2. A Unit Holder who originally purchased units of a fund with “no sales charge” imposed and intends to switch into any other funds with “sales charge” imposed, he will be required to pay the sales charge imposed by the fund that he intends to switch into.

THERE ARE FEES AND CHARGES INVOLVED AND SOPHISTICATED INVESTORS ARE ADVISED TO CONSIDER THE FEES AND CHARGES BEFORE INVESTING IN THE FUND.

FOR INFORMATION CONCERNING CERTAIN RISK FACTORS WHICH SOPHISTICATED INVESTORS SHOULD CONSIDER, PLEASE REFER TO THE "RISK FACTORS" SECTION COMMENCING ON PAGE 8.

CHAPTER 2: RISK FACTORS

The Manager encourages Unit Holders to give careful consideration to the risks associated when investing in the Fund and, accordingly, to obtain independent financial and taxation advice before investing in the Fund.

2.1 GENERAL RISKS OF INVESTING IN THE FUND

*Below are some of the **general risks** which Unit Holders should be aware of when investing in the Fund:*

a) Market Risk

Market risk refers to potential losses that may arise from changes in the market conditions which may affect the market prices of the investments of the Fund and hence the NAV of the Fund. Market conditions are generally affected by, amongst others, social environment, political and economic stability.

b) Management Risk

The performance of the Fund is affected by the experience, expertise and investment strategy of the Manager. A lack of experience, knowledge and expertise, as well as poor execution of the investment strategy of the Fund may affect the returns of the Fund and may result in a loss of the capital invested.

c) Inflation Risk

Inflation risk is a risk of an investor's investment not growing at a rate that keeps pace with the inflation rate, thereby decreasing the investor's purchasing power even though the investment in monetary terms may have increased.

d) Non-compliance Risk

Non-adherence with laws, rules, regulations, prescribed practices, internal policies and procedures may adversely affect the Fund's investment when the Manager takes action to rectify the non-compliance. Investment goals may also be affected should the Manager not adhere to the investment mandate (such as the Fund's investment objective and investment policy and strategy). The non-adherence may be the outcome from human error (for instance the oversight of the Manager) or system failure (causing unnecessary downtime). The magnitude of such risk and its impact on the Fund and/or Unit Holders are dependent on the nature and severity of the non-compliance. In order to mitigate this risk, the Manager has stringent internal controls and ensures that compliance monitoring processes are undertaken.

2.2 SPECIFIC RISKS RELATED TO THE FUND

*Below are some of the **specific risks** when investing in the Fund:*

Risk of Passive Strategy

The Fund adopts a passive strategy of investing a minimum of 90% of its NAV into the Target Fund at all times. This passive strategy would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's NAV declines. All investment decisions on the Target Fund are left with the Target Fund's fund manager.

Currency Risk

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuations in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments.

Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa.

Investors should also note that any gains or losses arising from the fluctuation in exchange rate may further increase or decrease the returns of the investment.

For the AUD hedged Class / GBP hedged Class / MYR hedged Class / SGD hedged Class

Investors in the AUD hedged Class / GBP hedged Class / MYR hedged Class / SGD hedged Class are subject to minimal currency risk as the Manager will as much as practicable mitigate this risk by hedging these currencies against the Base Currency of the Fund. Investors should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when USD moves favourably against these currencies. Additional transaction costs of hedging will also be borne by investors in these Class(es) of Units.

For MYR Class

Investors in the MYR Class will be exposed to currency risk at the Class level in addition to any currency risks on the investments at the Fund level as the Manager will not hedge the currency exposure of the Class against the Base Currency of the Fund. When MYR moves unfavourably against the USD, the Class may face currency loss which will affect the NAV of the Class, and consequently the NAV per Unit of the Class.

In addition, Sophisticated Investors who intend to invest in the MYR Class should be aware that as there are other hedge Class(es) of Units which will be offered for sales, any unrealized gain or loss on the currency forward for those hedged Class(es) of Units will have an impact on the Fund when calculating the fees and charges of the Fund, and consequently it will affect the NAV of the Class as well as the NAV per Unit of the Class.

