When deemed necessary, we may use derivatives such as options, futures contracts, forward contracts or swaps for the purpose of hedging. In the event of a downgrade in the rating of a counterparty of an OTC derivative, we reserve the right to deal with the OTC derivative in the best interest of the Unit Holders. We will ensure that the Fund's global exposure from financial derivatives position does not exceed the Fund's NAV at all times. Such exposure will be calculated using the commitment approach as described in Appendix A.

Page 9 of Prospectus – Section 1.16 Investment Restrictions and Limits

The entire disclosure under this section is hereby deleted and replaced with the following:-

 - (b) a feeder fund; and
 - (c) any sub-fund of an umbrella scheme which is a fund-of-funds or a feeder fund.

G. CHAPTER 10: TAX ADVISER'S LETTER

Page 56 of Prospectus – CHAPTER 10: TAX ADVISER'S LETTER

The disclosure under this section is hereby deleted and replaced with the following:-

23 November 2022

The Board of Directors
UOB Asset Management (Malaysia) Berhad
Level 22, Vista Tower
The Intermark
348 Jalan Tun Razak
50400 Kuala Lumpur

Dear Sirs

**United Great Dragon Fund
Taxation of the Fund and Unit Holders**

1. This letter has been prepared for inclusion in the First Supplementary Prospectus (hereinafter referred to as “the Prospectus”) in connection with the offer of units in the United Great Dragon Fund (hereinafter referred to as “the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the Securities Commission Malaysia (“SC”) and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

2. **Taxation of the Fund**

- 2.1 **Income Tax**

As the Fund’s Trustee is resident in Malaysia, the Fund is regarded as resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the Income Tax Act, 1967. Effective from 1 January 2022, Paragraph 28 of Schedule 6 was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered

tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [PU(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [PU(A) 235/2022] on 19 July 2022 which took effect from 1 January 2022. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies and limited liability partnerships; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period from 1 January 2022 until 30 June 2022 is subject to the tax rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to Unit Holders are also not subject to Service Tax. The Fund would not be required to pay Service Tax on the acquisition of fund management services from the Fund Manager.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia :-

Unit Holders	Malaysian Tax Rates for Year of Assessment 2021	Malaysian Tax Rates for Year of Assessment 2022
<p>Malaysian tax residents:</p> <ul style="list-style-type: none"> ▪ Individual and non-corporate Unit Holders ▪ Co-operative societies ▪ Trust bodies ▪ Corporate Unit Holders <ul style="list-style-type: none"> i. ---	--	---

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Withholding Tax on Distribution from Retail Money Market Fund (“RMMF”) to Unit Holders

Distribution of income of a unit trust fund that is a RMMF to its Unit Holders (other than the distribution of interest income to non-individual Unit Holders) is exempted from tax in the hands of the Unit Holders. Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

Types of Unit Holders	Malaysian Tax Rates for Year of Assessment 2022
<p>Non-individual residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Income distribution carries a tax credit, which can be utilised to set off against the tax payable by the Unit Holders ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income
<p>Non-individual non-residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Withholding tax deducted will be regarded as a final tax ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 ("First Schedule"), only taxable services listed in the First Schedule are subject to service tax. This excludes any investment income or gains received by the Unit Holder as such income and gains are not prescribed taxable services.

The legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 January 2019, the imposition and scope of service tax has been widened to include any imported taxable service.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.

Yours faithfully

Prospectus in respect of the United Great Dragon Fund

Note: Any material change to the investment objective of the Fund would require Unit Holders' approval.

1.10 Investment Policy and Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 90% of the Fund's NAV in the Target Fund with the remaining balance in liquid assets.

When deemed necessary, we may use derivatives such as options, futures contracts, forwards contracts or swaps for the purpose of hedging. In the event of a downgrade in the rating of a counterparty of an OTC derivative, we reserve the right to deal with the OTC derivative in the best interest of the Unit Holders.

We may adopt a temporary defensive strategy that may be inconsistent with the Fund's investment strategy and asset allocation in response to adverse economic, political or any market condition. Under such circumstances, the Fund may hold up to 100% of its NAV in liquid assets.

If in our opinion, the Target Fund no longer meets the Fund's objective, we may, in consultation with the Trustee, liquidate the investments in the Target Fund and hold 100% of the Fund's NAV in liquid assets or replace the Target Fund with another fund with similar objective.

Note: A replacement of the Target Fund would require Unit Holders' approval.

- A minimum of 90% of the Fund's NAV in the Target Fund; and
- Up to 10% of the Fund's NAV in liquid assets.

1.12 Performance Benchmark

The risk profile of the Fund is not the same as the risk profile of the performance benchmark. There is no guarantee that the Fund will outperform the benchmark.

1.13 Investors' Profile

The Fund is suitable for investors who:-

- are seeking long-term capital appreciation;
- are looking for exposure to PRC companies across all sectors which are beneficiaries of technology, innovation and trends; and
- are comfortable with the volatility and risks of an equity fund.

1.14 Distribution Policy

Given the Fund's investment objective, the Classes of Units are not expected to pay any distribution. However, distribution (if any) is at our discretion.

For further details on the mode of distribution, please refer to Section 4.12 Mode of Distribution.

1.15 Permitted Investments

Unless otherwise prohibited by the relevant regulatory authorities or any relevant law and provided always that there are no inconsistencies with the objective of the Fund, the Fund is permitted to invest in the following:-

2. money market instruments;
3. Deposits;
4. financial derivatives instruments, including but not limited to options, futures contracts, forward contracts and swaps, for hedging purposes; and

 - (b) a fund-of-funds;
 - (c) a feeder fund; and
 - (d) any sub-fund of an umbrella scheme which is a fund-of-funds or a feeder fund.
2. For a feeder fund that invests in a sub-fund of an umbrella scheme, the sub-fund of the umbrella scheme should be treated as if it is a separate collective investment scheme.

1.17 Risk Factors

1.17.1 General Risks of Investing in a Unit Trust Fund

Whilst we believe that the investment policy will be effective and that investment in unit trust funds may be rewarding, investors should be aware that there are risks associated with their investment in unit trust funds. Below are some of the **general risks** which investors should be aware of when investing in a unit trust fund:

Market Risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.

Manager Risk

This risk refers to the day-to-day management of the fund by the management company which will impact the performance of the fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

Inflation Risk

This is the risk that investors' investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

Non-compliance Risk

Non-adherence with the laws, rules, regulations, prescribed practices, internal policies and procedures may result in tarnished reputation, limited business opportunities and reduced expansion potential for us. Investment goals may also be affected should we not adhere to the investment mandate (such as a unit trust fund's investment objective and investment policy and strategy). The non-adherence may be the

Prospectus in respect of the United Great Dragon Fund

outcome from human error (for instance our oversight) or system failure (causing unnecessary downtime). The magnitude of such risk and its impact on the unit trust fund and/or unit holders are dependent on the nature and severity of the non-compliance. In order to mitigate this risk, we have stringent internal controls and ensures that compliance monitoring processes are undertaken.

Loan Financing Risk

This risk occurs when investors take a loan or financing facility to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan.

