk or Islamic money market instruments for a period of up to six (6) months from the commencement date if the Fund size is below RM20 million after the end of the Initial Offer Period. As such, Unit Holders should note that during this period of time, the Fund's investment may deviate from the stipulated investment strategy and asset allocation.

Worst case	Capital loss and no income distribution.

KEY RISKS ASSOCIATED WITH THE FUND

Please be advised that if an investor invests in units through an institutional unit trust adviser which adopts the nominee system of ownership, the investor would not be considered to be a unit holder under the Fund's deed as the investor's name will not appear in the register of unit holders. The investor may consequently not have all the rights ordinarily exercisable by a unit holder (for example, the right to call for a unit holders' meeting and to vote thereat).

Credit and default risk	Credit risk relates to the creditworthiness of the issuers of Sukuk, Islamic money market instruments and/or Financial Institutions where the Islamic Deposits are placed and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer of the Sukuk, Islamic money market instruments and/or Financial Institutions where the Islamic Deposits are placed may impact the value as well as liquidity of the Sukuk, Islamic money market instruments and/or Islamic Deposits. In the case of rated Sukuk, Islamic money market instruments and Financial Institutions, this may lead to a credit downgrade.
-------------------------	---

	<p>Default risk relates to the risk that an issuer of a Sukuk, Islamic money market instrument or a Financial Institution where the Islamic Deposits are placed either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Sukuk, Islamic money market instruments and Islamic Deposits. This could adversely affect the NAV of the Fund.</p>
Interest rate risk	<p>Interest rate risk refers to the impact of interest rate changes on the valuation of Sukuk and/or Islamic money market instruments. When interest rates rise, Sukuk and/or Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in Sukuk and/or Islamic money market instruments. The reverse may apply when interest rates fall. Meanwhile, Sukuk and/or Islamic money market instruments with longer maturities and lower profit rates are more sensitive to interest rate changes.</p> <p>In addition, the Fund's placement in Islamic Deposits will also be affected by interest rate changes. In the event of a decreasing interest rate environment, banks may offer Islamic Deposits with lower profit rates, effectively reducing the potential returns of Islamic Deposits.</p>
Liquidity risk	<p>Liquidity risk refers to the ease of liquidating an investment depending on the investment's volume traded in the market. If the Fund hold securities that are illiquid, or are difficult to dispose of, the value of the Fund may be negatively affected when it has to sell such securities at an unfavourable price.</p>
Income distribution risk	<p>It should be noted that the distribution of income is not guaranteed. Circumstances preventing the distribution of income include, among others, unavailability of sufficient realised returns to enable income distribution as distribution of income may only be made from realised gains or realised income.</p>
Equity risk	<p>As the Fund will be investing in Shariah-compliant equities, the Fund will be affected by equity risk. Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund.</p>
Country risk	<p>The Fund is also subject to country risk. The value of the assets of the Fund may also be affected by the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund may invest in. Further, when investing in foreign markets, there are countries which may require prior approvals before investments can take place.</p>
Currency risk	<p>As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuations in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments.</p>
Reclassification of Shariah Status risk	<p>This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by Shariah Advisory Council of the SC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Investment Manager and/or Sub-Investment Manager will take the necessary steps to dispose such securities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess gains derived from the disposal of the Shariah non-compliant securities.</p>
Investment Manager risk	<p>Since the Manager has delegated the investment management function of the Fund to Investment Manager, they have absolute discretion over</p>

	the Fund's investment strategies. A failure on the part of the Investment Manager to display the requisite experience and expertise expected of them in making investment decisions for the Fund may jeopardize the Fund's performance and returns.
--	---

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Investors are advised to consult their professional adviser before investing. Please refer to the Prospectus under "Risk Factors" for further details on risks.