For USD Class

As the USD Class is denominated in the same currency as the Base Currency of the Fund, hence investors in the USD Class should not be subjected to any currency risk at the Class level. However, Sophisticated Investors who intend to invest in the USD Class should be aware that as there are other hedge Class(es) of Units which will be offered for sales, any unrealized gain or loss on the currency forward for those hedged Class(es) of Units will have an impact on the Fund when calculating the fees and charges of the Fund, and consequently it will affect the NAV of the Class as well as the NAV per Unit of the Class.

Risk of Compulsory Realisation of the Target Fund

As the Fund will be investing a minimum of 90% of its NAV in the Target Fund, any event of compulsory realisation occurred on the Target Fund will have an impact to the Fund. Investors are advised to understand the compulsory realisation of the Target Fund at *Section 3.6 Compulsory Realisation*.

Under such circumstances, the Manager, in consultation with the Trustee will call for a Unit Holder's meeting to decide on whether to terminate the Fund or replace the Target Fund with a new target fund with similar investment objective.

Risk of Limitation on Realisation of the Target Fund

As the Fund will hold not more than 10% of the NAV of the Fund in liquid assets, any event of limitation on realisation at the Target Fund will have an impact to the Fund. Sophisticated Investors are advised to understand the limitation on realisation of the Target Fund as set out in *Section 3.7 Limitation on Realisation*.

Under such circumstances, the Manager, in consultation with the Trustee will give a written notice to those Unit Holders who have sent in their redemption requests, where their redemption proceeds may be returned later than the time agreed.

Note: A replacement of the Target Fund or termination of the Fund would require Unit Holders' approval.

2.3 SPECIFIC RISKS RELATED TO THE TARGET FUND

Country risk – China

All investments in China are subject to the risks described under “Emerging market risk” set out in the Target Fund’s prospectus dated June 2017. In addition, investments that are purchased or held in connection with a QFII licence or the Stock Connect program may be subject to additional risks, as follows.

QFII Licence

The Target Fund may invest in local Chinese securities (“China A securities”) using a qualified foreign institutional investor (“QFII”) license. Chinese regulators require that the name of the QFII licence holder be used in connection with assets held on behalf of the Target Fund. The regulators acknowledge that the assets in the Target Fund’s account belong to the Target Fund and not to the Investment Manager of the Target Fund or Sub-Investment Manager of the Target Fund, and the depository has set up a sub-account in the name of each relevant fund (which is allowed under Chinese law). However, should creditors of the QFII assert that the assets in the accounts are owned by the QFII and not the Target Fund, and if a court should uphold this assertion, creditors of the QFII could seek payment from the assets of the Target Fund.

Stock Connect

The Target Fund may invest in certain Shanghai-listed and Shenzhen-listed securities (“Stock Connect Securities”) through the Shanghai-Hong Kong Stock Connect or the Shenzhen-Hong Kong Stock Connect respectively (“Stock Connect”), a joint securities trading and clearing program designed to permit mutual stock market access between mainland China and Hong Kong. Stock Connect is a joint project of the Hong Kong Exchanges and Clearing Limited (“HKEC”), China Securities Depository and Clearing Corporation Limited (“ChinaClear”), the Shanghai Stock Exchange and the Shenzhen Stock Exchange. Hong Kong Securities Clearing Company Limited (“HKSCC”), a clearing house that in turn is operated by HKEC, acts as nominee for investors accessing Stock Connect Securities.

Risks of investing through Stock Connect include:

- The regulations governing the Stock Connect are untested. It is uncertain how they will be applied, and they could be changed.
- Similar to the situation with securities held under a QFII licence, creditors of the nominee or sub-custodian could assert that the assets in accounts held for the Target Fund are actually assets of the nominee or sub-custodian. If a court should uphold this assertion, creditors of the nominee or sub-custodian could seek payment from the assets of the Target Fund. HKSCC, as nominee, does not guarantee the title to Stock Connect securities held through it and is under no obligation to enforce title or other rights associated with ownership on behalf of beneficial owners (such as the Target Fund). Consequently, title to such securities, or the rights associated with them (such as participation in corporate actions or shareholder meetings), cannot be assured.
- Should the SICAV or Target Fund suffer losses resulting from the performance or insolvency of HKSCC, it is possible that the SICAV would have no direct legal recourse against HKSCC, because it is uncertain whether Chinese law recognizes any direct legal relationship between HKSCC and either the SICAV or the custodian.
- Should ChinaClear default, HKSCC’s contractual liabilities will be limited to assisting participants with claims. The Target Fund’s attempts to recover lost assets could involve considerable delays and expenses, and may not be successful.
- As at June 2017, investors will be able to trade up to Renminbi (“RMB”) 300 billion of Stock Connect Securities subject to a daily maximum of RMB13 billion. Buy orders and sell orders offset each other for the purposes of the quota. If either the daily or aggregate quota is exceeded, further buy orders will be rejected, either until the next trading day (in case of the daily quota) or until the next trading day when sufficient aggregate quota is available. These quotas are not particular to either the Target Fund or the Investment Manager of the Target Fund, they apply to all market participants generally. If the Investment Manager of the Target Fund is unable to purchase additional Stock Connect Securities, it may affect the implementation of the Target Fund’s investment strategy.
- A stock may become ineligible for trading via Stock Connect. This may affect the investment portfolio or strategies of the Target Fund.

- The relevant rules and regulations on the Stock Connect are subject to change which may have potential retrospective effect. The Stock Connect is subject to quota limitations. Where a suspension in the trading through the programme is effected, the Target Fund's ability to invest in China A-shares or access the PRC market through the programme will be adversely affected. In such event, the Target Fund's ability to achieve its investment objective could be negatively affected.

Country risk – Russia and Ukraine

In these countries, risks associated with custody and counterparties are higher than in developed countries. Russian custodial institutions observe their own rules, have significantly less responsibilities to investors, may be poorly regulated, or may otherwise be susceptible to fraud, negligence or error. The Russian securities market may also suffer from impaired efficiency and liquidity, which may worsen price volatility and market disruptions.

Direct investment in Russian securities that are not traded through the Russian Trading System and the Moscow Interbank Currency Exchange is limited to 10% of Target Fund assets. However, as the Russian Trading System and the Moscow Interbank Currency Exchange are recognized as regulated markets, securities that are listed or traded on those markets are not subject to that 10% limit. This does not mean these securities are free from the risks mentioned in the previous paragraph, or from a generally higher degree of risk than, for example, comparable European or US securities. Russia and Ukraine also can be subject to strong or sudden political risks, such as sanctions or military actions.

Equity risk

In general, equities involve higher risks than bonds or money market instruments. Equities can lose value rapidly, and can remain at low prices indefinitely. Equities of rapidly growing companies can be highly sensitive to bad news, because much of their value is based on high expectations for the future. Equities of companies that appear to be priced below their true value may continue to be undervalued. If a company goes through bankruptcy or a similar financial restructuring, its equities may lose most or all of their value.

Geographic concentration risk

To the extent that the Target Fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by any social, political, economic, environmental or market conditions within that area. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly.

Hedging risk

The Target Fund's attempts to reduce or eliminate certain risks may not work as intended. To the extent that the Target Fund takes measures that are designed to offset specific risks (such as seeking to eliminate currency risks in a share class that is denominated in a different currency than the Target Fund's portfolio), these measures may work imperfectly, may not be feasible at times, or may fail completely. Hedging involves costs, which reduce investment performance. To the extent that a hedge is successful, it generally eliminates opportunities for gain as well as risks of loss.

Investment fund risk

As with any investment fund, investing in the Target Fund involves certain risks an investor would not face if investing in markets directly:

- the actions of other investors, in particular sudden large outflows of cash, could interfere with orderly management of the Target Fund and cause the Target Fund's NAV to fall
- the investor cannot direct or influence how money is invested while it is in the Target Fund
- the Target Fund's buying and selling of investments may not be optimal for the tax efficiency of any given investor
- the Target Fund is subject to various investment laws and regulations that limit the use of certain securities and investment techniques that might improve performance; to the extent that the Target Fund decides to register in jurisdictions that impose narrower limits, this decision could further limit the Target Fund's investment activities
- because the Target Fund is based in Luxembourg, any protections that would have been provided by other regulators (including, for investors outside Luxembourg, those of their home regulator) may not apply

- because the Target Fund shares are not publicly traded, the only option for liquidation of shares is generally redemption, which could be subject to delays and any other redemption policies set by the Target Fund

Issuer concentration risk

To the extent that the Target Fund invests a large portion of its assets in securities from a relatively small number of issuers, its performance will be more strongly affected by any business, industry, economic, financial or market conditions affecting those issuers. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly.