1.17.2 Specific Risks associated with the investment portfolio of the Fund

Below are some of the **specific risks** when investing in the Fund; these may include but are not limited to:

(a) Target Fund Risk

The Fund is a feeder fund which invests a minimum of 90% of its NAV into the Target Fund at all times. All investment decisions on the Target Fund are left with the Target Fund's fund manager and we will have no control over the investment processes and decisions made by the Target Fund. As such, the Fund is exposed to the risk of its NAV declining when the Target Fund's NAV declines.

(b) Currency Risk

Currency risk at the Fund level

Fluctuations in the exchange rate between the Base Currency and the currencies in which the investments are denominated (at Fund or Target Fund level) may have an impact on the value of the Fund. While the Fund invests into the Class A USD Acc of the Target Fund which is the same as the Fund's Base Currency, investors should be aware that if the currencies in which the investments (of the Target Fund) are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Investors should also note that any gains or losses arising from the fluctuation in exchange rate may further increase or decrease the returns of the investment.

Currency risk at the Class level

Any fluctuation in the exchange rates between the Base Currency and the currency denomination of the respective Class(es) which are different from the Base Currency may also have an impact on the value of investor's holdings.

Investors of the hedged Class(es) will be subject to minimal currency risk as we will as much as practicable mitigate this risk by hedging the currency denomination of the hedged Class(es) against the Base Currency of the Fund, i.e. USD. Investors should note that this hedging may not fully eliminate the currency risk on the hedged Class(es). In addition, by employing this hedging, investors would not be able to enjoy the additional currency gains when Base Currency moves favourably against the currency denomination of the hedged Class(es). Additional transaction costs of hedging will also be borne by investors of the hedged Class(es).

Investors in the USD Class will not be subject to currency risk at the Class level as it is denominated in the same currency as the Base Currency of the Fund.

For further explanation of currency risk at the Target Fund level, please refer to *Foreign Exchange and Currency Risk* faced by the Target Fund on page 16.

(c) Risk of Limitation on Realisation of the Target Fund

As the Fund will be investing a minimum of 90% of its NAV in the Target Fund, the realisation proceeds of the Fund are subject to the provisions of the deed of the Target Fund. The Management Company may limit the total number of units to be realised by the holders or cancelled by the Management Company on any dealing day to 10% of the total number of units of the Target Fund or any class of the Target Fund then in issue. Investors are advised to understand the limitation on realisation of the Target Fund at Section 2.6 Limitation on Realisation.

Under such circumstance, we will apply such limitation proportionately to all Unit Holders who have validly requested realisations on such dealing day.

(d) Risk of Compulsory Realisation of the Target Fund

As the Fund will be investing a minimum of 90% of its NAV in the Target Fund, any event of compulsory realisation occurred on the Target Fund will have an impact to the Fund. Investors are advised to understand the compulsory realisation of the Target Fund at Section 2.7 Compulsory Realisations.

Under such circumstances, we, in consultation with the Trustee will call for a Unit Holder's meeting to decide on whether to terminate the Fund or replace the Target Fund with a new target fund with similar investment objective.

Note: A replacement of the Target Fund or termination of the Fund would require Unit Holders' approval.

1.17.3 Specific Risks related to the Target Fund

Equity Risk

The Target Fund's investments in stocks and other securities including, without limitation, exchange traded funds and equity-related securities such as depositary receipts are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. This in turn may affect the value or volatility of the Target Fund.

Default and Insolvency Risk for Bank Deposits

Deposits with banks and other financial institutions are subject to adverse changes in the financial conditions of such institutions, or in general economic conditions, or both, which may impair the ability of such institutions to make payments of interest and to return the principal. Such institutions' ability to meet their obligations may also be adversely affected by their operation, performance or winding-up, which may increase the potential for default by such institutions. Any default by such institutions could result in substantial losses to the Target Fund.

Liquidity Risk for Bank Deposits

Term or fixed deposits may be subject to early withdrawal charges or deductions. In particular, where the Target Fund faces a large realisation request which requires the Target Fund to withdraw its deposits prematurely, the relevant institutions may impose early withdrawal charges or deductions, which will be borne by the Target Fund and ultimately its holders.

Concentration Risk

Concentration of the Target Fund's investments in a relatively small number of securities, sectors or industries, or geographical regions may significantly affect the performance of the Target Fund.

PRC-related risks

a) Economic risk

The economy of the PRC differs from the economies of most developed countries in many respects, including with respect to government involvement in its economy, level of development, growth rate and control of foreign exchange. The regulatory and legal framework for capital markets and companies in the PRC is not well developed when compared with those of developed countries.

The economy in the PRC has experienced rapid growth in recent years. However, such growth may or may not continue, and may not apply evenly across different sectors of the PRC's economy. All these may have an adverse impact on the performance of the Target Fund concerned.

b) Legal and regulatory risk

The legal system of the PRC is based on written laws and regulations. However, many of these laws and regulations are still untested and the enforceability of such laws and regulations remains unclear. In particular, regulations which govern currency exchange in the PRC are relatively new and their application is uncertain. Such regulations also empower the CSRC and SAFE to exercise discretion in their respective interpretation of the regulations, which may result in increased uncertainties in their application.

c) Dependence upon trading market for A-Shares

The PRC Stock Exchanges on which A-Shares are traded are undergoing development. Market volatility in the A-Share markets may result in significant fluctuation in the prices of the securities traded on such markets and thereby changes in the net asset value of the Target Fund.

If sizeable redemption requests are received in the absence of a liquid trading market for A-Shares, the Target Fund may need to liquidate its investments at a substantial discount in order to satisfy such requests and the Target Fund may suffer losses in trading such securities.

d) A-Share market suspension risk

A-Shares may only be bought from, or sold to, the Target Fund from time to time where the relevant A-Shares may be sold or purchased on the PRC Stock Exchanges. Given that the A-Share market is considered volatile and unstable (with the risk of suspension of a particular stock or government intervention), the subscription and redemption of Units may also be disrupted.

e) Disclosure of substantial shareholding

Under the PRC's disclosure of interest requirements, the Target Fund investing in A-Shares via the Management Company's RQFII quota may be deemed to be acting in concert with other funds managed within the Management Company group of companies or by the Management Company's substantial shareholders and therefore may be subject to the risk that the Target Fund's holdings may have to be reported in aggregate with the holdings of such other funds mentioned above should the aggregate holding trigger the reporting threshold under PRC law, currently being 5% of the total issued shares of the relevant PRC listed company. This may expose the Target Fund's holdings to the public and may adversely impact the performance of the Target Fund.

In addition, subject to the interpretation of PRC courts and regulators, certain provisions contained in the PRC laws and regulations may be applicable to the Target Fund's investments with the result that where the holdings of the Target Fund (possibly with the holdings of other investors deemed as concert parties of the Target Fund) exceed 5% of the total issued shares of a PRC listed company, the Target Fund may not reduce its holdings in such company within 6 months of the last purchase of shares of such company. If the Target Fund violates the rule and sells any of its holdings in such company in the 6-month period, it may be required by the listed company to return any profits realised from such trading to the listed company.