Management risk

The Investment Manager of the Target Fund or its designees may at times find their obligations to the Target Fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably).

Market risk

Prices of many securities change daily, and can fall based on a wide variety of factors. Examples of these factors include:

- political and economic news
- government policy
- changes in technology and business practices
- changes in demographics, cultures and populations
- natural or human-caused disasters
- weather and climate patterns
- scientific or investigative discoveries
- costs and availability of energy, commodities and natural resources

The effects of market risk can be immediate or gradual, short-term or long-term, narrow or broad.

Operational risk

The Target Fund may be subject to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, and trading, among other things. In addition, in any market, but especially in emerging markets, there could be losses due to fraud, corruption, political or military actions, the seizure of assets, or other irregular events.

Sector concentration risk

To the extent that the Target Fund invests a large portion of its assets in a particular economic sector (or, for bond funds, a particular market segment), its performance will be more strongly affected by any business, industry, economic, financial or market conditions affecting that sector or segment of the fixed income market. This can mean higher volatility and risk of loss as compared to a fund that invests more broadly.

Small and mid-cap stock risk

Stocks of small and mid-size companies can be more volatile than stocks of larger companies. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of long-term or permanent business setbacks. Initial public offerings can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.

Style risk

Different investment styles typically go in and out of favour depending on market conditions and investor sentiment. At any given time, for instance, a growth-style portfolio may underperform a value-style portfolio, or vice-versa, and either may at any time underperform the market as a whole.

2.4 RISK MITIGATION

The risk management strategies and techniques employed will be at the Target Fund level, where the Investment Manager of the Target Fund combines financial techniques and instruments to manage the overall risk of the Target Fund's portfolio includes diversification in terms of its exposure to various industries and sectors.

In addition, the Manager may take temporary defensive positions that may be inconsistent with the Fund's investment strategy in response to adverse economic, political or market conditions. In such circumstances, the Fund may hold up to 100% of its assets in liquid assets as a defensive strategy. The Fund will also be monitored daily to ensure compliance with the permitted investments and restrictions.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH POTENTIAL SOPHISTICATED INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. POTENTIAL SOPHISTICATED INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME.

YOU SHOULD RELY ON YOUR OWN EVALUATION TO ASSESS THE MERITS AND RISKS OF AN INVESTMENT. YOU SHOULD READ AND UNDERSTAND THE CONTENTS OF THIS INFORMATION MEMORANDUM AND, IF NECESSARY, CONSULT YOUR ADVISER(S) BEFORE MAKING AN INVESTMENT DECISION.

Investment Objective

The Target Fund aims to increase the value of its shares, over the long term, through growth in the value of its investments.

Investment Focus and Approach

The Target Fund invests mainly in a diversified portfolio of stocks of technology development or utilization companies, with a focus on leading global technology companies. The companies may be anywhere in the world, including emerging markets.

Specifically, the Target Fund invests at least two-thirds of total assets in equity and equity-related securities of technology-focused companies, such as common stocks, preferred stocks, warrants, American depository receipts, European depository receipts and global depository receipts .

The Target Fund does not invest more than one-third of its assets in debt and money market securities.

The Target Fund may use derivatives for hedging and efficient portfolio management.

The Investment Manager of the Target Fund's investment approach is to:

- Utilise a proprietary global research platform in the analysis of companies, sectors and industry trends.
- Invest primarily in medium- to large-sized companies with strong and/or increasing market share and product pipelines that appear to be strategically poised for long-term growth.
- Seek to avoid investing in overvalued stocks by purchasing companies with strong business models and ensuring that multiples are reasonable relative to a company's history, its peers, and the market.

Limits to Promote Diversification

To help ensure diversification, the Target Fund cannot invest more than a certain amount of its assets in one issuer or one category of securities. For purposes of this table and the next, companies that share consolidated accounts are considered a single body.