Moreover, under PRC's civil procedures, the Target Fund's assets may be frozen to the extent of the claims made by such company.

f) RQFII risks

i. Investment through the Management Company's RQFII quota

Under the prevailing regulations in the PRC, foreign investors can only invest in eligible securities through institutions that have obtained QFII or RQFII status in the PRC. As of the date of registration of the prospectus of the Target Fund, it is intended that the Target Fund invests directly in RQFII Eligible Securities via the Management Company's RQFII status.

There are rules and restrictions under current RQFII Regulations including rules on investment restrictions and rules on repatriation of principal and profits, which are applicable to the RQFII as a whole and not only to the investments made by the Target Fund. Such rules and restrictions imposed by the PRC government on RQFIIs may have an adverse effect on the Target Fund's liquidity and performance.

RQFII restrictions on investments apply to the quota granted to a RQFII as a whole. Thus, any violation of the RQFII Regulations on investments arising out of activities of the RQFII could result in the revocation of or other regulatory actions in respect of the quota of such RQFII as a whole, including any portion utilised by the Target Fund for investment in RQFII Eligible Securities.

As there are limits on the total shares held by the RQFII, as well as all underlying investors (including the RQFII), in one listed company under the RQFII Regulations, the capacity of

the Target Fund to make investments in A-Shares will be affected by the activities of all underlying investors and not just the Management Company's activities.

ii. RQFII Regulations

The RQFII Regulations which regulate investments by RQFIIs in the PRC and repatriation of funds are relatively new and novel in nature. The application and interpretation of the RQFII Regulations are therefore relatively untested and there is uncertainty as to how they will be applied. CSRC and SAFE have been given wide discretions in the RQFII Regulations and there is no precedent or certainty as to how these discretions might be exercised now or in the future. At this stage of early development, the RQFII Regulations may be subject to further revisions in the future, there is no assurance whether such revisions will prejudice the RQFII, or whether the Management Company's RQFII quota which is subject to review from time to time by CSRC and SAFE may be removed substantially or entirely.

The RQFII Regulations continue to develop and are undergoing continual change. CSRC and/or SAFE may have power in the future to impose new restrictions or conditions on or terminate the Management Company's RQFII status which may adversely affect the Target Fund and its holders. It is not possible to predict how such changes would affect the Target Fund.

iii. RQFII quotas

The Target Fund will utilise the Management Company's RQFII quota granted under the RQFII Regulations. This quota is limited and may be reached. Moreover, the Management Company may allocate its RQFII quota across different public fund products under the Management Company's management from time to time or (subject to SAFE approval) to products or accounts that are not public fund products but under the Management Company's management. As such, the Target Fund does not have exclusive use of a specified amount of the Management Company's RQFII quota and will depend on the Management Company's allocation of such quota. There can be no assurance that the Management Company will continue to maintain its RQFII status or make available a sufficient portion of its RQFII quota to the Target Fund to meet all applications for subscriptions. Such limitations may result in a rejection of applications or a suspension of new subscriptions into the Target Fund.

Should the Management Company lose its RQFII status or retire or be removed from its position as the Management Company of the Target Fund, or its RQFII quota be revoked or reduced, the Target Fund may not be able to invest in RQFII Eligible Securities through its RQFII quota, and may be required to dispose of its holdings, which would likely have a material adverse effect on the Target Fund.

For each RQFII quota approved by SAFE, the relevant RQFII is required to utilise the RQFII quota effectively within one year from the SAFE approval date. If the Management Company fails to utilise its RQFII quota effectively within the applicable timeframe, SAFE could reduce or revoke its RQFII quota depending on the circumstances.

iv. Limits on redemption

Where the Target Fund is invested in PRC's securities market through the Management Company's RQFII quota, repatriation of funds from the PRC may be subject to the RQFII Regulations in effect from time to time. Currently, regulatory prior approval is not required for repatriation of funds under its RQFII quota. However, there is no assurance that the RQFII Regulations will not change or that regulatory restrictions will not be imposed on the repatriation of funds in the future. Investment regulations and/or the approach adopted by SAFE in relation to the repatriation may change from time to time.

v. PRC Custodian and PRC Broker risk

RQFII Eligible Securities acquired by the Target Fund through the Management Company's RQFII quota will be maintained by the PRC Custodian in electronic form via a securities account with the China Securities Depository and Clearing Corporation and a cash account with the PRC Custodian.

Prospectus in respect of the United Great Dragon Fund

The Management Company will also select one or more PRC Brokers to execute transactions for the Target Fund in the PRC markets. If, for any reason, the Target Fund ability to use a PRC Broker is affected, this could disrupt the operations of the Target Fund. The Target Fund may also incur losses due to the acts or omissions or insolvency of the PRC Brokers or the PRC Custodian in the execution or settlement of any transaction or in the transfer of any funds or securities.

According to the RQFII Regulations and market practice, the securities and cash accounts for the Target Fund in the PRC are to be maintained in the name of (for example) "UOB ASSET MANAGEMENT LTD - UNITED CHINA A-SHARES INNOVATION FUND". Notwithstanding these arrangements, the RQFII Regulations are subject to the interpretation of the relevant authorities in PRC; and given that pursuant to the RQFII Regulations, the Management Company, as the RQFII, will be the party entitled to the securities (albeit not constituting an ownership interest), the securities of the Target Fund may be vulnerable to a claim by a liquidator against the Management Company and may not be as well protected as if they were registered solely in the name of the Target Fund. There is a risk that the Management Company's creditors may incorrectly assume that the Target Fund's assets belong to the Management Company and such creditors may seek to gain control of the Target Fund's assets to meet the Management Company's liabilities.

Investors should note that cash deposited in the cash account of the Target Fund with the PRC Custodian will not be segregated but will be a debt owing from the PRC Custodian to the Target Fund as a depositor. Such cash will be co-mingled with cash belonging to other clients of the PRC Custodian. In the event of bankruptcy or liquidation of the PRC Custodian, the Target Fund will not have any proprietary rights to the cash deposited in such cash account, and the Target Fund will become an unsecured creditor ranking *pari passu* with all other unsecured creditors of the PRC Custodian. The Target Fund may face difficulty and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Target Fund will suffer losses.

vi. Foreign exchange controls

Renminbi is currently not a freely convertible currency and is subject to exchange controls imposed by the PRC government. As the Target Fund invests in the PRC, such controls could affect the repatriation of funds or assets out of the country, thus affecting the ability of the Target Fund to satisfy realisations.

vii. CNY and CNH differences risk

While both CNY and CNH are the same currency, they are traded in different and separated markets. CNY and CNH are traded at different rates and their movement may not be in the same direction. Although there has been a growing amount of Renminbi held offshore (i.e. outside the PRC), CNH cannot be freely remitted into PRC and is subject to certain restrictions, and vice versa. You should note that subscriptions and realisations of units of the Target Fund will be in the relevant class currency, and will be converted to/from CNH and the holder will bear the foreign exchange expenses associated with such conversion and the risk of a potential difference between the CNY and CNH rates. The liquidity and the net asset value of the Target Fund may also be adversely affected by the rate and liquidity of Renminbi outside the PRC.

viii. PRC tax risk

As a result of investing in RQFII Eligible Securities, the Target Fund may be subject to withholding and other taxes imposed by the PRC. Investors should be aware that any changes or clarifications in the PRC taxation legislation may be retrospective in nature and could affect the amount of income which may be derived and the amount of capital returned from the Target Fund's investments. Laws governing taxation may continue to change and may contain conflicts and ambiguities.