Category of securities		Maximum investment, as a % of the Target Fund assets:		
		In any one issuer or body	In aggregate	Other
A.	Transferable securities and money market instruments issued or guaranteed by an EU member, a public local authority within the EU, an international body to which at least one EU member belongs, a non-EU nation.	35%		
B.	Bonds subject to certain legally defined investor protections* and issued by a credit institution domiciled in the EU	25%		
C.	Any transferable securities and money market instruments other than those described in rows A. and B. above	10%	20%	35%
D.	Credit institution deposits	20%		
E.	OTC derivatives with a counterparty that is a credit institution as defined in row 7. in the table above	10% exposure		
F.	OTC derivatives with any other counterparty	5% exposure		
G.	Units of UCITS or UCIs as defined in rows 3. and 4. in the table above	With no specific statement of policy, 10%; with a statement, 20%	By law, 30% in non-UCITS and 100% in UCITS, but SICAV imposes its own limit of 10% on both (unless otherwise specified in the Target Fund's investment policy)	UCI compartments whose assets are segregated are each considered a separate UCI. Assets held by the UCITS/UCIs do not count for purposes of complying with rows A.-F. of this table.

* Bonds must invest the proceeds from their offerings to maintain full liability coverage and to give priority to bond investor repayment in case of issuer bankruptcy.

“Six Issue” rule

The Target Fund may invest in as few as six issues if it is investing in accordance with the principle of risk spreading and meets both of the following criteria:

- i) the issues are transferable securities or money market instruments issued or guaranteed by an EU member, a public local authority within the EU, another Organisation for Economic Co-operation and Development member or an international body to which at least one EU member belongs
- ii) the Target Fund invests no more than 30% in any one issue

Limits to Prevent Concentration of Ownership

These limits, which apply on the Target Fund level, with the exception of the first limit below which applies at the SICAV level, are intended to prevent the SICAV from the risks that could arise for it and the issuer if the SICAV were to own a significant percentage of a given security or issuer.

Category of securities	Maximum ownership, as a % of the total value of the securities issue		
Securities carrying voting rights	Less than would allow the SICAV significant management influence.		
Non-voting securities of any one issuer	10%		
Debt securities of any one issuer	10%	These limits can be disregarded at purchase if not calculable at that time.	These rules do not apply to: <ul style="list-style-type: none"> ▪ units of the master fund ▪ shares of non-EU funds that represent the only way a fund can invest in the non-EU fund's home country and that comply with articles 43, 46 and 48 (1) and (2) of the 2010 Law
Money market securities of any one issuer	10%		
Shares of any one UCITS or UCI (per Article 2 (2) of the 2010 law)	25%		

3.4 FEES CHARGED BY THE TARGET FUND

Entry Charge	Nil.
Exit Fee	Nil.
Annual Management Fee	Nil.
Operating and Administrative Expenses	Up to 0.10% per annum, and which includes the following fees: <ul style="list-style-type: none"> a) Custodial fee The fee varies with the amount of assets in custody. The fee range is from 0.0005%-0.017% per annum. Certain other out-of-pocket expenses borne by the custodian may also be charged to the Target Fund. b) Administrative agent fee The fee varies with the SICAV's net assets. The fee range is from 0.01%-0.07% per annum of the SICAV's assets or USD40,000, whichever is higher.

Note: Prospective investors should take note that although the Target Fund has waived the entry charge, however, there are certain fees and expenses which will be charged by the Target Fund as mentioned above and investors will hence be subjected to higher fees and expenses indirectly.

3.5 TEMPORARY SUSPENSION OR SUSPENSION OF DEALING

Detailed below are excerpts of the suspension of dealings applicable to the Target Fund as set out in the Target Fund's prospectus dated June 2017, which may be amended from time to time. For better understanding on the consequences of temporary suspension or suspension of dealing to the Fund, investors may also refer to *Section 4.7 Temporary Suspension of Determination of NAV and of the Issue, Switching and Redemption of Units*.

3.5.1 The SICAV reserves the right to temporarily suspend the calculation of NAVs and/or transactions in the Target Fund's shares when any of the following is true:

- the principal stock exchanges or markets associated with a substantial portion of the Target Fund's investments are closed during a time when they normally would be open, or their trading is restricted or suspended
- one or more other funds in which the Target Fund has invested material assets has suspended its NAV calculations or share transactions
- a disruption of communication systems or other emergency has made it impractical to reliably value or to trade the Target Fund assets
- notice has been given of a shareholder meeting at which it will be decided whether or not to liquidate the Target Fund or the SICAV
- the CSSF has approved the suspension
- any other circumstance exists that would justify the suspension for the protection of shareholders

A suspension could apply to any type of request (buy, switch, redeem). The SICAV can also refuse to accept requests to buy shares. The SICAV will not refuse requests to switch or redeem shares, but these requests may be held and placed in line for processing on the next business day.

The Fund will be notified within 7 days if there has been a delay in processing orders at the Target Fund due to a suspension.

3.6 COMPULSORY REALISATIONS

The SICAV reserves the right to do any of the following at any time:

- Redeem the Fund's shares and send the Fund the proceeds if the Fund's balance is drawn down below any stated minimum value. The SICAV will give the Fund 30 calendar days' notice before doing so, to allow the Fund time to buy more shares, switch to another class or redeem the shares. (If a balance falls below the minimum because of fund performance, the SICAV will not close the account.) If the proceeds are worth more than USD20, the SICAV will send them to the registered shareholder(s), and close the account. If they are worth less than USD20, they will be returned to the Target Fund for the benefit of its shareholders.
- Redeem the Fund's shares and send the Fund the proceeds or switch the Fund's holding to another class if the Fund no longer meets the qualifying criteria for the share class the Fund holds. The SICAV will give the Fund 30 calendar days' notice before doing so, to allow the Fund time to switch to another class or redeem the shares.
- Compel an ineligible shareholder to relinquish ownership of the Target Fund shares. If the SICAV's board of directors becomes aware that shares are owned by an ineligible owner (such as a US investor), are being held in violation of any law or regulation, or the circumstances of ownership may have adverse effects for the SICAV or shareholders, the SICAV's board of directors will either void the acquiring transaction, require a new transfer to an eligible owner, or liquidate the shares. The SICAV will not be held liable for any gain or loss associated with such actions.

3.7 LIMITATION ON REALISATION

The SICAV may limit how many shares are redeemed on a single business day. On any business day, the Target Fund will not be obligated to process redemptions that, in total, are equal to more than 10% of its net assets. Redemption orders in excess of the 10% limit may be delayed for processing at the next business day in priority to later redemptions received by the SICAV. The Target Fund will only limit redemptions when necessary to prevent liquidity constraints that would be detrimental to remaining shareholders.

CHAPTER 4: TRANSACTION INFORMATION

4.1 COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point.

Sophisticated Investors should note that the NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point.

The NAV per Unit of a Class of Units is the NAV of the Fund attributable to a Class of Units divided by the number of Units in circulation for that particular Class of Units, at the same valuation point.

The valuation of the Fund will be carried out in the Base Currency. Accordingly, all assets that are not denominated in USD will be translated to USD for valuation purposes. The foreign exchange rate used for this purpose shall be the bid foreign exchange rate quoted by Reuters or other reputable information service providers at 4.00 p.m. United Kingdom time as at the valuation point of the Fund or such rate or method as may be prescribed under the relevant laws from time to time.

Due to multiple Classes of Units in the Fund, the income, expenses, indirect fees and/or charges for the Fund are apportioned based on the value of the Class of Units of the Fund (quoted in the Base Currency) relative to the value of the whole Fund (also quoted in the Base Currency), which is shown as multi-class ratio.

Please refer to the illustration below for better clarity.

	Units in circulation							15,000,000
	NAV per Unit of USD Class (rounded to 4 decimal places)							<u>USD1.0000</u>

**Please note that any unrealized gain or loss on the currency forward for AUD hedged Class, GBP hedged Class, MYR hedged Class and SGD hedged Class will have an impact on the Fund when calculating the fees and charges of the Fund.*

Please note that the calculation set out above is for illustration purposes only.

4.2 PRICING OF UNITS

The Manager adopts a single pricing policy which means that the selling price and redemption price of Units will be quoted based on a single price, i.e., the NAV per Unit. The NAV per Unit is calculated at the next valuation point on a forward pricing basis.