Under current PRC tax law, there are no specific rules or regulations governing the taxation of RQFIIs. The tax treatment for a RQFII investing in RQFII Eligible Securities is governed by the general taxation provisions of the Corporate Income Tax Law of the PRC ("CIT Law") effective on 1 January 2008. This is on the basis that the RQFII would be managed and operated such that it would not be considered a tax resident enterprise in the PRC and would

Prospectus in respect of the United Great Dragon Fund

not be considered to have a permanent establishment in the PRC. Under CIT Law, a 10% withholding income tax shall be imposed on PRC-sourced income (including gains from transfers of RQFII Eligible Securities) for a foreign enterprise that does not have any establishment or place of business in the PRC, or that has an establishment or place of business in the PRC but whose income is not effectively connected with such establishment or place of business.

The State Administration of Taxation has issued a circular Guoshuihan 2009 No. 47 on 23 January 2009 clarifying that QFIIs are subject to 10% withholding tax on dividends and interest income that are sourced in the PRC. However, the position with regard to taxation of QFIIs or RQFIIs and the Target Fund in respect of their gains and profits other than dividends and interest income remains unclear.

Also the PRC tax authorities have not clarified whether income tax is payable on capital gains arising from securities trading RQFIIs. The relevant tax authorities may in the future clarify the tax position and impose an income tax or withholding tax on realised gains by RQFIIs from dealing in PRC Securities.

There is a risk the PRC tax authorities may seek to collect tax on capital gains without giving any prior warning, and possibly, on a retrospective basis. If such tax is collected, the tax liability will be payable by the RQFII. In such event, any tax levied on and payable by the RQFII may be passed on to and borne by the Target Fund to the extent that such tax is indirectly or directly attributable to the Target Fund through its holdings of RQFII Eligible Securities. Under the terms of the deed of the Target Fund, there shall be payable out of the Deposited Property (by way of direct payment or reimbursement to the Trustee or the Management Company) all taxation payable in respect of the income of the Target Fund or the holding of or dealings with any Deposited Property of the Target Fund.

In light of the uncertainties in the taxation position, some or all of the RQFIIs may withhold certain amounts in anticipation of PRC withholding tax on capital gains attributed to the quotas held by the RQFIIs. The amount withheld by the RQFIIs may be held by them for a specified period of time or indefinitely.

The Management Company is of the opinion that a reserve may be warranted and may establish such a reserve in respect of the Target Fund ("Reserve"). This Reserve is intended to cover potential PRC tax liabilities which may arise from realised and/or unrealised gains relating to investments in RQFII Eligible Securities by the Target Fund.

Upon the clarification by the PRC tax authorities of the tax liability to the advantage of the RQFII and/or the Target Fund, all or part of the Reserve may be rebated to and retained by the Target Fund. In the event that the PRC tax authorities' clarification results in a disadvantageous outcome for the RQFII and/or the Target Fund, there is no guarantee that the Reserve or withheld amounts by the Management Company (the "withheld amounts") will be enough to cover such PRC tax liabilities. If the withheld amounts or Reserve is insufficient to satisfy the PRC tax liabilities, such tax liabilities may have to be satisfied from the Deposited Property of the Target Fund, which will lower the Target Fund's net asset value.

Investors should note that as and when the PRC tax authorities provide clarity on the position, treatment and implications of taxation of RQFIIs, such implications may have a retrospective effect such that the net asset value of the Target Fund may be lower or higher than what was calculated at the relevant time. In addition, before published guidance is issued and is well established in the administrative practice of the PRC tax authorities, the practices with respect to investments in RQFII Eligible Securities may differ from, or be applied in a manner inconsistent with, the practices with respect to the analogous investments described herein or any new guidance that may be issued. In this regard, investors who had realised their units in the Target Fund prior to any credit made into the Target Fund as a result of the PRC tax authorities' clarification on the tax position of RQFIIs shall not have the benefit or right to any amount so credited.

Prospectus in respect of the United Great Dragon Fund

In the event the Target Fund is terminated before the PRC tax authorities provide clarity, the Reserve may either be retained by or transferred to the Trustee on behalf of the Target Fund. In this situation, the investors will not have any right or claim on such amount until clarification by the PRC tax authorities.

Foreign Exchange and Currency Risk

The Fund will be investing in the Class A USD Acc of the Target Fund, which is denominated in USD. Where the Target Fund makes investments which are denominated in a currency that is different from the Target Fund, fluctuations of the exchange rates of the currency of the Target Fund's investments may affect the value of the units. In the management of the Target Fund, the Management Company may hedge the foreign currency exposure of the Target Fund and may adopt an active or passive currency management approach. However, the foreign currency exposure of the Target Fund may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

Note: The Fund will be investing in the Class A USD Acc of the Target Fund, which is denominated in USD.

1.18 Risk Mitigation

The risk management strategies and techniques employed will be at the Target Fund level, please refer to Section 1.17.3 Specific Risks related to the Target Fund for more information on the risk management procedures on certain investments.

In addition, we may take temporary defensive positions that may be inconsistent with the Fund's investment strategy in response to adverse economic, political or market conditions. In such circumstances, the Fund may hold up to 100% of its assets in liquid assets as a defensive strategy. As a result, the Fund's performance may deviate from the Target Fund's performance. The Fund will also be monitored daily to ensure compliance with the permitted investments and restrictions.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH POTENTIAL INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. POTENTIAL INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME.

YOU SHOULD RELY ON YOUR OWN EVALUATION TO ASSESS THE MERITS AND RISKS OF AN INVESTMENT. YOU SHOULD READ AND UNDERSTAND THE CONTENTS OF THIS PROSPECTUS AND, IF NECESSARY, CONSULT YOUR ADVISER(S) BEFORE MAKING AN INVESTMENT DECISION.

foreign exchange rates or currencies. In the case of financial derivatives on commodities, such transactions should be settled in cash at all times. The manager should also undertake in the trust deed to settle such transactions in cash and disclose the fact in the prospectus;

- b) the financial derivatives are liquid;
- c) the financial derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value; and
- d) the financial derivatives should not result in the delivery of investments other than those described in paragraph A1.1(a) to (f)

OTC financial derivatives

A1.5 In the case of OTC financial derivatives, reliable and verifiable valuation stated in paragraph A1.4(c) refers to:-

- a) a valuation made by the manager based on a current market value; or
- b) where such value is not available, a fair value based on an appropriate valuation model which is checked at an appropriate frequency by an independent party.

The valuation by the manager should not be based solely on a valuation provided by the counterparty to the transaction.

A2 Spread of Investments

Single entity limit and group limit

A2.1 The Target Fund should comply with the following limits:-

- a) Investments in:
 - i) transferable securities; or
 - ii) money market instruments

issued by a single entity should not exceed 10% of the Target Fund's net asset value ("single entity limit").

- b) Aggregate investments in, or exposures to, a group of entities through:
 - i) transferable securities;
 - ii) money market instruments;
 - iii) eligible deposits; and
 - iv) counterparty risk exposures arising from the use of OTC financial derivatives

should not exceed 20% of the Target Fund's net asset value ("group limit"). For the purposes of this paragraph, a group of entities refers to an entity, its subsidiaries, fellow subsidiaries and its holding company.

Government and other public debt securities / money market instruments

A2.2 The single entity limit of 10% may be raised to 35% of the Target Fund's net asset value where:-

- a) the issuing entity or trust is, or the issue is guaranteed by, either a government, government agency or supranational, that has a minimum long-term rating of BBB by Fitch, Baa by Moody's or BBB by Standard and Poor's (including such sub-categories or gradations therein); and
- b) except for schemes with a fixed maturity, not more than 20% of the Target Fund's net asset value may be invested in any single issue of transferable securities or money market instruments by the same entity or trust.

A2.3 If there is a downgrade in rating to that below the minimum rating as stated in paragraph A2.2(a), or if the rating agencies no longer rate the entity or the guarantor, the single entity limit should revert to 10%.

A2.4 The single entity limit of 10% does not apply where:-

- a) the issuing entity or trust is, or the issue is guaranteed by, either a government, government agency or supranational, that has a minimum long-term rating of AA by Fitch, Aa by Moody's or AA by Standard and Poor's (including such sub-categories or gradations therein); and

Prospectus in respect of the United Great Dragon Fund

- b) except for schemes with a fixed maturity, not more than 20% of the Target Fund's net asset value may be invested in any single issue of transferable securities or money market instruments by the same entity or trust.

A2.5 If there is a downgrade in rating to that below the minimum rating as stated in paragraph A2.4(a), or if the rating agencies no longer rate the entity or the guarantor, the single entity limit as specified in paragraph A2.1(a) or A2.2, as the case may be, should apply accordingly.

Concentration limit

A2.6 The Target Fund should not invest in more than:-

- a) 10% of the total outstanding shares, or securities equivalent to shares, of any single entity or trust; and
- b) 10% of the money market instruments of a single issuing entity or trust.

A3 Global Exposure

A3.1 The global exposure of the Target Fund to financial derivatives or embedded financial derivatives should not exceed 100% of the Target Fund's net asset value at all times.

A3.2 The manager should calculate the global exposure of the Target Fund based on the:-
a) Commitment Approach.

Commitment Approach

A3.3 The global exposure of the Target Fund is calculated as the sum of:-

- a) the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;
- b) the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and
- c) the sum of the values of cash collateral received pursuant to:
 - i) the reduction of exposure to counterparties of OTC financial derivatives; and
 - ii) Efficient portfolio management techniques relating to securities lending and repurchase transactions, and that are reinvested.

Netting arrangements

A3.4 Netting arrangements may be taken into account to reduce the Target Fund's exposure to financial derivatives

A3.5 The Target Fund may net positions between:-

- a) financial derivatives on the same underlying assets, even if the maturity dates are different; or
- b) financial derivatives and the same corresponding underlying asset, if those underlying assets are transferable securities, money market instruments or units in other schemes.

Hedging arrangements

A3.6 Hedging arrangements may be taken into account to reduce the Target Fund's exposure to financial derivatives.

A3.7 The marked-to-market value of transferable securities, money market instruments or units in schemes involved in hedging arrangements may be taken into account to reduce the Target Fund's exposure to financial derivatives.

A3.8 For the purposes of paragraphs A3.6 and A3.7, the hedging arrangement should:-

- a) not be aimed at generating a return;
- b) result in an overall verifiable reduction of the risk of the Target Fund;
- c) offset the general and specific risks linked to the underlying being hedged;
- d) relate to the same asset class being hedged; and
- e) be able to meet its hedging objective in all market conditions.

A3.9 Notwithstanding paragraph A3.8, financial derivatives used for the purposes of hedging currency exposure may be netted when calculating the global exposure.

Exposure arising from reinvestment of cash collateral
 A3.10 The Target Fund which reinvests cash collateral received from counterparties of OTC financial derivatives, securities lending or repurchase transactions to generate a return in excess of high quality 3-month government bonds should include in its global exposure calculations the cash amount reinvested.

A4 Use of Financial Derivatives

Spread of underlying assets

A4.1 The exposure of the Target Fund to the underlying assets of financial derivatives should be sufficiently diversified on a portfolio basis.

A4.2 In the case where the underlying assets are:
 a) transferable securities, money market instruments, eligible deposits or units in other schemes, the limits in section A2 above, except for the concentration limits, apply;
 b) commodities, the limits in section 4 of *Appendix 5* of the Code: Index Funds apply; and
 c) indices, paragraphs A4.2(a) and (b) apply to each constituent of the index, where applicable,

on a portfolio basis.

Exposure to financial derivatives – Commitment Approach

A4.3 The exposure of the Target Fund to financial derivatives under the Commitment Approach in paragraph A3.3 is described below. Exposure is determined by converting the positions in financial derivatives into equivalent positions in the underlying assets.

Calculation methods

A4.4 Table 1 below sets out the methods for calculating the exposure of various financial derivatives under the Commitment Approach.

A4.5 The exposure to financial derivatives under the Commitment Approach should be converted into the base currency of the Target Fund by using the spot rate.

A4.6 Where a currency financial derivative has two legs that are not in the base currency of the Target Fund, the exposure to both legs should be accounted for under the Commitment Approach.

A4.7 For financial derivatives not covered in Table 1 below or where the methods do not provide an adequate and accurate assessment of the risks relating to the financial derivatives, the manager should inform and justify to the Authority of the alternative method applied.

A4.8 The calculation methodology of the alternative method referred to in paragraph A4.7 should be based on the market value of the equivalent position in the underlying asset, although the notional value or price of the financial derivative may be used if it is more conservative. Where a more conservative calculation is used, hedging and netting arrangements, as set out in paragraphs A3.4 to A3.9, should not be taken into account to reduce the exposure to the financial derivative involved if it results in an underestimation of the global exposure.

A5 Counterparty of Financial Derivatives

OTC financial derivatives

- A5.1 The counterparty of an OTC financial derivative should be subject to prudential supervision by a financial supervisory authority in its home jurisdiction.
- A5.2 Subject to the group limit in paragraph A2.1, the maximum exposure of the Target Fund to the counterparty of an OTC financial derivative may not exceed:
- in the case of an eligible financial institution described in paragraph A5.3, 10% of the Target Fund's net asset value; or
 - in any other case, 5% of the Target Fund's net asset value
- ("counterparty limits").
- A5.3 For the purpose of paragraph A5.2, an eligible financial institution should have a minimum long-term rating of A by Fitch Inc., A by Moody's Investors Service or A by Standard and Poor's (including sub-categories or gradations therein). Alternatively, where the financial institution is not rated, the Target Fund should have the benefit of a guarantee by an entity which has a long-term rating of A (including sub-categories or gradations therein).
- A5.4 The exposure to a counterparty of an OTC financial derivative should be measured based on the maximum potential loss that may be incurred by the Target Fund if the counterparty defaults and not on the basis of the notional value of the OTC financial derivative.