Policy on rounding adjustment

In calculating a Unit Holder's investments, the NAV per Unit of the Fund will be rounded up to four decimal places.

Units allocated to a Unit Holder will be rounded up to two decimal places.

4.3 SALE OF UNITS

Class(es) of Units	AUD hedged Class	GBP hedged Class	MYR Class	MYR hedged Class	SGD hedged Class	USD Class
Minimum Initial Investment	AUD 1,000	GBP 1,000	RM 1,000	RM 1,000	SGD 1,000	USD 1,000
	or such other amount as the Manager may from time to time accept.					
Minimum Additional Investment	AUD 100	GBP 100	RM 100	RM 100	SGD 100	USD 100
	or such other amount as the Manager may from time to time accept.					

The Fund is open for subscription on each Business Day.

Application for Units must be received by the Manager before the cut-off time of 4.00p.m. on any Business Day. Any application received after 4.00p.m. on any Business Day will be taken as an application made on the next Business Day.

Sophisticated Investors are required to complete application forms, which are available at:

- (a) the head office of the Manager; or
- (b) authorized distributors of the Manager throughout Malaysia.

For the convenience of applicants, all authorized distributors are authorized to accept the application forms accompanied by the necessary remittance for onward transmission to the Manager.

Note: The Manager reserves the right to accept or reject any application in whole or part thereof without assigning any reason.

All applicants intending to invest in a Class other than MYR Class and MYR hedged Class are required to have a foreign currency account with any financial institutions as all transactions relating to the particular foreign currency will ONLY be made via telegraphic transfers.

INVESTORS ARE ADVISED NOT TO MAKE ANY PAYMENTS IN CASH TO ANY INDIVIDUAL AGENT WHEN PURCHASING UNITS OF A FUND.

PLEASE BE ADVISED THAT IF THE SOPHISTICATED INVESTOR INVESTS IN UNITS THROUGH AN IUTA WHICH ADOPTS THE NOMINEE SYSTEM OF OWNERSHIP, THE SOPHISTICATED INVESTOR WOULD NOT BE CONSIDERED TO BE A UNIT HOLDER UNDER THE DEED AS THE SOPHISTICATED INVESTOR'S NAME WILL NOT APPEAR IN THE REGISTER OF UNIT HOLDERS. THE SOPHISTICATED INVESTOR MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT).

Unitholdings in Different Classes

Investors should note that there are differences when purchasing Units of a Class other than USD Class in the Fund, i.e. AUD hedged Class, GBP hedged Class, MYR Class, MYR hedged Class and SGD hedged Class.

For illustration purposes, assume the exchange rate of USD and RM is 3.00, and you have USD10,000 to invest. The USD Class is priced at USD1.0000, while the MYR hedged Class is priced at RM1.0000. By purchasing Units in the MYR hedged Class, you will receive more Units for every USD invested in the Fund, i.e. 30,000 Units, compared to purchasing Units in USD Class, i.e. 10,000 Units.

Upon a poll every Unit Holders present in person or by proxy shall be proportionate to the value of Unit held by him or her. Hence, holding more number of Units may not give you an advantage when voting at Unit Holders meetings. You should note that in a Unit Holders' meeting to terminate or wind up the Fund, a special resolution may only be passed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by Unit Holders voting at the meeting, and not based on number of Units held.

4.4 REDEMPTION OF UNITS

Unit Holders may redeem their investments in the Fund on any Business Day by completing the prescribed redemption request form or such other manner as the Manager may accept and returning it to the Manager on any Business Day; the redemption request form is available at the head office of the Manager and also offices of the authorized distributors. There is no restriction on the number of times a Unit Holder can redeem.

Units redeemed before the cut-off time of 4.00p.m. on any Business Day will be redeemed at the NAV per Unit calculated as at the next valuation point after the redemption request was received by the Manager (i.e., on a forward price basis).

Any redemption request received after 4.00p.m. on any Business Day will be taken as a redemption request made on the next Business Day.

The minimum redemption amount is 1,000 Units or such other number of Units as the Manager may from time to time decide.