Exchange-traded financial derivatives

- A5.5 Financial derivatives which:
- are transacted on an exchange where the clearing house performs a central counterparty role; and

Prospectus in respect of the United Great Dragon Fund

- b) have trades which are characterised by a daily marked-to-market valuation of the financial derivative positions and subject to at least daily margining,

The Management Company may, with the approval of the trustee of the Target Fund and subject to the provisions of the deed of the Target Fund, limit the total number of units to be realised by the holders or cancelled by the Management Company on any dealing day to 10% of the total number of units of the Target Fund or any class of the Target Fund then in issue. Such limitation will be applied proportionately to all holders who have validly requested realisations on such dealing day and to the Management Company.

Any units which are not realised or cancelled will be realised or cancelled on the next dealing day, provided that if the number of units to be realised or cancelled still exceeds such limit, the Management Company may continue to carry forward the realisation or cancellation requests in the same manner, until such time as the total number of units to be realised or cancelled on a dealing day falls within such limit. As a result, the Fund's redemption proceeds from the Target Fund may be delayed. Please refer to Section 4.4 Redemption of Units for the schedule of redemption proceeds for the respective Classes of Units.

If realisation requests are so carried forward and the holders of the Target Fund are affected, the Management Company will notify the holders within 7 business days. Realisation requests which have been carried forward from an earlier dealing day shall be dealt with in priority to later requests.

The Management Company has the right (in consultation with the trustee of the Target Fund) to compulsorily realise any holdings of units in the Target Fund held by:-

- (b) any holder whose holdings, in the opinion of the Management Company:-
 - (i) may cause the Target Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (ii) may cause the offer of the units of the Target Fund, the Target Fund, the prospectus of the Target Fund, the deed of the Target Fund, the Management Company or the trustee of the Target Fund to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any holder whose holdings, in the opinion of the Management Company:-
 - (i) may cause a detrimental effect on the tax status of the Target Fund in any jurisdiction or on the tax status of the holder of the Target Fund; or
 - (ii) may result in the Target Fund or other holders of the Target Fund suffering any other legal or pecuniary or administrative disadvantage which the Target Fund or holders might not otherwise have incurred or suffered; or
- (d) any holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by the Management Company and/or the trustee of the Target Fund for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the holder (or the holder has failed to provide the same) in a timely manner; or
- (e) any holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Management Company and/or the trustee of the Target Fund pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives

Any compulsory realisation under this paragraph may be carried out by the Management Company on any dealing day, with prior notice to the relevant holder, and shall be carried out in accordance with, and at the realisation price determined under, the applicable provisions on realisations in the deed of the Target Fund.

If the Management Company and/or the trustee of the Target Fund are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any units held by a holder, the Management Company (in consultation with the trustee of the Target Fund) shall be entitled, at any time with prior notice to that holder, to realise such number of units held by that holder as may be necessary to discharge the liability arising. The Management Company and/or the trustee of the Target Fund (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

The Management Company, the trustee of the Target Fund and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any holder or any party arising out of or caused in whole or in part by any actions which are taken by the Management Company, trustee of the Target Fund and/or any of their respective delegates, agents or associates under this Section 2.7 Compulsory Realisations.

CHAPTER 4: TRANSACTION INFORMATION

4.1 Sale and Purchase of Units

4.1.1 Computation of NAV and NAV per Unit of the Fund

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point. For the purpose of computing the annual management fee and annual trustee fee, the NAV of the Fund is inclusive of the management fee and trustee fee for the relevant day.

The NAV per Unit of a Class of Units is the NAV of the Fund attributable to a Class of Units divided by the number of Units in circulation for that particular Class of Units, at the same valuation point.

The valuation of the Fund will be carried out in the Base Currency. Accordingly, all assets that are not denominated in USD will be translated to USD for valuation purposes. The foreign exchange rate used for this purpose shall be the bid foreign exchange rate quoted by Reuters or other reputable information service providers at 4.00 p.m. United Kingdom time or such rate or method as may be prescribed under the relevant laws from time to time.

Due to multiple Classes of Units in the Fund, the income, expenses, indirect fees and/or charges for the Fund are apportioned based on the value of the Class of Units of the Fund (quoted in the Base Currency) relative to the value of the whole Fund (also quoted in the Base Currency), which is shown as multi-class ratio.

An illustration of computation of NAV and the NAV per Unit for a particular day:-

	Fund	MYR Hedged Class	RMB Hedged Class	USD Class
Units in circulation	203,300,000.00	133,000,000.00	56,000,000.00	14,300,000.00
Opening NAV in Base Currency	27,940,000.00	16,500,000.00	4,000,000.00	7,440,000.00
Multi-class ratio (%)	100	59.06	14.32	26.63
Add Income for the day	100,000.00	16,870.64	48,076.92	35,052.44
Less Expenses for the day	-100,000.00	-16,870.64	-48,076.92	-35,052.44

4.2 Pricing of Units

We adopt the single pricing policy which is in line with the SC's requirement for the Malaysian unit trust industry. Under this regime, both the selling price and buying price of Units will be quoted based on a single price, i.e. the net asset value per unit of the fund.

The daily NAV per Unit of the Fund is valued at the next valuation point after a purchase request or a redemption request is received by us, i.e., on Forward Price basis.

Example:

Making an investment

Assuming the NAV per Unit on 2 December 2020 is RM0.5263 and there is a sales charge of 5% of the NAV per Unit imposed by us; if a Unit Holder intends to invest a sum of RM10,000.00 in the Fund, the amount that a Unit Holder will have to pay as sales charge will therefore be:-

$$\begin{aligned} \text{Sales charge} &= 5\% \times (\text{amount to be paid}) \\ &= 5\% \times \text{RM}10,000 \\ &= \text{RM}500 \end{aligned}$$

The total amount that will have to be paid to us will therefore be:

$$\begin{aligned} \text{Total to be paid} &= \text{amount to be invested} + \text{sales charge} \\ &= \text{RM}10,000 + \text{RM}500 \\ &= \text{RM}10,500 \end{aligned}$$

The number of Units that will be allocated to the Unit Holder will therefore be:

$$\begin{aligned} \text{Units allocated to the} &= \frac{\text{amount to be invested}}{\text{NAV per Unit}} \\ \text{Unit Holder} &= \frac{\text{RM}10,000}{\text{RM}0.5263} \\ &= \underline{19,000.57 \text{ Units}} \end{aligned}$$

Please note that the calculation set out above is for illustration purposes only.

Redeeming an investment

Assuming the NAV per Unit on 2 December 2020 is RM0.5263 and there is no redemption charge for this Fund; if a Unit Holder intends to redeem 10,000 Units from the Fund, the amount that we will have to pay to Unit Holder will therefore be:-

$$\begin{aligned} \text{Units redeemed by Unit Holder} &= 10,000 \text{ Units} \\ \text{Amount payable to} &= \text{Units redeemed} \times \text{NAV per Unit} - \text{redemption charge} \\ \text{Unit Holder} &= 10,000 \text{ units} \times \text{RM}0.5263 - 0\% \\ &= \underline{\text{RM}5,263.00} \end{aligned}$$

Please note that the calculation set out above is for illustration purposes only.

Incorrect Pricing

Subject to any relevant law, if there is an error in the pricing of the NAV per Unit of the Fund, we will take immediate remedial action to correct the error. Rectification shall, where necessary, extend to the reimbursements of money as follows if the error is at or above the significant threshold of 0.5% of the NAV per Unit:

Prospectus in respect of the United Great Dragon Fund

- (a) if there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- (b) if there is an over pricing in relation to the redemption of Units, we shall reimburse the Fund;
- (c) if there is an under pricing in relation to the purchase and creation of Units, we shall reimburse the Fund; and
- (d) if there is an under pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

We retain the discretion whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on a Unit Holder's account of each Class of Units is less than RM10.00 or an equivalent denomination in the currency that a particular Class of Units is denominated, if applicable. This is because the reprocessing costs may be greater than the amount of the adjustment.

Policy on rounding adjustment

In calculating a Unit Holder's investments, the NAV per Unit of the Fund will be rounded up to four decimal places.

Units allocated to a Unit Holder will be rounded up to two decimal places.

4.3 Sale of Units

Minimum Initial Investment	MYR Hedged Class	RMB Hedged Class	USD Class
	RM 1,000	RMB 1,000	USD 1,000
	or such other lower amount as we may from time to time decide.		
Minimum Additional Investment	MYR Hedged Class	RMB Hedged Class	USD Class
	RM 100	RMB 100	USD 100
	or such other lower amount as we may from time to time decide.		

Application for Units must be received by us on or before the cut-off time of 4:00 p.m. on any Business Day. Any application received after 4:00 p.m. on any Business Day will be taken as an application made on the next Business Day.

Investors are required to complete the application forms, which are available at:

- (a) our head office; or
- (b) offices of our authorised distributors.

For the convenience of applicants, all authorised distributors are authorised to accept the application forms accompanied by the necessary remittance for onward transmission to us. You may contact any of our authorised distributors listed in Section 13 List of UOB Asset Management (Malaysia) Berhad's Office, Institutional Unit Trust Advisers and Authorised Distributors.

Note: We reserve the right to accept or reject any application in whole or part thereof without assigning any reason.

All applicants intending to invest in a Class other than MYR Hedged Class are required to have a foreign currency account with any financial institutions as all transactions relating to the particular foreign currency will ONLY be made via telegraphic transfers.

INVESTORS ARE ADVISED NOT TO MAKE ANY PAYMENTS IN CASH TO ANY INDIVIDUAL AGENT WHEN PURCHASING UNITS OF A FUND.

PLEASE BE ADVISED THAT IF AN INVESTOR INVESTS IN UNITS THROUGH AN IUTA WHICH ADOPTS THE NOMINEE SYSTEM OF OWNERSHIP, THE INVESTOR WOULD NOT BE CONSIDERED TO BE A UNIT HOLDER UNDER THE DEED AS THE INVESTOR'S NAME WILL NOT APPEAR IN THE REGISTER OF UNIT HOLDERS. THE INVESTOR MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT).

Unitholdings in Different Classes

Investors should note that there are differences when purchasing Units of a Class other than USD Class in the Fund, i.e. MYR Hedged Class.

For illustration purposes, assume the exchange rate of RM to USD is 0.25, and you have USD10,000 to invest. The MYR Hedged Class is priced at RM1.0000, while the USD Class is priced at USD1.0000. By purchasing Units in the MYR Hedged Class, you will receive more Units for every RM invested in the Fund, i.e. 40,000 Units, compared to purchasing Units in USD Class, i.e. 10,000 Units.

Upon a voting by poll, the votes by every Unit Holders present in person or by proxy shall be proportionate to the value of Unit held by him or her. Hence, holding more number of Units may not give you an advantage when voting at Unit Holders meetings. You should note that in a Unit Holders' meeting to terminate or wind up the Fund or a Class of Units, a special resolution may only be passed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by Unit Holders voting at the meeting, and not based on number of Units held.

4.4 Redemption of Units

Unit Holders may redeem their investments in the Fund on any Business Day by completing the prescribed redemption request form or such other manner as we may accept and returning it to us on any Business Day; the redemption request form is available at our head office and also offices of our authorised distributors. There is no restriction on the number of times a Unit Holder can redeem.

The minimum redemption amount for the Classes of Units is 1,000 Units or such other lesser Units as we may from time to time decide.

However, if the redemption request leaves a Unit Holder with less than 1,000 Units or such other lesser Units as we may from time to time decide (minimum holdings) remaining in his account, we will request the Unit Holder to redeem the remaining Units in the Unit Holder's account.

Units redeemed on or before the cut-off time of 4:00 p.m. on any Business Day (T) will be redeemed at the NAV per Unit at the close of Business Day on the day the redemption form is received by us (i.e., on a Forward Price basis).

Any redemption request received after 4:00 p.m. on any Business Day (T) will be taken as a redemption request made on the next Business Day.

Redemption proceeds will be paid within:-

- eight (8) Business Days for MYR Hedged Class;
- ten (10) Business Days for RMB Hedged Class; and
- eight (8) Business Days for USD Class;

from the date we receive a complete redemption request form.

4.5 Cooling-off Policy

A cooling-off right refers to the right of the Unit Holder to obtain a refund of his investment if he so requests within the cooling-off period (within six (6) Business Days from the date of receipt of application to purchase Units). This is to provide the Unit Holder with the opportunity to reverse his investment decision that could have been unduly influenced by certain external elements or factors. The cooling-off right is only given to an individual investor, other than those listed below, who is investing for the first time in any unit trust funds managed by us:-

- (i) our staff; and
- (ii) persons registered with a body approved by the SC to deal in unit trusts.

Within the cooling-off period, the refund to the Unit Holders for every Unit held by the Unit Holders shall be the sum of:-

- (a) the price of the Units on the day the Units were purchased; and
- (b) the sales charge originally imposed on the day the Units were purchased.

In other words, the Unit Holders shall be refunded with their original investment proceeds within ten (10) days of the date of receipt of the cooling-off notice from the Unit Holders.

4.6 Minimum Holdings

The minimum holding of Units of each of the Classes of Units is 1,000 Units or such other lesser Units as we may from time to time decide.

4.7 Policy on Gearing

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines) in connection with its activities.

However, the Fund may borrow cash for the purpose of meeting redemption requests for Units and for short-term bridging requirements. We will ensure that:

- (a) the Fund's cash borrowing is only on a temporary basis and that borrowings are not persistent;
- (b) the borrowing period should not exceed one month;
- (c) the aggregate borrowings of the Fund should not exceed 10% of the Fund's NAV at the time the borrowing is incurred; and
- (d) the Fund only borrows from financial institutions.

Except for the securities lending as provided under the Securities Borrowing and Lending Guidelines, as well as complying with relevant rules and directives issued by Bursa Malaysia, Bursa Malaysia Depository Sdn Bhd and Bursa Malaysia Securities Clearing Sdn Bhd, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

4.8 Transfer of Units

Units in the Fund are transferable subject to a minimum of 1,000 Units or such other lesser Units as we may from time to time decide, and any other terms and conditions as may be imposed by us.