However, if the redemption request leaves a Unit Holder with less than 1,000 Units (minimum holdings) remaining in his account, the Manager will request the Unit Holder to redeem the remaining Units in the Unit Holder's account.

Redemption proceeds will be paid within fourteen (14) Business Days of the date the Manager receives a complete redemption request form. However, please refer to *Section 3.7 Limitation on Realisation* whereby any event of limitation on realisation occurred on the Target Fund will have an impact to the Fund. Under such circumstances, the Manager, in consultation with the Trustee will give a written notice to those Unit Holders who have sent in their redemption requests, where their redemption proceeds may be returned later than the time agreed.

4.5 PERIODIC REPORTING TO UNIT HOLDERS

Unit Holders will receive the following statements and reports:

- Confirmation of investment statements detailing his investment, which will be sent within ten (10) Business Days from the date monies are received by the Manager for investment in the Fund. This confirmation will include details of the Units purchased;
- Monthly statements of account which shows the balance of Unit Holders' investments and all transactions made during the month, distribution details and investment value;

- Quarterly reports and annual reports which will be sent to all Unit Holders within two (2) months from the end of each financial quarter; and
- If distribution is declared by the Fund, Unit Holders will receive a statement of distribution, detailing the nature and amount of distribution by the Fund and a tax statement or voucher for submission to the Inland Revenue Board of Malaysia upon their request.

4.6 BASES OF VALUATION OF THE ASSETS OF THE FUND AND VALUATION FOR THE FUND

4.6.1 BASES OF VALUATION OF THE ASSETS OF THE FUND

Investment Instruments	Valuation Basis

Financial derivatives	Financial derivatives positions will be marked to market using valuation prices quoted by the financial derivatives' providers at the close of the Business Day of the respective markets on the same calendar day.
Money market instruments	Investments in money market instruments are valued at book cost, meaning cost of acquisition plus accretion of discount on yield to maturity method.

Foreign exchange rate conversion	Where the value of an asset of the Fund is denominated in foreign currency (if any), the assets are translated to Ringgit Malaysia for a Business Day using the bid foreign exchange rate quoted by Reuters, at United Kingdom time 4.00p.m on the same calendar day.

4.6.2 VALUATION FOR THE FUND

The Fund must be valued at least once every Business Day. The valuation of the Fund will be carried out in a fair and accurate manner.

As the Fund will invest in a foreign market, the valuation of the Units in respect of a particular Business Day can only be carried out on the following Business Day at the close of business of the foreign market in which the Fund invests in.

Note: Valuation point is the particular point in time on a Business Day, as the Manager may decide, at which the NAV of the Fund is calculated.

Unit Holders may contact the Manager directly during business hours to obtain the latest price of the Fund. *Please refer to the Corporate Directory section at page IV for contact details.*

4.7 TEMPORARY SUSPENSION OF DETERMINATION OF NAV AND OF THE ISSUE, SWITCHING AND REDEMPTION OF UNITS

The Manager may suspend the determination of the NAV of Units in the Fund, the issue of Units, switching of Units and the redemption of Units under the following circumstances:

- (a) during any period when dealing in Target Fund is suspended or payment is deferred*;
- (b) during any period when an emergency exists as a result of which disposal of the Target Fund which constitute a substantial portion of the assets of the Fund is not practically feasible or would be seriously prejudicial to the Unit Holders;
- (c) when for any other reason the prices of Target Fund cannot be promptly or accurately be ascertained;
- (d) during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the Fund's investments cannot, in the opinion of the Manager, be carried out at normal rates of exchange; and
- (e) in the event of the publication of a notice convening an Unit Holders' meeting.

Unit Holders who have requested subscription, switching or redemption of their Units will be notified in writing of any such suspension of the right to subscribe, to convert or to require redemption of units and will be promptly notified upon termination of such suspension. Any such suspension will be published in the newspapers in which the Fund's Unit prices are generally published if in the opinion of the Manager the suspension is likely to exceed one (1) week. Any suspension shall be in accordance with the Deed.

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a Unit Trust Fund With Borrowed Money Is More Risky Than Investing With Your Own Savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- 1) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
- 2) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- 3) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.
- 4) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing In a Unit Trust Fund With Borrowed Money Is More Risky Than Investing With Your Own Savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.
4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