However, if the transfer request leaves a Unit Holder with less than 1,000 Units (minimum holdings) remaining in the account, we will request the Unit Holder to transfer the remaining Units from the transferor's account to the transferee's account.

A copy of the "Transfer Form" can be obtained from our head office and also offices of our authorised distributors.

Prospectus in respect of the United Great Dragon Fund

4.9 Switching Facility

Unit Holders are allowed to switch from the Fund to other fund(s) (or its classes) managed by the Manager provided that the currency denomination is the same and subject to the Manager's discretion.

The minimum switching amount is 1,000 Units and the amount switched must meet the minimum initial investment amount of the intended fund (or its classes) that the Unit Holder intends to switch into. However, if the switching request leaves a Unit Holder with less than 1,000 Units (minimum holdings), we will automatically switch the balance of the Units held in the Unit Holder's account.

Also, Unit Holders are to take note that we reserve the right to reject any switching requests if we are of the view that the switching transaction is contrary with the best interest of the Fund or the existing Unit Holders of a particular Class. A copy of the "Other Transactions Form" to perform this transaction can be obtained from our office and also offices of our authorised distributors. Subject to our discretion, we may impose switching fee.

The switching transaction is subject to the conditions set out below:-

1. A unit holder who originally purchased units of a fund with "no sales charge" imposed and intends to switch into any other funds with "no sales charge" imposed, the switch will be based on the net asset value per unit of the fund that he intends to switch into.
2. A unit holder who originally purchased units of a fund with "no sales charge" imposed and intends to switch into any other funds with "sales charge" imposed, he will be required to pay the sales charge imposed by the fund that he intends to switch into.
3. If a unit holder who originally purchased units of a fund with "sales charge" imposed and decides to switch into any other funds with "higher sales charge" imposed, he will be required to pay the difference of the sales charge ("differential sales charge") on the amount switched into that fund.
4. A unit holder who originally purchased units of a fund with "sales charge" imposed and intends to switch into any other funds with "lower sales charge" imposed, the switch will be at the net asset value per unit of the fund that he intends to switch into.

Note: Investors are advised to check the eligibility criteria if they intend to switch to a wholesale fund.

Please refer to the table below for an illustration on how the switching facility works:-

SWITCHING FROM	SWITCHING TO		
CURRENT FUND (OR ITS CLASSES)	INTENDED FUND (OR ITS CLASSES)		
	Fund with "no sales charge"	Fund with "lower sales charge"	Fund with "higher sales charge"
Fund with "sales charge"	No sales charge.	No sales charge.	Differential sales charge on the amount switched.
Fund with "no sales charge"	No sales charge.	Not applicable.	Differential sales charge on the amount switched.

Please note that the net asset value per unit of the fund to be switched out and the net asset value per unit of the fund to be switched into may be of different Business Days.

4.10 Temporary Suspension of Determination of NAV and of the Issue, Switching and Redemption of Units.

We may suspend the determination of the NAV of Units in the Fund, the issue of Units, switching of Units and the redemption of Units under the following circumstances: -

- (a) during any period when dealing in the Target Fund is suspended or payment is deferred*;

Prospectus in respect of the United Great Dragon Fund

- (b) during any period when an emergency exists as a result of which disposal of the Target Fund which constitute a substantial portion of the assets of the Fund is not practically feasible or would be seriously prejudicial to the Unit Holders;
- (c) when for any other reason the prices of the Target Fund cannot be promptly or accurately be ascertained;
- (d) during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the Fund's investments cannot, in our opinion, be carried out at normal rates of exchange; and
- (e) in the event of the publication of a notice convening a Unit Holders' meeting.

Unit Holders who have requested subscription, switching or redemption of their Units will be notified in writing of any such suspension of the right to subscribe, to convert or to require redemption of units and will be promptly notified upon termination of such suspension. Any such suspension will be published in the newspapers in which the Fund's Unit prices are generally published if in our opinion the suspension is likely to exceed one (1) week. Any suspension shall be in accordance with the Deed.

Note: *For further details on temporary suspension or suspension dealing of the Target Fund, please refer to Section 2.5 Temporary Suspension or Suspension of Dealing.

4.11 Valuation of the Fund and Bases of Valuation of the Assets of the Fund

Unit Holders may contact us directly during business hours to obtain the latest price of the Fund. Please refer to the *Corporate Directory* section on page 6 for contact details.

Note: Valuation point is the particular point in time on a Business Day, as we may decide, at which the NAV of the Fund is calculated.

The income distribution will be paid to you by way of transfer into a bank account held in your name.

You should note that income distribution (if any) which is less than 300 in the denominated currency of the Fund/Class, or such other amount as we may from time to time decide, will be automatically reinvested into your account in the form of additional Units at no cost, based on the NAV per unit on the income declaration date. Income distribution (if any) that cannot be credited into your bank account after one (1) month from the date of payment will be automatically reinvested into your account in the form of additional Units at no cost, based on the NAV per unit at the end of the fifteenth (15th) day after the said one (1) month period. CHAPTER 10: TAX ADVISER'S LETTER

3 July 2020

The Board of Directors
UOB Asset Management (Malaysia) Berhad
Level 22, Vista Tower
The Intermark

50400 Kuala Lumpur

Dear Sirs

United Great Dragon Fund Taxation of the Fund and Unit Holders

1. This letter has been prepared for inclusion in the First Prospectus in connection with the offer of units in the United Great Dragon Fund (hereinafter referred to as "the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the First Prospectus with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor's individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund's Trustee is resident in Malaysia, the Fund is regarded as resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA").

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously

enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive dividends, profits and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a unit trust is exempted from Malaysian income tax. However, such income may be subject to foreign tax in the country from which the income is derived.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts ("REIT") will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager's remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. The Fund would not be required to pay Service Tax on the acquisition of fund management services from the Fund Manager.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an adhoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia :-

Unit Holders	Malaysian Tax Rates for Year of Assessment 2019	Malaysian Tax Rates for Year of Assessment 2020
<p>Malaysian tax residents:</p> <ul style="list-style-type: none"> ▪ Individual and non-corporate Unit Holders ▪ Co-operative societies <p>Malaysian tax residents:</p> <ul style="list-style-type: none"> ▪ Trust bodies ▪ Corporate Unit Holders <ul style="list-style-type: none"> i. The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders,

whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.3 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.4 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.5 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.6 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

Yours faithfully

Mark Chan Keat Jin
Executive Director

7. UNIT TRUST LOAN FINANCING DISCLOSURE STATEMENT

Investing In a Unit Trust Fund With Borrowed Money Is More Risky Than Investing With Your Own Savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- 1 The higher the margin of the financing (that is, the amount of money you borrow for every Ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
- 2 You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- 3 If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your limits may be sold towards the settlement of your loan.
- 4 Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

9. UNIT TRUST LOAN FINANCING DISCLOSURE STATEMENT

Investing In a Unit Trust Fund With Borrowed Money Is More Risky Than Investing With Your Own Savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- 1 The higher the margin of the financing (that is, the amount of money you borrow for every Ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
- 2 You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- 3 If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your limits may be sold towards the settlement of your loan.
- 4 Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
